A Popular Candidate.

Since the announcement of Mr. Hazen' candidature, he and his friends have received the most gratifying assurances of support from all parts of the constituency. The universal verdict of the influential electors throughout the County is, that Mr. Hazen must be elected. The people recognize in career that the future has in store for him.

Necessary Legislation.

Probably there is no legislation more neces sary and desirable for the protection of the laborer at the present time, than a good lien law, such an one as Mr. Wetmore, during the last session of the Legislature, attempted to have put through, and which would have found a place on the statute book, but for the Opposition of the Attorney General. Mr. Hazen is strongly pronounced in favor of a lien law, and will use his best endeavours, i elected, to secure such legislation. In his remarks in accepting the nomination of his party, Mr. Hazen spoke warmly of the necessity for a lien law, and instanced how, during the present season, scores of our own York County laborers have suffered for want of the protection a lien law would afford.

Great Progress.

The progress made in the construction of the Canadian Pacific Railway, is one of the wonders of the age. The other day, Vice-President Vanhorne cabled Sir Charles Tup-May, the Canadian Pacific Company will be will astonish many."

They Will Call a Convention.

Mr. Blair has assumed the role of humbl copyist. The Opposition party held a Convention to nominate a candidate for the Assembly, and now Mr. Blair is going to hold a convention. This is quite proper. "A con. vention is a good thing." Mr. Blair always controlled the party from his back office, but Mr. Gregory, his partner has likely hinted to Mr. Blair, that a candidate selected in that locality, isn't the popular thing. No doubt Mr. Blair was quite willing to admit that Mr. Gregory was an authority on that matter, bowed at once to his opinion, and now they are to have a convention.

We might retaliate on Messrs. Gregory & Blair, and tell the people that they have already selected their candidate, and that they are only making tools of our country friends in calling them together in Convention, but we do not care to adopt that course. Let them select a candidate, and let us have a fair stand up fight.

Mr. Blair as a Constitutional Lawyer.

What Mr. Blair don't know as a constitutional lawyer, would fill very many volumes. He has occupied the responsible position of law officer of the Government but a short time, but during that limited period, he has contrived to make more blunders than ought contrived to make more blunders than ought the people as a political Sir Galahad, who contrived to make more blunders than ought the people as a political Sir Galahad, who complete the responsible position of the number and variety the number and variety which did not subside till the Halifax boys the North-west, how soon could they be ready to move. Mr. Blair's first blunder was in passing the law Stamps Act, the principle of which was declared unconstitutional in Quebec. Then lawyer. he got a grant passed for the Fredericton Bridge, and was compelled to ask the Legislature the next session to make it legal. About the same time Mr. Blair took it into his head to do away with Government House and abolish the Private Secretary. He passed a bill embodying both these boasted reforms, but again we learn he has come to grief. The payment of the Secretary is a part of the agreement the Province entered into under the terms of Responsible Government and has been informed of the fact, we understand ally. through the medium of the Governor General, who disallowed the bill, so Mr. Blair again takes a back seat, and Government House and the Private Secretary remain.

A Great Constitutional Lawver is this same Mr. Blair.

Redskins.

The news from the North West to-day, brings a meagre account of a battle fought with the Indians on Sunday near Battleford. General Middleton has been waiting for supplies, which were received yesterday, and it is supposed be will attack Riel immediately at Batouche crossing. An account of Col. Otter's fight follows:

after supplies, transports, etc., and keeping the men in the field supplied with food and the horses with fodder. General Laurie, at Swift Current, has charge of this, and is rapidly getting it into good working order. Sitting down in the Minister's office, I have watched with wonder the splendid manner in which all this extra work suddenly thrust upon the department has been performed. Now the Minister is dictating a telegram to Gen. Middleton ; now receiving a telegraphic enquiry from Calgary; again examining samples of boots, deciding upon the supplies wanted, hearing the reports of the efficient deputy, Col. Panet, or that model official, the Adjutant-General, Col. Powell, or of the painstaking director of stores, Col. Macpherson. His two active, clear-headed secretaries, Benoit and Aldrich, are rapidly disposing of the letters he has dictated them, taken down in short-hand. Out in the cortown in the North-West, or to show samples of articles required. Everything is decided upon carefully and rapidly, with work at high pressure, yet well done. Some idea of the work done may be gathered from the fact that during the thirty days there have been received in and sent from the office of Mr. Caron's private secretaries 1,133 telegrams concerning movements of troops, 1,620 telegrams sent in answer to offers of service, sup- TRADE for the present. plies, etc., and 2,430 letters and telegrams (mostly the latter) about officers of service, etc., and about 1,000 letters in answer to enquiries of various kinds, in all 6,183 letters and telegrams from the Minister's private
