THE SCIENCE OF LIFE. ONLY \$1.

A Great Medical Work on Manhood

Exhausted Vitality, Nervous and physical Debility. Premature Decline in Man, Errors of Youth, and the untold miseries resulting from indiscretion or excesses. A book for every man, young, middle-aged and old. It contains 125 prescriptions for all acute and chronic diseases, each one of which is invaluable. So found eases, each one of which is invaluable. So found by the Author, whose experience for 23 years is such as probably never before fell to the lot of any physician for pages, bound in beautiful bossed covers, full gilt, guaranteed to be a r work in every sense—mechanical, literal, and professional—than any other work sold in this country for \$2.50, or the money will be refunded in every instance.—Price only \$1.00 by mail, post paid. Illustrated sample 6 cents. Send now. Gold medal awarded the author by the National Medical Association, to the officers of which he refers.

The Science of Life should be read by the young for instruction, and by the afflicted for

youth, faded or gray hair to a natural, rich brown color, or deep black, as may be desired. By its use light or red hair may be darkened, thin hair thickened, and baldness often, though not always, cured. It checks falling of the hair, and stimulates a weak and sickly growth to vigor. It prevents and cures scurf and dandruff, and heals nearly every disease peculiar to the scalp. As a Ladies' Hair Dressing, the VIGOR is unequalled; it contains neither oil

nor dye, renders the hair soft, glossy, and silken in appearance, and imparts a delicate, agreeable, and lasting perfume. MR. C. P. BRICHER writes from Kirby, O., July 3, 1882: "Last fall my hair commenced falling out, and in a short time I became nearly bald. I used part of a bottle of AVER'S HAIR VIGOR, which stopped the falling of the hair, and started a new growth. I

have now a full head of hair growing vigor-ously, and am convinced that but for the use of your preparation I should have been entirely bald." J. W. Bowen, proprietor of the McArthur J. W. BOWEN, proprietor of the McArthur (Ohio) Enquirer, says: "AYER'S HAIR VIGOR, is a most excellent preparation for the hair. I speak of it from my own experience. Its use promotes the growth of new hair, and makes it glossy and soft. The VIGOR is also a sure cure for dandruff. Not within my knowledge has the preparation ever failed to give entire satisfaction."

MR. ANGUS FAIRBAIRN, leader of the celebrated "Fairbairn Family" of Scottish Vocalists, writes from Boston, Mass., Feb. 6, 1880: "Ever since my hair began to give silvery evidence of the change which fleeting time procureth, I have used AVER'S HAIR Vigor, and so have been able to maintain an appearance of youthfulness—a matter of considerable consequence to ministers, orators, actors, and in fact every one who lives in the eyes of the public."

We have hundreds of similar testimonials needs but a trial to convince the most skepti-

Pope & Ritleah, druggists, Cedar Rapids, Iowa, writes: We have never sold any medicine that gives such satisfaction to the con-

sumer and pleasure to the seller as Dr. Thomas' Electric Oil. We can refer you to numbers that have used it for diptheria with entire satisfaction and success. Scotch shephead dogs are now employed at the Cape of Good Hope in herding ostriches, a work which they perform with great saga-

> abundantly, should be without Hanington's Food for Flowers. Ordinary packages 30c. -sufficient for 20 plants for one year. Time is always represented carrying a scythe, and we suppoce he will continue to carry this primitive agricultural implement

No LADY WHO DELIGHTS IN FLOWERS,

and likes to see them do well and bloom

pimples, and many loathsome diseases originate in impure blood. Parson's Purgative Pills make new rich blood and will change the blood in the entire system in three months, taken one a night. In Arkansas no saloon can be built within

Hip disease, fever sores, ulcers, blotches,

complaint a very stubborn fact, until they Babylon a mere toy, while the whole seven That medicine eradicates the noxious poison wonders put together would sink into insig- from the system, and invariably cures even the worst cases. All that is necessary to keep flowers fresh,

is to keep them meist and cool. Instead of

dipping flowers in water, they should simply

be wrapped up in a wet newspaper, which

will keep them fresher over night. A wet

towel or napkin is too heavy, and will crush the blooms too much; besides it would allow the moisture to evaporate too easily. Boston florists pack rosebuds in wet paper, and send them as far west as Chicago, where they are taken out even fresher than when they came THE DECIDED alterative action of Phos-Never be idle, but keep your hands or PHORIZED Emulsion upon the blood, adapts

well worthy of the trial of those suffering

thought and deed-help others along life's fluid. Always ask for Phosphorized Emulsion, and be sure you get it. A curious instance of the discovery of a lost ring in a root of celery occurred some years back in Sweden. A lady when plantfingers, unconsciously dropped the ring into one of the holes. A plant was duly inserted in the hole, and doubtless through the lost ring, and as the root grew the ring must have become imbeded in its substance. The ring

A pianoforte has been made in Paris in surface, and a perfect polish. The color is

The Old Lie Brushed Up.

[From an Orangeburg (S. C.) Special.] Samuel Crowell, an aged negro on the farm of John P. Cuttino, twenty miles from this place, while chopping wood yesterday A writer in Temple Bar says of Christine morning was taken violently ill. Dr. Sally A writer in Temple Bar says of Christing morning was taken violently ill. Dr. Sally, surprised to find these dry enough to plough several days before the natur
A writer in Temple Bar says of Christing morning was taken violently ill. Dr. Sally, in the says of this place, was called, and found the old man in convulsions. He kept grasping at Madame Nilsson at Windsor, and with her his sides as if something were gnawing at had been asked by some nuns who keep a within ten minutes had ejected from his school for poor girls, if she would be so ex- stomach six full-grown lizards. The old man tremely kind as to sing once to those little soon began to improve and in a couple of ones, as it would make an impression on them hours was able to get out of bed. Investiga-Blinders were contrived by an Eng- which they would never forget. Mme Nils- tion proves that four years ago, while drinkson, too happy to do so much good with so ing from a spring, the negro swallowed what little trouble, promised to come, and fixed a at that time he said was a lizard, but as it certain evening. But what should happen gave him no trouble he soon forgot about it. but a visitor, under the guise of Her Majesty's The one he swallowed was doubless a female bandmaster, called on Madame Nilsson-the and the others were born in his stomach. Dr. bearer of Her Majesty's order for Madame Sally has preserved the lizards in alcohol and
