KING'S EVIL

Was the name formerly given to Scrofula because of a superstition that it could be cured by a king's touch. The world is wiser now, and knows that

SCROFULA

can only be cured by a thorough purifica-tion of the blood. If this is neglected, the disease perpetuates its taint through generation after generation. Among its earlier symptomatic developments are Eczema, Cutaneous Eruptions, Tumors, Boils, Carbuncles, Erysipelas, Purulent Ulcers, Nervous and Physical Collapse, etc. If allowed to continue, Rheumatism, Scrofulous Catarrh, Kidney and Liver Diseases, Tubercular Consumption, and various other dangerous or fatal maladies, are produced by it.

Ayer's Sarsaparilla

Is the only powerful and always reliable blood-purifying medicine. It is so effectual an alterative that it eradicates from the system Hereditary Scrofula, and the kindred poisons of contagious diseases and mercury. At the same time it en-riches and vitalizes the blood, restoring healthful action to the vital organs and rejuvenating the entire system. This great
