God Bless the Farm.

God bless the farm-the dear old farm. God bless its every rood! Where willing hearts and sturdy arms Can earn an honest livelihood-Can from the coarse and fertile soil Win back a recompense for toil!

God bless each meadow, field and nook, Begemmed with fairest flowers ; And every leaf that's gently shook By evening breeze or morning showers -God bless them all-each leaf's a gem In nature's gorgeous diadem.

The orchards that, in early spring, Blush rich in fragrant flowers: And with each autumn surely bring Their wealth of fruit in golden showers. Like promegranates on Aron's rod-A miracle from Nature's God.

And may He bless the farmer's home, Where peace and plenty reign : No happier spot 'neath Heaven's high dome Does this broad, beautious earth contain, Then where, secure from care or strife, The farmer spends his peaceful life.

Unvexed by toil or tricks for gain, He turns the fertile mould : Then scatters on the golden grain, And reaps reward an hundred fold-He dwells where grace and beauty charm, For God hath blessed his home and farm.

AYER'S Cherry Pectoral.

No other complaints are so insidious in their attack as those affecting the throat and lungs: none so trifled with by the majority of sufferers. The ordinary cough or cold, resulting perhaps from a trifling or unconscious exposure, is often but the beginning of a fatal sickness. AYER'S CHERRY PECTORAL has well proven its efficacy in a forty years' fight with throat and lung diseases, and should be taken in all cases without delay.

A Terrible Cough Cured. "In 1857 I took a severe cold, which affected my lungs. I had a terrible cough, and passed night after night without sleep. The doctors gave me up. I tried AYER'S CHERRY PECTORAL, which relieved my lungs, induced sleep, and afforded me the rest necessary for the recovery of my strength. By the continued use of the PECTORAL a permanent cure was effected. Soe Manufacturers of Miller's Patent Shifting Rail. These Shifting Tops have no rival, as a glance at the cut will show for itself; it is so simple t requires only one person to take it off or put it on, and when off no one would think a Top had seen on, as no unsightly ends are sticking out. When the Top is on it is as friend as a rould see that be put on any carriage in use. Persons ordering Buggies or Canopy Top Carriages should see that they have this Rail, as it will be greatly to their interest.

These Tops were awarded a Diploma at the Provincial Exhibition in October, 1880
