At Upper Magaguadavic, on the 24th ult., Thomas Edmondson attempted suicide by hacking his throat with a jack knife. He was attended by Dr. Mott of Prince William, and is recovering.

The Rink was densely crowded with people to witness the exhibition of fancy skating given by Mr. L. Rubenstein of Montreal, Friday night. His skating was much admired, all his movements being most gracefully executed.

Mr. C. Sterling Brannen has been appointed chief messenger in the Legislative Council, vice, C. H. Biggs, deceased. Mr. Brannen makes a most efficient and obliging officer, worthily filling the position so long held by his father, the late Charles Brannen.

The Minneapolis *Canadian American*, says that A. R. Fenwick, a clever young journalist, formerly on the staff of the St. John, N. B., *Telegraph*, has recently taken a position on the St. Paul *Despatch*. He has been in the vicinity for six months, and has done some excellent work on the papers of the twin cities since his arrival there.

A fire occurred yesterday morning in Mr. G. W. Vanwart's brick building, King street, Woodstock, occupied by the Maritime Bank, G. W. Slipp, and J. T. Raymond & Co., Grocers, the Custom Department, the Carleton *Sentinel* newspaper, and the Oddfellows. The damage from the flames was only slight, but the building was deluged with water.

The professional card of Mr. J. W. McCready, Attorney-at-law, appears elsewhere. Mr. McCready is well known to the citizens of Fredericton and the adjoining country. He has had the advantage of a liberal education at the University and a good legal training. He enters upon the practice of his profession with a well trained mind, and a reputation for strict integrity, and with these qualifications, combined with temperate and industrious habits, he ought to succeed. The FARMER cordially recommends Mr. McCready to the law thirsting public.

We direct the attention of the farmers to the advertisment of Messrs John T. and William G. Clarke, who have succeeded Messrs. Johnston & Co., in the Agricultural implement business in this city. Both members of the firm have had a lengthy experience, and know exactly what our farmers want in the line of improved agricultural utensils. They represent the leading farm implement manufacturers in the country, and, no doubt, will receive a large share of public patronage.

Our Kingsclear correspondent writes:—"An entertainment under the auspices of the Baptist Church, was held in the Temperance Hall, at this place, on Friday evening, the 20th ult. The night being fine, and the roads all that the heart could wish, a large audience gathered, which crowded the hall to its utmost capacity; indeed the managers of the affair were reluctantly obliged to refuse admittance to several late comers, owing to the want of accommodation. Several large parties drove up from Fredericton, evidently bent on having a good time. The audience was treated to quite an extensive programme, consisting of music, vocal and instrumental, dialogues, readings and recitations, most of which was hugely enjoyed. Miss Mitchelt of Fredericton, presided at the organ. The financial result was most gratifying, and exceeded the expectations of the parties interested.

On the 20th ult., Mrs. Catherine Long, relict of the late Abraham Long, Esq., of Long's Creek, passed away at the advanced age of 88 years. The funeral took place on Sabbath afternoon, and was very largely attended. The deceased lady was held in high estimation by a large circle of friends. Four persons over eighty years of age, have died at this place within the past three months.

The ladies of the Methodist Parsonage Aid Society, intend giving an entertainment at Long's Creek early in March. Due notice will be given later on.

Our Maugerville, Sunbury Co, correspondent writes:—"Mr. Kelly, Principal of the Sheffield Grammar School, delivered a lecture on Monday evening, February 23rd, at Lower Maugerville, in the interests of the Baptist sewing circle. His subject was "Canadian Ideals." The subject was treated with a spirit of genuineness. The lecture occupied over an hour in delivery, and was full and comprehensive. The attendance was large considering the short notice and inclemency of the weather, which deterred many from being present, who may rest with this assurance, that they have lost one of the grandest treats of the season.

The Choral service which was twice postponed on account of the boisterous weather, took place on Tuesday evening, 24th ult., at Christ Church. The church was packed. The service may be considered a grand success.

On Friday evening, 27th ult., a number of the members of the Select Council, No. 118, R. T. of T., Maugerville, took advantage of the exceeding good roads and moonlight, and made a fraternal visit to the Sheffield Select Council, R. T. of T. The visitors were cordially welcomed. After the usual routine of business, the evening's entertainment consisted of music and readings, supplemented with a telling speech made by one of the members of the last named Council, who pictured the views and scenes, wretchedness and forlorn state of a drunkard's career, with unmeasurable erectness.

Mr. Phillip Cox, jr., late inspector, has decided to lecture at Lower Maugerville Hall, about the middle of March.

A New Brunswick ex-M. P. P. robbed

How a Florida thief relieved Mr. James Murchie of $250 and a Gold Watch.

[Palatka, Florida, News.]

On Wednesday, Feb 11th, Mr. James Murchie and daughter arrived in Palatka and took up their quarters with mine host Graham. Travelling with them were Mr. Pope and wife, and the entire party intended going to New Orleans after a short stay in the Gem City. Mr. Murchie is a Canadian, and at home in St. Stephen, N. B., is president in the bank and owns a large fortune in real estate. He is also interested in the Maine lumber trade and is possessed of several mills in Calais, Me. He is a stout, pleasant gentleman of about fifty, and independent as becomes one who can have a check honored at any time for a million or more.

He was observed by an attache of the hotel counting his money before going to rest, but showed no other signs of uneasiness. He thinks he carefully locked the door on retiring, and before going to sleep turned down the light. He soon, however, began to dream, and the burden of a thousand fancies which flitted through his brain, was that he had lost his money. About two o'clock he woke and found his lamp burning brightly, and then noticed that his pocket-book was on a chair at some distance from his clothes. This, on being examined, proved to be empty, and he then found his door unlocked and his window open. He immediately gave the alarm, but nothing has been found of the property as yet. The burglar left no traces except the open door and window and the rifled pocket-book. Mr. Graham is much concerned that such an accident should have occurred in his hotel, and is making efforts to trace the theif.

Although Mr. Murchie lost two hundred and fifty dollars and a fine watch, he seemed little concerned and the whole party left yesterday morning for New Orleans. We hope the remainder of his stay in the South will not be made unpleasant by any more of such adventures.

THE CARNIVAL.

ANOTHER GRAND SUCCESS.

The List of Characters and Prize Winners.

The third and last Skating Carnival of the season, given at the Curlers' Rink last night, was, like its predecessors this season, an unqualified success. WAR NOTES

There is no important news from the Soudan.

The recruiting report shows the British army now numbers 181,000 men.

The last of the Indian contingent sailed from Bombay for Suakin on the 2nd inst.

India has been ordered to send 3,000 additional camels to the Soudan, England defraying the costs.

The Devonshire regiment and Seaforth Highlanders have been ordered to proceed to India.

The British troops will remain in the vicinity of Korti during the summer and be lodged in straw huts.

The volunteers force of England now numbers 214,000 men, of which number 39,000 are artillerymen.

The total losses of the British in the desert campaign since leaving Korti, in killed and wounded, are 30 officers and 450 men.

The British army estimates for 1886, amount to £17,820,700. This includes the expenditure for the Soudan expedition.

The British government has chartered seventy-five vessels to be used in transporting troops and supplies to Suakin.

General Wolseley's eyes have become affected by the glare of the sun, and the intense heat has caused an outbreak of typhoid fever among the British troops.

The New South Wales contingent for the Soudan campaign, comprising 800 men, started on the 3rd inst., on the voyage to Egypt. The departure was made the occasion of a public holiday.

It is reported from Woolwich Arsenal that in military circles it is understood the Government have arranged to hold in readiness 150,000 troops for service against Russia in Afghanistan. England to depend for protection upon her reserves.

The British Government has ordered a thorough medical inspection to be made at once of every regiment in the British army in order to make a correct estimate of the number of men in each command actually fit for active service in the field. It is undoubted in some circles that war with Russia hangs by a thread. Negotiations between Russia and England respecting the Russo-Afghan frontier are said to have reached a very delicate stage. M. Lessar, Russian commissioner has urged such sweeping demands that England cannot accept anything approaching them, and the complete collapse of the delimitation project and early advance of Russia's troops towards Heratare expected.

A Chicago despatch of Saturday says, that the Fenian and revolutionary circles of that city have been quite active recently in making preparations for an important forward movement. Letters have been received from Paris, from headquarters in Dublin of the Irish Revolutionary Brotherhood and the Fenian Council in New York, calling upon active revolutionists of Chicago to furnish their quota to the Irish brigade or legion now in process of formation and destined for active service against England in Egypt. Four officers have already accepted positions—Capt. Coventon of Farquahar County, Virginia; Lieut. Dick Morton of Culpepper; Lieut. Golding of Falls Church, Virginia, and Serg. Blakely of Richmond. Seven officers of the Union forces, now residents of Chicago, have been selected. Fifteen thousand dollars will be subscribed in that city for the Chicago contingent and like sums from New York, Philadelphia and Boston contingents. It is also stated that a high command in the new Irish Brigade has been offered to a distinguished soldier, and rumor has it that he has accepted. This officer is said to be Gen. Fitzhugh Lee. The organization seems well planned, well digested and cohesive in all its parts. The various cities contributing quotas are reported as enthusiastic to the last degree. The brigade consists of 1,000 men, the infantry to be armed with Remington rifles, while the calvalry will carry sabres and Spencer rifles. These men will report in New York in twos and threes and from thence sail to same point in France, by some believed to be Marseilles.

Young girl tramps are said to be becoming common in the mill districts of New England.

On the want of confidence motion, the Gladstone government's majority was only fourteen in a vote of over six hundred.

An indictment for assault with intent to kill O'Donovan Rossa, has been found against Mrs. Dudley, by the New York grand jury.

Two islands that were thrown up by the great Java earthquake last year, have again sunk out of sight and below the deep water line of navigation.

George Noremac, who has been walking the past 100 days in New York, finished his 5,100 miles in good condition, on the 25th ult., winning a wager of $2,000

At a meeting of the Municipal Council of the Irish national league in New York last week, a communication was read from Parnell, urging the necessity of immediate action in the establishment of a parliamentary fund.

TO THE AGED AGD INFIRM, the nourishing and invigorating properties of PHOSPHORIZED Emulsion give renewed strength and buoyancy of spirits. Always ask for PHOSPHORIZED Emulsion, and be sure you get it.

Among the speakers at the Dublin Phœnix Park meeting last Sunday afternoon were Messrs. Harrington and O'Brien who said they believed the Irish triumph in the House of Commons on the censure division, had sounded the death knell of the disgraced ministry of coercion.

Is your hair turning gray and gradually falling out? Hall's Hair Renewer will restore it to its original color, and stimulate the follicles to produce a new and luxuriant growth. It also cleanses the scalp, eradicates dandruff, and is a most agreeable and harmless dressing.

Baird's Balsam of Horehound is composed of choice Herbs and Gums, noted for their Healing and Tonic Properties, while at the same time the Balsam produces easy expectoration and gives rest and comfort in all affections of the Throat and Lungs. Sold by all dealers, price 25 cents.

The French people concertedly refuse to study the English language on the assumption that the French vernacular is destined to become the universal tongue. Yet French is not now spoken by more than 50,000,000 people, and the number is diminishing, while English is spreading rapidly and is known to upwards 150,000,000

At a meeting of Aldermen of the city of Halifax, on the 27th ult., to consider bills for legislation, among others was one authorizing the sale of the engine houses. At this meeting, Mayor Mackintosh said: "For a long time the fire department had confessed that they were unable to handle a large fire. The recent fire at the Acadian Hotel, a comparatively insignificant affair, gave the department all it could do to control it, and had another fire broken out at the time, the firemen dividing their efforts, would have been unable to handle either." Halifax has hitherto had the reputation of possessing a model system of water works and fire protection.

Humphreys' Veterinary System.

No well-informed person denies that the ownership of animals involves the obligation of their proper nursing and care when sick. It is generally admitted that the common mode of the treatment is cruel as well as wasteful in life and suffering. But before you condemn us show us a better system. Now this is precisely what we propose to do. "HUMPHREY' HOMEOPATHIC VETERINARY SPECIFICS have been in use twenty-five years, and the testimony of respectable horse and stock owners of the results are entirely satisfactory. The medicines are suited to almost every possible disease among domestic animals, and can be given without the slightest trouble. They are not poisonous nor destructive of health, but cure in far less time than any other remedies. The system of treatment is free from intricacy or difficulty, one that tells the owner just what to do and how to do it, and while safe and satisfactory in results, it secures the animal from all crueity and unkindness. Moreover it affords the best chance for their recovery and renewed usefulness.' We think we are acting in the interest and for the benefit of our animal friends, who can not speak for themselves, when we cordially indorse HUMPHREYS' HOMEOPATHIC VETERINARY SPECIFICS.
