I am glad to learn ordinary interest. During the past year the attention of the

> tion, which I had the opportunity of attending. The samples of our cereals shown elicited much praise. In connection with the Exhibition, the Government caused to be circulated a large number of copies of the New Brunswick hand book, and you will be glad to learn that considerable interest has been excited in regard to the Province. Very many favorable comments upon the agricultural resources and manufacturing development of the Province have appeared in the English papers, and I am informat by the Secretary of the Board that he has been in receipt of a number of enquiries from persons, who by reason of the facts brought to heir notice, by the exhibition and otherwise, have been led to think of settling in New Brunswick. Nearly all those who are making these enquiries are persons with some capital. I am sure that you will agree with me that if immigrants of this class are induced to come to the Province, the expenditure and trouble incident to the presentadicative of any falling off in interest in the improvement of farm stock. Several causes province. I have again to thank you for the courtesies extended to me, and the cordial efforts I have made as your president. Your
