> He begins work on the boulevards very early in the morning before the pavements are swept, and continues to 7 o'clock in Summer and 9 o'clock in the Winter. Then he goes to his lodgings in the outskirts of the town to prepare his merchandise. He cuts the ends of cigars into small pieces and spreads them out on a newspaper. This is tabac gros. He rubs the ashes off cigarettes, removes the paper, and spreads them out in the same way. This is tabac fin. As he subsists from day to day on his gatherings, he must dry and sell his stock at once. So he places it in the sun to dry and reduce it to powder, putting it where it will get a current of air. When dried he rolle it up in little packets and makes for the Rue Galande, in a poor district of the Latin quarter. Groups of from a dozen to fifteen may be seen on the pavements trying to sell thdir little packets to the passers-by. Workingmen stop and fill their pipes, and there are regular customors who will send for the day's supply. The wine merchants in poor localities buy wholesale to retail to their patrons. In addition to the small wine merchant, the cigar-end gatherer has another good customer

-the small florist. He does not buy to smoke, to retail or to fumigate, but to water flowers with nicotine water. This, it seems, has the effect of making them suddenly burst into a blaze of bloom, and also make themafter the buyer has admired them for a day or two-as suddenly fade and die. There are only one or two centres for the sale of this kind of tobacco in Paris. After the stock has been sold the cigar-gatherer takes to the boulevards in the evening again. He also frequents railway stations, theatres and other places. There are about one hun-dred poor creatures engaged in the cigar-end

Fredericton, April 7, 1886 WONDERFUL!

BETWEEN eight and ten years ago, a medicine was introduced to the public, and suffering humanity was invited to try the same. The proprietor knew from experience, that success was certain, but the human breast so imbued with prejudice that it forms one of the strongest barriers to break down and the greatest enemy to overcome before any headway can be made towards the mansion of success. Truth has often proved itself to be "stranger than fiction," and it is a fact as solid as truth that

SMITH'S CHAMOMILE PILLS have now become one of the leading Patent Medicines of the present day, from north to south, and from east to west, they are to be found in the homes of the rich and poor. All classes of society use them, and they are by thousands declared to be Worth their Weight in Gold.

For a Weak Stomach, Impaired Digestion, and all disorders of the Liver, they act like "MAGIC," and a few doses will be found to work wonders on the most important organs in the human machine. They strengthen the whole muscular system, restore the long-lost complexion, bring back the keen edge of appetite, and arouse into action, with the rose-bud of health, the whole physical energy of the human frame. These are "facts" admitted by thousands, embracing all classes of society; and one of the best guarantees to the nervous and debilitated is, Smith's Chamomile Pills have the largest sale of any Patent Medicine in the Dominion.

J. Polley, J. D. Dean, T. C. Stevenson, These are only a few taken from the hundreds in mypossession, and are the names of prominent business and professional men, well known. Directions for taking Smith's Chamomite Pills. If the bowels are costive, the countenance sallow and the tongue furred, take 3 or 4 pills on going to bed; if they do not operate in ten hours, then take two more afterwards. Take one pill every (or every other night), just enough to keep the bowels gently moved. For ordinary Billious Complaints one or two doses are sufficient. These pills act on the system very similar to blue pills, or blue Mass, but do not contain the least particle of mercury or calomel.
