A Common Cold

Is often the beginning of serious affections of the Throat, Bronchial Tubes, and Lungs. Therefore, the importance of early and effective treatment cannot be overestimated. Aver's Cherry Pectoral may always be relied upon for the speedy cure of a Cold or Cough.

Last January I was attacked with a severe Cold, which, by neglect and frequent exposures, became worse, finally settling on my lungs. A terrible cough soon followed, accompanied by pains in the chest, from which I suffered intensely. After trying various remedies, without obtaining relief, I commenced taking Ayer's Cherry Pectoral, and was

Speedily Cured. I am satisfied that this remedy saved my life. - Jno. Webster, Pawtucket, R. I. I contracted a severe cold, which suddenly developed into Pneumonia, presentdangerous and obstinate symptoms. My physician at once ordered the use of Ayer's Cherry Pectoral. His instructions were followed, and the result was a rapid and permanent cure. - H. E. Simpson, Rogers Prairie, Texas.

Two years ago I suffered from a severe Cold which settled on my Lungs. I consulted various physicians, and took the medicines they prescribed, but received only temporary relief. A friend induced me to try Aver's Cherry Pectoral. taking two bottles of this medicine I was cured, Since then I have given the Pecatoral to my children, and consider it The Best Remedy

for Colds, Coughs, and all Throat and Lung diseases, ever used in my family.— Robert Vanderpool, Meadville, Pa. Some time ago I took a slight Cold, which, being neglected, grew worse, and settled on my lungs. I had a hacking cough, and was very weak. Those who knew me best considered my life to be in great danger. I continued to suffer until I commenced using Ayer's Cherry Pectoral. Less than one bottle of this valuable medicine cured me, and I feel that I owe the preservation of my life to its curative powers.—Mrs. Ann Lockwood, Akron, New York. Ayer's Cherry Pectoral is considered, here, the one great remedy for all diseases of the throat and lungs, and is more

in demand than any other medicine of its class. — J. F. Roberts, Magnolia, Ark. Aver's Cherry Pectoral, Prepared by Dr. J. C. Ayer & Co., Lowell, Mass. Sold by Druggists. Price \$1; six bottles, \$5.

Mrs. W. Chff and Robert Gray. About the way of it.

The more I see of this wide world writes a horseman who understands his business, the more astonished I am that so many men are found trying to make a little money by raising colts without any knowledge of breeding, without any familiarity with the history of the great families of horses, without any knowledge of the performances of horses, and without any turf journal to give them the information they require. A man might just as well try to be a preacher without a Bible. I some time ago met a well to do farmer, owner of four good looking mares, who does not know the breeding of them. He argued good humoredly, and said he could raise just as good stock without a pedigree. and it was hard to prove to him that he was wrong. He takes considerable credit upon himself for the shrewdness of his views. He breeds his mares to the lowest stud-fees, and in three years his colts are actually not worth raising. Colts of the same mares might be valuable if the mares strength and wholesomeness. More economical than the ordinary kinds, and cannot be sold presentative of the best families. This care of bees in the fall takes but a
