English Political Parties. The appeal to the country that Mr. Gladstone has resolved upon will, undoubtedly, says the Montreal Gazette, be one of the most memorable struggles that have taken place in the history of England. What the result may be, it is, of course, most difficult to say. Party lines have been to a great extent obliterated, and the old-time standards for gauging the feelings of the electorate are not to be relied upon. But, looking at all the visible parties in the problem, bearing in mind the large support gained in the House of Commons for Mr. Glose, Jessen and the stream of the most of the electoral campaign, when the riorets hurled their missiles were the witnesses. The aut and unche prepared a feast and sent for how my gathered an hour above with the witnesses and the witnesses that have taken place in the history of England. What the result may be, it is, of course, most difficult to say. Party lines have been to a great extent obliterated, and the old-time standards for gauging the feelings of the electorate are not to be relied upon. But, looking at all the visible parties in the problem, bearing in mind the large support gained in the House of Commons for Mr. Glose, a passed to the most even the manner of the most of the mos bearing in mind the large support gained in the House of Commons for Mr. Gladin the House of Commons for Mr. Glading the rioters, and they were as the House of Commons for Mr. Glading the House of Common stone's measure, complicated and unsatis- the next House. factory as it must be considered, and that a change of sixteen votes would! have committed Parliament to the principle of the bill—remembering the circumstances of the last election, how Pargnell's influence was exerted first in favor of one party and then of the other, how powerful that influence is with his followers, how those followers held the ball-aucre of power in not a few English constituencies, and that they will now solid-stumencies, and the the first in favor of one party and then of the other, how more the control of the other, how more than the cheek.
