How a Great Smuggler Became a Good Customs Officer-How He Defied the Customs Authorities-Locked an Officer Up-Carried a Yankee Collector into Canada.

"It takes an old smuggler to make a good customs officer," save an old adage, and it bas been fully demonstrated in the case of Jack Bonness, the present special customs officer. Jack is well-known and generally dreaded by the smuggling fraternity of Nova Scotin, and some folks in this country will ever hold him in fond remembrance. Bonness was born in St. Stephen, N. B., 39 years ago, and epending his younger days near the border line, he saw the great chances to smuggle and went into the business heart and soul. When not more than 18 years old- he could "handle" counterband goods with anyone, and could be termed a full-fledged smuggler." A gentleman belonging to St. Stephen, who knew Bonness from childhood, in conversation with a reporter, said that Jack was one of the brightest lads in the town and grew up to be one of its best citiz-ns.
