CITY FIRE DEPARTMENT.

Chief Engineer Lipsitt's report for the past year.

Recommendations worthy of consideration and prompt action.

The Fire Record.

To His Worship the Mayor and Aldermen of the City of Fredericton:—

GRATEFUL.—I am again called upon, according to the bye-law, to submit a report of the doings of the Fire Department for the past year, and in doing so will be as brief as possible. I cannot but express my own gratification, as well as that of the members of the Department, because of the few fires that have occurred during the year, and the small loss attending them in comparison with former years. Let the cause of these state of affairs be what it may, it may be a source of thankfulness to your honorable body, as well as our citizens generally, to know that they now have a fire department of large proportions equal to any city in the Dominion.

The spring of 1887, will long be remembered on account of the high fire, which the oldest inhabitant says was never before equalled in the city's history. As an actual fact, it rose to such a height that the fire at the water works, as well as that of the mill, and the small loss attending them in comparison with former years. Let the cause of these state of affairs be what it may, it may be a source of thankfulness to your honorable body, as well as our citizens generally, to know that they now have a fire department of large proportions equal to any city in the Dominion.
