A Bank's Suspension.

Intense excitement prevailed here and in St. John, yesterday, when the announcement was made that the Maritime Bank had suspended payment. The news was at first given as a rumor, but the naked truth was soon revealed, when the Bank's doors were found closed to the public. No definite cause for the failure has yet been made public, the managers in St. John being reticent on the subject. The suspension will be severely felt Fredericton, where stock is held to the extent of \$50,000 or \$60,000. The Branch here did a large and successful business, greatly accomodating the mercantile community, and its closing up will tighten the financial situation materially.

The necessity for the erection of a new departmental building, will also claim the attention of the Legislature, and is referred to in the speech. We understand that it is the Government's intention to tear down the old Crown Land Office, which is as unsightly as it is insufficent for the accomodation of the Department, and erect in its Montreal district, and in twenty-one apartments for the Provincial Secretary's staff, the Crown Land officials, the office for Agriculture, and the Executive Council. The building at present occupied by the Secretary, Chief Commissioner, and the Executive Council will furnish accommodation for the Public Works officials, and the Educational staff. These improvements are absolutely necessary, and we are glad the Government have John Morrissey, J. P. Burchill and taken hold of the matter, with a determination to carry it through.
