THE TENDENCY of modern manufacturing is to have machinery at work whereever practicable, because machine work is of greater average excellence and uniformity than hand work.

The best appointed Mower, Plough and Carriage Factory, will now make all the man, and one who is bound to make his mark in the profession. The new firm is a strong one and will doubtless achieve continued professional success. Their office is on Carleton street.

Major Gordon, Captain of "A" Company. Who takes deep interest in the welfare of his men, nothing can exceed the cleanliness and tidiness of the Barrack rooms, all being uniformly arranged and in conformity with the Standing Orders. Lately improved by necestand therein.

Major Gordon, Captain of "A" Company. And Testament of John Camber, late of the parts of their productions so that thrown into heaps, each kind in its own pile, was duly proved in the Court of Probate for the said County of York, on the 30th day of April, A. D., 1887, and letters Testamentary were granted unto the undersigned, the Executor's lost in fitting the parts together. varied parts of their productions so that

Besides insuring accuracy and ease of du-lication of worn out parts, this way of doing be sold theap for Cash. Also, on hand a full stock of plication of worn out parts, this way of doing is the most economical. Fancy a carpenter trying to make a door as good, and at the same time as cheap, as Risteen's Factory. You note the absurdity at once. Well, it is just as absurd to think that one man, or a few men, can make Mowers, or Ploughs, or Carriages, as well and cheaply, as the big factories full of modern machinery.

During the past six years large factories have absorbed the business of hosts of small shops through the country. The facilities of transportation give these great establishments opportunities for sending their products at low rates to whole sections, which, under the old order of things, they could never have reached except at a cost greater than the possible profit.

We have an exclusive control in this Province of Farm Machinery and Carriages, made by some of the largest and best factories in Canada. If you will examine our stock on its merits, and compare prices, we believe that we will got your custom when you need to give it to anybody.

### Opposite County Court House. WONDERFUL!

BETWEEN eight and ten years ago, a medicine was introduced to the public, and suffering humanity was invited to try the same.

The proprietor knew from experience, that success was certain, but the human breast so imbued with prejudice that it forms one of the strongest barriers to break down and the greatest enemy to overcome before any headway can be made towards the mansion of success. Truth has often proved itself to be "stranger than fiction," and it is a fact as solid as truth that SMITH'S CHAMOMILE PILLS have now become one of the leading Patent Medicines of the present day, from north to south and from east to west, they are to be found in the homes of the rich and poor. All classes of society use them, and they are by thousands declared to be Worth their Weight in Gold
For a Weak Stomach, Impaired Digestion, and all disorders of the Liver, they act like "MAGIC,"
and a few doses will be found to work wonders on the most important organs in the human
machine. They strengthen the whole muscular system, restore the long-lost complexion, bring back the keen edge of appetite, and arouse into action, with the rose-bud of health, the whole physical energy of the human frame. These are "facts" admitted by thousands, embracing all classes of society; and one of the best guarantees to the nervous and debilitated is, Smith's Chamomile Pills have the largest sale of any Patent Medicine In the Dominion.
