We make the statement advisedly, and we appeal to honest men to admit, that Mr. Temple has secured more substantial benefits for York, during the three years he has held a seat in Parliament than were bestowed upon this County during the seventeen years succeeding Confederation. But Mr. Temple's work is only half done, and we ask the electors of this constituency to return him again to Parliament to complete it. There are two great public works projected in this county that demand and deserve the assistance of Parliament. Mr. Temple has done nothing to forfeit the confidence of his constituents. He has served them loyally and well in season and out of season. He has given his time, his ability and his influence to secure for York equal rights and equal concessions with the other constituencies of Canada, and he deserves, and will receive fair recognition at the hands of the people.
