The Jubilee.

The matter of a jubilee celebration in Fredericton, was informally discussed by the City Council last night, that this city ought to do something, and while the opinion was general, the Council felt that the citizens were nct in a position to bear taxation for the purpose. It was urged further, that other Provincial celebrations on the 21st, would operate against success here on that day, and that any how, the citizens had very substantially subscribed already towards the Victoria Hospital, the erection of which would do more to mark the jubilee year, than the explosion of fire works, processions etc. It is understood also, that Lady Tilley has planned a programme that will pretty well occupy the 21st, and therefore, the Council considered it wise not to take any action at present. There is pains. a disposition, however, to celebrate at a later date, when, with the assistance of the firemen, military, etc., an loss of \$7,000,000, including \$2,500,000 in the town of Lake Linden. ed at a very small outlay to the citizens, and when other towns will be in a position to send us visitors.
