FREDERICTON, N. B., August 17, 1887.

#### The Premier's Visit.

Fredericton people are nothing, if On his First Visit to Frenot hospitable. They know how to cordially greet a deserving stranger, and when so distinguished a gentleman as Sir John A. Macdonald, the Premier of Canada, set his foot for the first time in our fair little city, no wonder the enthusiasm of the people was raised to the highest pitch. The civic address was in excellent taste, and Sir John's reply was delivered in his happiest vein. His sincere compliments to Fredericton were highly His progress through the City appreciated by the very respectable audience at the City Hall, and his remarks regarding Mr. Temple, M. P., at the corner stone laying, were neither forced nor undeserved. The torchlight procession Monday evening was most creditable to the firemen and, Lady Macdonald lays the Corner Stone flattering to the Premier. While Frederictonians have always had cause to be proud of their firemen, it was with increased pleasure that they observed strations in honor of the Premier and his accomplished lady, from first to last, were hearty, spontaneous and, flattering, and we are assured that Sir John very warmly appreciated the honor done him. A visit to this Premier yesterday called on Mr. Gibson by whom he was very cordially received. This morning amid the regrets of the people Sir John and Lady Macdonald took their departure, leaving very pleasant recollections of their necessarily hasty visit to the capital of New Brunswick. We hope they may come again and, very soon, and we can safely promise them a cordial reception. We publish elsewhere, a complete record of the reception, which, we are sure, will be eagerly perused by the FARMER's large circle

from 1854 to 1858 he was again a member of for York, Hon. A. G. Blair, Premier of New ways, is a matter of policy with our govern- wide. The Kent Elections.

The contest resulted as we anticipated, in the triumphant return of Messrs Phinney and LeBlanc, the vote standing, Phinney 1328, LeBlanc 1318, Sayre 932, Johnson 925. The result is a victory for the Government, and for the conservatives of Kent headed by Mr. Landry who gave the successful condidates a very strong support. Mr. Geo. V. Macinerney was the chief element in the opposition, and his efforts apparently were exerted more to prevent conservatives from being elected than as a protest against the local adminstration. The members-elect for Kent are both worthy men who can be counted upon to carry out the wishes of their constituents on the floors of the legislature. Mr. Phiney developed
