

SIR JOHN A. MACDONALD Maritime Farmer.

FREDERICTON, N. B., February 16, 1887.

A Gross Outrage.

Mr. Gregory and his friends are driver to desperation. They have learned that they cannot defeat Mr. Temple by fair means, and they have resorted to trickery, but they will ignobly fail. Yesterday afternoon after the nomination papers of both parties had been filed, and while Mr. Temple was attending a meeting called in his interests, in the City Hall, he and Mr. Fred S. Hilyard, were summoned to appear before Justice Perley, on a charge of having bribed Mr. John Woodward, and simultaneously with the service of these papers, Mr. Woodward was arrested on charge of having been bribed by these gentlemen. The examination was set down for 3 o'clock yesterday afternoon. but it was adjourned till 7 in the evening, and again till 2 P. M., to-day.

Electors of York, what do you think of this outrageous piece of business on the part of Mr. Gregory? What do you think of a man of his kidney, setting himself up as a purist? But his plans will not succeed. Mr. Temple will be elected in this contest by an over whelming majority, notwithstanding this deliberate attempt of George F. Gregory, to take this constituency by the throat, and force himself upon it. It is a sharp trick on Mr. Gregory's part, but trickery and sharp practice will not succeed against the voice of this constituency.

Electors of York, we ask you to go to the polls on Tuesday next, and by casting your ballots for Mr. Temple, most effectually stamp out George F. Gregory and his contemptible plot to capture this constituency.

Weldon's Missionaries.

The Grit press throughout this campaign, have made most vigorous protests against the introduction of the Riel issue, but their protests mean nothing when compared with the naked facts. A few weeks ago, Mr. Mercier the Riel-Ite leader in Quebec in a speech at Montreal, made use of the following language :-

"Our friends in Ontario have invited again the Short Line. some of our best speakers to go among their compatriots in that Province, and I sincerely hope that a number of young men of the Club National will respond to that appeal. Mr. Weldon, the leader of the liberals in New Brunswick, has also asked for two to speak among the brave Acadian population of that Province. This will be a splendid mission." Mr. Weldon's request has been grant-

The Government will be sustained by a handsome majority. We believe they will carry every Province, with one exception. York will not be behind. The electors of this large and in telligent constituency, are not so regard less of their best interests, as to cast Mr Temple aside and elect George F. Gregory to sit in Opposition. Electors of York, we appeal to you to be true to the splendid verdict you rendered on the 29th day of January, 1884.

Sir Alexander T. Galt gave up his house and went into private lodgings in an out of the way part of London, and remained there for a considerable time. He again wrote positively refusing to hold office any longer unless his salary was increased, and he threw it up, and that is the way that I came to be appointed High Commissioner.

The Government was sustained by more than two-thirds majority.

The Moncton Transcript, a fortnight before the election, said of Ontario:—

"The utmost confidence appears to prevail in the Province of Ontario that the verdict of the people in 1878 will be reversed in 1882."

The Government was dissolved only five members were in it who had been elected as supporters of Mr. Blake.
