## COMPARATIVE WORTH OF BAKING POWDERS.

ROYAL (Absolutely Pure).. GRANT'S (Alum Powder) \* .. RUMFORD'S, when fresh.. HANFORD'S, when fresh.... REDHEAD'S .... CHARM (Alum Powder) \*... AMAZON (Alum Powder) \*... CLEVELAND'S(short wt. coz.) PIONEER (San Francisco).... CZAR..... DR. PRICE'S. SNOW FLAKE (Groff's)..... LEWIS'.... PEARL (Andrews & Co.)..... HECKER'S..... GILLET'S.... ANDREWS&CO. "Regal"\*

REPORTS OF GOVERNMENT CHEMISTS

As to Purity and Wholesomeness of the Royal Baking Powder. "I have tested a package of Royal Baking Powder, which I purchased in the open market, and find it composed of pure and wholesome ingredients. It is a cream of tartar powder of a high degree of merit, and does not contain either alum or phosphates, or other injurious substances.

E. G. Love, Ph.D." "It is a scientific fact that the Royal Baking Powder is absolutely pure. "H. A. MOTT, Ph.D."

"I have examined a package of Royal Baking Powder, purchased by myself in the market. I find it entirely free from alum, terra alba, or any other injurious substance. Henry Morton, Ph.D., President of Stevens Institute of Technology." "I have analyzed a package of Royal Baking Powder. The materials of which it is composed are pure and wholesome. S. Dana Haves, State Assayer, Mass."

The Royal Baking Powder received the highest award over all competitors at the Vienna World's Exposition, 1873; at the Centennial, Philadelphia, 1876; at the American Institute, New York, and at State Fairs throughout the country.

No other article of human food has ever received such high, emphatic, and universal endorsement from eminent chemists, physicians, scientists, and Boards of Health all over the world. Health all over the world. Note-The above Diagram illustrates the comparative worth of various Baking Powders, as shown by Chemical Analysis and experiments made by Prof. Schedler.

A pound can of each powder was taken, the total leavening power or volume in each can calculated, the result being as indicated. This practical test for worth by Prof. Schedler only proves what every observant consumer of the Royal Baking Powder knows by practical experience, that, while it costs a few cents per pound more than ordinary kinds, it is far more economical, and, besides, affords the advantage of better work. A single trial of the Royal Baking Powder will convince any fair minded person of these facts.

\* While the diagram shows some of the alum powders to be of a higher degree of strength than other powders ranked below them, it is not to be taken as indicating that they have any value. All alum powders, no matter how high their strength

## ORIGINAL" 4000

First-Class in Design; First-Class in Workmanship;

First-Class in Operation. THE ORIGINAL is the ONLY FIRST-CLASS WOOD COOK that has an individuality of its own, distinguishing it from the every day construction offered in First-Class Stoves.

The ORIGINAL fulfils every pledge that is made for it, and stands to-day unequalled as a Modern ideas and new improvements, make it the most economical and convenient stove ever placed on the market. It has the largest High Oven, largest top, largest reservoir, largest ire box and flues. Its value is apparent at sight, and builds its own reputation. The lower oven door drops and forms a substantiat flush oven shelf, while the upp

tains the heat that is wasted from every swinging oven door Cook Stove.

I also keep the NOVEL STANDARD, the latest and most modern COAL COOK in the market. The points of construction are similar to the Original Cook, and a sister stove for burning CALL AT HARDWARE STORE,
