ADDRESS.

The indications all point to 1889 being a good year for general business.

Throughout the world the reports are, that the volume of commercial transactions is being materially increased, and that the value of nearly all staple commodities is advancing.

New Brunswick's great staple—LUMBER—is about twenty-five per cent. higher in Liverpool and other MONEY TO LOAN on Real Estate Security, In the store formerly occupied by the late Francis Douyherty, as a boot and shoe store, great markets, than for some years past.

Noting the tendency of values, we made large contracts last fall for stock in all our lines, for season of 1889, and as heretofore will give our customers the advantage of the same, selling everything at a small margin of profit and upon favorable terms,

We strongly advise persons who have in mind to

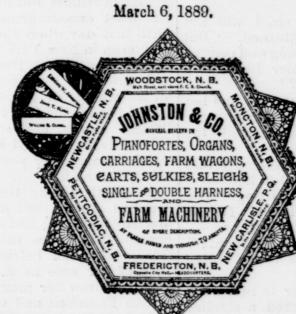

procure anything in our line, to take advantage of the good goods we offer at recent prevailing low prices. When Flour, Lumber and Iron advance in cost, everything else has the same tendency. We suggest to our friends to look carefully over

their stock of Farm Machinery and examine the con-

dition of their wagons, and if likely to need anything.
