Modern ideas and new improvements, make it the most economical and convenient stove ever placed on the market. It has the largest High Oven, largest top, largest reservoir, largest fire box and flues. Its value is apparent at sight, and builds its own reputation.

The lower oven door drops and forms a substantial flush oven shelf, while the upper one retains the heat that is wasted from every swinging oven door Cook Stove.

I also keep the NOVEL STANDARD, the latest and most modern COAL COOK in the market. The points of construction are similar to the Original Cook, and a sister stove for burning coal.
