Cough medicines, Ayer's Cherry Pectoral is in greater demand than ever. No preparation for Throat and Lung Troubles is so prompt in its effects, so agreeable to the taste, and so widely known, as this. It is the family medicine in thousands of households. "I have suffered for years from a bronchial trouble that, whenever I take cold or am exposed to inclement weather, shows itself by a very annoying tickling sensation in the throat and by difficulty in breathing. I have tried a great many remedies, but none does so well as Ayer's Cherry Pectoral which always gives prompt relief in returns of my old complaint."—Ernest A. Hepler, Inspector of Public Roads, Parish Terre Permedia.

Samuel Griggs, Waukegan, Ill. "Six years ago I contracted a severe

cold, which settled on my lungs and soon developed all the alarming symptoms of Consumption. I had a cough, night sweats, bleeding of the lungs, pains in chest and sides, and was so prostrated as to be confined to my bed most of the time. After trying various prescriptions, without benefit, my physician finally determined to give me Ayer's Cherry Pectoral. I took it, effect was magical. I seemed to rally from the first dose of this medicine, and, after using only three bottles, am as well and sound as ever."

Gibraltar.

Nature helped to make Gibraltar impregnable. Art has finished the job. Great cannons look out from a hundred loopholes in the sold rock, long tunnels wind up to the signal station, and pierce the rock in every direction, occasionally expanding into magazines or into large chambers, where great black cannons peer out of the rocks. During the last hundred years many of the most costly improvements have been made, and if Gibraltar is ever captured by an enemy it will be solely due to the rock splitting from the concussion of its own big guns. It is a splendid example of man's ingenuity and man's persistency—this lonely rock, for which men have fought and died. When Each shivering bough enwreathed shall glow
