The St. John "Freeman."

On Saturday last we received the last copy of the daily Freeman, the publication of the paper ceasing on that day. We are glad to learn, however, that the publication of the weekly Freeman is to be continued. In their announcement the proprietors

"All questions of public importance will be discussed fully and carefully, and the news will be abundant, fresh and interesting. The politics of the Freeman, we need scarcely add, will be what they have been from the first."

The weekly Freeman will be sent to all who have been regular subscribers to the Morning Freeman. The subscription will continue to be *Our Dollar*.

While there is little room to doubt that there were too many dailies in St. John, we think it will be pretty generally admitted that the Freeman was not the last that could be best dispensed with, but as, like some other good papers, it was being published at a loss to the proprietors, they, very justly, consulted their own interests, rather than those of the public, in discontinuing it. The Weekly Freeman will, doubtless, be as ably conducted as the daily has been and it will therefore deserve an extended circulation.

Our Farming and Settlement Interests.

ROGERSVILLE.

A valued correspondent, whose attention has been directed to the subject of our farming interests by our recent remarks thereon, writes as follows:—

"In your issue of the 17th Oct. I was pleased to see so much space devoted to the farming interests, with so many appropriate remarks and also in yours of the 24th, with an extract from the Freeman. It is encouraging to the farmers to know that there are at least two valuable journals espousing the cause. Although the farmer has many drawbacks to contend with, such as failure of crops, and a long winter season to feed their stock, yet we must admit that there are failures in all other branches of industry as well."

"I will not pretend to advocate or condemn the acts of any Government on the scheme of Immigration, but I find that most of the settlers under the Free Grants Act, in the Rogersville settlement are getting on remarkably well. When there, about the first of last month, I was much surprised to see the improvements going on. There has been a new road about a quarter of a mile long made from Carleton Station to the settlement. It was built by Government grant under the supervision of Mr. Thomas Doan and as it was the time they expected the Commissioner with the money, he was looked for daily. As far as I could understand the making of the road cost about two hundred dollars (\$200). Now, Mr. Editor, to show what may be done through perseverance I may state as follows: the settlers to whom I allude are all French, principally from Battouché and Shédiac, being the surplus population of overgrown districts. They are now, most of them, settled between two and three years, having complied with the terms of the Free Grants Act, whereby they receive a License from Government to cut and dispose of the lumber on the lands allotted to them to enable them to make a livelihood. Their crops looked better than we have them in our other cultivated districts. They produce beans, potatoes, Indian corn and buckwheat in large quantities, and the best wheat and oats I have seen this season. The land is good, and I think there is no doubt that through time it will repay the industry of the husbandmen. I do not suppose any good would result from inviting our young men from town to take new farms, but I would ask all young men from the country who intend to make a living in the Province, to be careful in the selection of good land, even though it be in out-of-the-way places, and if they work they have a chance of becoming independent."

We commend the above letter to our readers who are disposed to use their pens in a good cause. A more general diffusion of the kind of matter which it contains could not but result beneficially to many who need information and encouragement as aids in establishing themselves in the country. What has been done at Rogersville may be done in hundreds of other places in different parts of the Province, and it is a matter of profound regret that so many young men may be found loitering about our streets, doing worse than nothing and spending their lives without credit to themselves or families, when they might be making homes on free lands, with every prospect of becoming good and useful citizens. The Government might very profitably employ Settlement agents to lecture to these young men. It would be quite as beneficial as the commissioning of

Immigration Agents to place the attractions of our country before similar classes in foreign countries. Indeed, our own people are much more valuable to us as settlers than the majority of those who may be brought from abroad, for they are accustomed to our climate, laws and the general conditions which enter into every day life in the country.

Mr. CARTERIGHT has been elected in Centre Huron by a majority of 427.

THE DOMINION MINISTERS have been elected by acclamation. Mr. Tilley goes to England at once to negotiate a loan.

ELECTION PETITIONS have been filed against the returns of Messrs. Burpee, Weldon, Donville and Tilley. Seven petitions have now been entered at Fredericton.

FROM SAN FRANCISCO.—Our local readers will, doubtless, be much interested in our San Francisco letter, which will be recognized as that of Mr. W. T. Carman, late of Chatham. We hope to hear from him again, as soon as he has somewhat familiarized himself with the "Golden Gate."

Nor 200,000,000.—A paragraph, stating that it takes 200,000,000 of logs to supply the Miramichi mills for a season, is going the rounds of the papers. In 1877 the export was only a little over 150,000,000, and that was the largest we have ever had. The export of the present season is about 105,000,000. Add 10,000,000 for shrinkage, to supply the local market, etc., and it will give us 115,000,000. It will, therefore, appear that 150,000,000 of logs are a fair supply for one season's saving in the Miramichi mills.

DESERVED HONOR.—J. Walter Scammell, Esq., of the well-known firm, Scammell Bros., left St. John for New York on Thursday morning last, to assist in managing the business of the branch of their house at that city. On the night preceding his departure he was entertained at a dinner at the Dufferin Hotel, by a large number of his fellow-citizens. Sheriff Harding occupied the chair and the vice chairs were filled by other leading citizens. Those who spoke toasts were unanimous in expressions of esteem for the private and business character of Mr. Scammell and of regret for his removal from it. We heartily join in these expressions of friendship for Mr. Scammell and wish him abundant success in New York.

Pokemouche Items.

An obliging Pokemouche correspondent writing on 2nd inst., sends the following items:—

Our Municipal Election came off here on Tuesday, the 29th Oct., and the result was as follows: Walsh, 123 votes, James Barry Jr., (not Edward Barry, as reported in the Freeman) 109, James Hayden 24.

Ripe strawberries have been picked on the 25th, Oct. at Green Point, Pokemouche, in quantities. Such a product at this season is unprecedented in this quarter.

Bears have made sad havoc amongst the sheep this fall.

Potatoes are not half a crop and are very poor in quality. There are several families in this parish, at this season, with none on hand; how these people are to provide for themselves during a long winter it is hard to say.

Wheat is a very light crop, and the same may be said of oats.

The weather is very fine and wind warm. Several parties are cruising the forest for spruce logs, which they intend to haul out for the mill at Tracadie; although the price is low it will give employment and several full freight provisions for their families will thus find an opportunity for getting work.
