

**Miramichi and the North Shore.**

SEE Messrs. Everett & Butler's advertisement for the trade.

**THE COUNTY RIFLE ASSOCIATION is to hold its Annual Meeting, on Tuesday, 14th inst.**

CALIFORNIA.—We are obliged to Mr. George Hubbard for an addition to our California files.

A New Post Office was opened yesterday at Mr. L. N. Allain's, Negac. It will be a great convenience to the people of that locality.

WILD GESE.—Judge Botsford's six ducks sported at Kouchoungou Beaches resulted in his killing thirteen geese, four of which he failed to get.

VESSEL PURCHASED.—The schr. *Providence*, 81 tons register, built at Restigouche N. B. in 1861 has been purchased by Messrs. Charles Foster and Thos. Haines, of Richibouctou, for \$1000.

NEW GROCERY STORE.—Mr. W. S. Loggie has leased the store lately occupied by Isaac Harris, Esq., and intends occupying it as a grocery, in connection with his dry goods business.

THEFT.—Miss Cooling, the M. T. Co.'s operator here, had \$20 stolen from a trunk in her room, on Sunday night last. The thief must have had a key that fitted the lock of the trunk exactly, as it was not damaged at all.

LUNACY.—If any one doubted the propriety of the Provincial Secretary asking the Legislature to authorize increased accommodations in the Lunatic Asylum, they will do so no longer after seeing the leading article in this week's *Advocate*.

CHANGE IN THE HOURS OF THE POLICE.—A change has lately been made in the hours of the Chatham Police which are as follows:—Day duty, from 6 a.m. to 6 p.m.; additional, from 2 p.m. to 2 a.m.; and night duty from 6 o'clock p.m. to 6 a.m.

Mr. Geo. McLennan, M. P. for Kent, returned from England by the *Caspian*, and proceeded to St. John last evening. A gentleman who interviewed Mr. McLennan here is of opinion that he intends to offer again for Kent County.—*Moncton Times*.

CARMICHAEL BROS.—We overlooked the fact, that it was Carmichael Bros., instead of Mr. Sydney Carmichael, alone, who were preparing to occupy the new store at the Corner of Duke and Cunard Streets. The enterprise is, therefore, as strong again as we thought it, and with two competent young men in it, instead of one, its success is doubly assured.

DROWNED.—Our Belledune correspondent writes:—On Wednesday morning, the 24th inst., Jerome Dagle, Farmer, was drowned in Belledune River, while driving logs there. He was in the water about twenty minutes before assistance could be rendered. An inquest was held upon the body and a verdict of "Death by drowning" returned. He leaves a wife to mourn her loss.

FATAL ACCIDENTS IN GLOUCESTER.—A Bathurst despatch to Monday's *Telegraph* says:—A young man, about 20 years of age, named John Curtis, belonging to Dunabridget, was killed at Mill Street yesterday while assisting to break a length of logs. Some hundreds of the logs passed over his body, carrying him forward into the river and killing him instantly.

TRIAL TRIPS.—On Saturday the Tug *Relief* went over the river on her trial trip and seemed to work well.

The *New Era* visited Chatham for the first time this season on Thursday, and commenced her regular trips on Friday. She appears to be in excellent order.

The *Andover* made her first trip to Chatham last evening. She will be down this morning at 9 o'clock, and leave for her trip about 10.

THE FIRST ARRIVALS FROM SEA.—On Tuesday, the two first arrivals from sea came into port, in the barque *Ellen*, Branson, from Barry's Bay, owned, by and consigned to Hon. William Muirhead, and the other barque *Lochiel*, Hally-Morrison, Esq. The latter had a passage of 19 days to the bar, being 13 days to St. Pauls. Yesterday morning four or five other vessels were reported at the mouth of the river but the ice kept them there.

NEW STEAMER.—The new paddle wheel steamer for Messrs. J. & J. Miller of Derby, the hull of which has been built by Mr. R. Blake is now nearly completed. Her dimensions are 50 ft. keel and 54 ft. over all; 34 ft. hold and 7 ft. 10 in beam. Her frame is of juniper, and she is planked with pine and fastened with galvanized iron. Her engines are manufactured by Mr. J. W. Fraser at the Miramichi Foundry and Machine Works. They will be high pressure, link motion, placed side by side on an incline. The cylinders are 62 1/2 in. the boiler will be of the locomotive type with a furnace 63 ft.

EFFICIENT TEAMING.—We have pleasure in recommending Messrs. Chas. Skead, house and carriage teamsters. Their outfit for the general work of trucking is very complete and they make a point of being prompt in executing orders, both in connection with the Chatham Railway and about town. Those who entrust them with their work may rely upon their being on hand to do it at any hour. They are to use a homely phrase, the "boss teamsters," and seem determined to deserve the first place in their line of business.

FIRE.—On Tuesday, about 1 o'clock, p.m., the roof of Mrs. Loudon's house was discovered to be on fire at the extremity of the L, in the vicinity of the kitchen chimney. The alarm was given and the water poured in by means of buckets and a small inch hose from the force pump at Mr. Snowball's residence opposite. Both the hand engine and the steam fire engine were soon on the spot, and extinguishing the fire. The damage from both fire and water was considerable, the house being drenched with water, from which only about two rooms escaped. The cause of the fire is presumed to have been the heat from the chimney.

Entertainment of the Dutch Reformed Church.—The Dutch Reformed Church held their usual weekly meeting in the Masonic Hall, the chair being taken by President L. J. Tweedie. The attendance was not so large as usual, though very fair, and the meeting was opened by the Choir singing "Hear the Call."

A motion was made by John Shirreff Esq., that a committee be appointed that evening to name the officers for the ensuing year.

Mr. D. Davidson moved in amendment that the matter be postponed until next Tuesday night and Mr. Shepherd Frost another amendment that a special meeting of members be called for Monday evening. After some discussion it was decided to leave the matter till next Tuesday evening.

PROGRAMME.—Address—By the Rev. William Sinclair, Solo—"Little Barefoot," by Miss Annie

Davidson. Accompaniment by Miss C. Johnston. Address—By Mr. Henderson, of Black Brook. Recitation—Selection from "Marmion," by Master Chas. Kelly. Solo—"Farewell to Whiskey" by Capt. Brown.

Recitation—"Look not on the wine," by Master Ernest McKay. Solo—"The Mississippi Shore," by Mrs. H. Patterson, and Miss M. Johnston, R. Gordon, M. Goggin, M. Bell, and Mr. L. Desbarres.

Address—By Mr. Windsor of Dalhousie. Chorus—"Scatter Smiles" by Miss Jennie Shirreff, Mary Loudon, Ella Paterson, D. Davidson and Reta Kelly. Accompaniment by Miss C. Johnston.

Chorus—"The Home over there," by the Choir. Address—By the President. Solo—"A Man's a Man for a That," by Mr. Ed. Smith.

Recitation—"The 5th of November at Inverness," by Master Albert Patterson. Duet—"Mother, I have heard sweet music," by Misses and Mrs. Goggin and Gertie Goggin. Accompaniment by Miss C. Johnston.

The meeting closed with the National Anthem and a prayer.

During the evening the President announced that there would be a meeting of the Executive Committee at the close of the meeting, and members of the Visiting Committee were requested to hand in their books.

**School Examinations.**  
The Semi-annual examinations of schools in District No. 1, Chatham commenced on Friday morning last.

**PRIMAERY DEPARTMENT.**  
The examination of Miss Alexander's School, Nos. 1 and 2 Primary, commenced at 10 o'clock. The number of pupils on the Register is 53 and the average attend-ance about 45. The scholars were divided into three classes. The Trustees present were Messrs. Wm. Murray and F. E. Winslow, with the Secretary of the School Board, Mr. S. Benson. There was also a considerable number of ladies, and the Rev. Messrs. McBain and McKewen and other gentlemen also attended.

The exercises commenced by the children repeating the Lord's Prayer and singing. They then proceeded with reading and copying short sentences from the black board. The Reading was very creditable for children so young, and the lettering on the slates in italic characters very neat.

After the pupils had been put through some physical exercises, they gave a simultaneous recitation.

The pupils in class A were then called upon to construct a division table of sixes on their slates and the black board, and to prove the same by multiplication, which was very correctly done.

After a reading lesson by class B, which was very satisfactory, Susie Gillespie gave a recitation entitled "Making Mud Pies" and acquitted herself creditably. After singing the children took recess.

An object lesson on the "Ear" was next given, in which the whole of the pupils took part.

A recitation by Master L. De Baron Shirreff "The Cat and Kittens," and another by Bessie Sadler "The Stray Lamb," were next given, in a very satisfactory manner.

Class B, then engaged in placing on their slates short sentences from memory which were very neatly executed in italic characters.

The remainder of the exercises consisted of a lesson in the first rules of Arithmetic on the black board, by the senior pupils, notation and arithmetical exercises on the black board with the aid of the ball frame by the junior pupils, also Reading and Spelling, and exercises on the sounds of letters. In drawing, the exercise was the repetition of simple curves of which some good examples on the black board were given by Alexander Cormack, and Bessie Coigley. Class B were then put through an exercise in "form," (quadrilaterals) on the black board, and afterwards required to draw them on their slates, some of the specimens being very good.

During the after part of the exercises, which were also diversified with singing, the following recitations were given—Annie Loudon "Chickadee," Bertie Strang "The Baby" and Alex. Cormack "Father at Play." The various exercises showed that the children were making satisfactory progress, and the promptness with which they executed the commands of the Teacher were executed evinced an excellent state of discipline.

The Rev. Mr. McBain briefly addressed the children at the close, saying although he had been much pleased with what he had seen of the exercises of the School he would like to see a better School house. He believed it would cost but little and well repay the town and all concerned.

The Primary was one of the most important departments of the School system, as it here a good foundation was laid, and he felt much gratification at the clock-work system he had witnessed.

The Rev. Mr. McKewen endorsed the sentiments expressed by the Rev. Mr. McBain. He thought this was the most important School, and hoped that the time was not far distant when a better School house would be provided.

The proceedings were then brought to a close with singing.

**INTERMEDIATE DEPARTMENT.**  
The examination of the Intermediate Grade School in the Masonic Hall Building, under charge of Miss M. Haviland took place at 2.30 p.m.

The number on the register of this school is 53 and the average attendance 43. There was a numerous attendance of parents and others interested among whom were the Rev. Messrs. McBain, McKewen, Mr. S. Benson, Secretary of the School Board, and Mr. L. B. Oakes of the High School.

After singing by the pupils, class C were exercised in Addition and Subtraction also in Notation and Roman Numerals on the Black Board, in which they seemed quite at home.

A recitation, entitled "Spring" was nicely rendered by John Shank.

Classes B and C read from the 2nd Book and were exercised in Spelling, acquitting themselves very well.

The pupils now sang "The Rock Bessie the Sea," after which a recitation, entitled the "Linnet," was given by Nellie Benson.

A lesson in Geography came next in which the pupils explained the meaning of Latitude, Longitude, Meridians, and the position of the different Zones.

A recitation was now given by Laura Haviland, "The Shepherd's Child," and one by John Ludon, "Mind what you say."

Class B next went through a lesson in the elementary rules of Arithmetic in a very creditable manner, after which Gertie Goggin and Annie Haviland gave a song, "A Little Daisy's Evening Prayer."

A reading lesson by Class A followed, after which there were two recitations, "The Robin's Nest," by Nina Benson, and "Pictures of Hope," by Mary J. McDonald.

Geo. Shank, John Loudon, Fanny Gillespie, and Addie Shirreff, gave some very good examples of frechand drawing on the Black Board.

Class C was next examined in the first steps in Geography and class A in the 1st

four rules of Arithmetic, and also in Mental Arithmetic.

A recitation, entitled "The True Tragedy," or Tabby and her Kittens," was given by Fanny Gillespie, in excellent spirit.

Class A were now called up to contest in spelling, for which a prize was to be given, and after a sharp contest, Nellie Fotheringham, who has the reputation of being the best speller in the School, carried off the prize, a scrap book, which was presented to her in a neat speech by the Rev. Mr. McBain.

Recitations were next given, one entitled "Spring," by Aggie Anderson, another, "Yes or No," by Addie Shirreff, and a third, "The Dispute between Pen and Ink," by Elise Ramsay. The scholars were finally dismissed after singing the National Anthem. The visitors present seemed generally pleased with the evident progress of the pupils and the discipline and order with which the school was managed.

**PRIMAERY DEPARTMENT.**—The School Trustees request that all who wish to enter the Primaery Department, in charge of Miss Alexander, will make application this week.

[We are obliged to hold over until next issue full reports of the Examinations of the Grammar and High School, the Advanced School and the Primaery School in the St. Patrick's Hall.—EDITOR.]

**New Barque "Premier McKenzie."**  
On Tuesday last, the new barque *Premier McKenzie*, built at Newcastle by C. C. Watt, Esq., was successfully launched. She is a vessel of 408 tons register and 519 tons builder's measurement. She is a joint-venture of Messrs. Watt and Co. and Messrs. G. & A. G. G. She is a vessel of 408 tons register and 519 tons builder's measurement. She is a joint-venture of Messrs. Watt and Co. and Messrs. G. & A. G. G.

She is a vessel of 408 tons register and 519 tons builder's measurement. She is a joint-venture of Messrs. Watt and Co. and Messrs. G. & A. G. G. She is a vessel of 408 tons register and 519 tons builder's measurement. She is a joint-venture of Messrs. Watt and Co. and Messrs. G. & A. G. G.

great satisfaction to the fishermen and to the Government. Please give this a space in the *ADVANCE* and oblige, Yours, BENJAMIN SWEZEY, Napan Bay.

[We are very glad to receive the above letter from Mr. Swezey, who being a leading net-fisherman as well as a prominent resident of Lower Napan must know what the sentiment of that part of the County is in reference to what may be considered a vexed question. It is all the more gratifying to us to publish his letter, because mature judgment has caused him to conclude that the *ADVANCE* has been, all along, right in reference to the Napan Bass fisheries. Mr. Swezey who is only one of hundreds in the County who are beginning to realize the objects of the prohibitions and other annoyances to which fishermen have been subjected during the past eighteen months.—EDITOR.]

**A Grave Accusation.**  
To the Editor of the *Miramichi Advance*. While perusing the
