MIRAMICHI ADVANCE, CHATHAM, NEW BRUNSWICK, JULY 18, 1878.

THE WHOLE COST OF COLLECTING OUR REVENUE.

these facts were apparent. That the aggregate cost of collecting the entire revenue, under the old Administration, showed an increase of 153 per cent. in seven years, or an average of 22 per cent. per annum ; while the entire cost under the present Administration increased nine per cent. in three years, or an average of three per cent. per annum. If they deducted extraordinary expenditure, such as the Weights and Measures Act, the Adulteration of Food Act, the increase of Postoffices, for which latter item hon. gentlemen opposite did not appear to blame the Government, the increased expenditure under the old Administration, as compared with the present, stood as follows : under the old Administration, 22 per cent.; under the present Administration, 1 per cent. per annum. THE LOAN ABOUT WHICH SO MUCH WAS SAID LAST YEAR.

His hon. friend from Niagara took a peculiar line of argument in dealing with that loan. Last year they were told by the hon. gentleman himself, and by the hon. the hon. member was in the throes of his member from Cardwell, that the loan en- political dissolution, and the country was tailed a great loss on the people of this saddled with an enormous expense in ountry ; that, in fact, it was a reckless order that these men should not come to bargain. They went so far as to question want. If it is proper that the the bona fides of the Canadian agent, in London. This year he noticed the tone of the hon. member for Niagara was much altered. He as much as said. "The loan has been effected, the money has been borrowed and borrowed very cheaply, and the Canadian agents manage to make practically nothing out of it; but it was such an easy thing that the hon. Minister for Finance does not deserve any credit for it. The time was opportune, there was a plethora of money in the English market, and he could not help but borrow on favourable conditions." He was glad to notice that what these gentlemen so much condemned last year, they were now obliged, under altered circumstances, to approve of, and he ventured to say that if hon. gentlemen opposite reflected upon the expenditure of the present Administration, and compared it with their own expenditure of three years ago, their tone would also be altered, and they would more than commend the present Administration for their careful and economical management of public affairs. Another circumstance in regard to which he wished to make a remark, was the burdens which were imposed upon the people of this country. The House was led to believe by hon. gentlemen opposite that the present Administration had largely increased the burdens of taxation from which the people were suffering. These hon. gentlemen went so far as to say that during their Administration their policy was one of low taxation, while that of the present Admin- when in perfect health ; but how often do istration was one of high taxation.

WHO TAXED THE PEOPLE MOST ?

He wished to give a few facts from which it would be seen under which Administration the people of this country had been most seriously burdened. Take, for instance. the last year during which the party opposite were in office, 1872.3, and what did they find ? They found that the average amount of money paid per capita by the people of this country, in Customs and Excise, was \$4.90, while the average amount per capita in 1876-7-that was last year-was \$4.42, or 48 cents less per capita than the burdens imposed upon them by the previous Administration. But hon. Heart, and other distressing symptoms. gentlemen opposite might tell him that the Three doses of August Flower will prove

Indeed in need be no fear but even the death-bed repentance of the present Administration, would be strange if it were otherwise. f death-bed repentance it really is, will Since he was first returned to Parlia compare very favorably with the last ment Mr. Burpee has devoted his time scene in the career of an Administration ot which the country is now happily reand talents to the interests of the in lieved, and whose return to office is in the portant constituency for which he sits far distant future. He had not yet seen while his administration of the office of anything to justify the hope that hon. gentlemen opposite, were they restored to power, would not repeat the same reckless Minister of Customs has been a marked success. St. John would have nothing extravagance in the Administration of to gain by defeating Mr. Burpee, while public affairs which had characterized them in the past-an administration which she would lose much were he not rehad brought reproach upon the country, turned. The clauses relative to the consideration ot the Greek claims by Turkey and the Austrian occupation, were both inserted in the treaty. Bismarck in his speech at the closing of Congress on Saturday declared that he did not hesitate to affirm that this Congress deserved well of Europe, and that the plenipotentaries would have the consciousness of having, as far as possible, restored and assured peace. The plenipotentaries were to leave Berlin on Saturday or Sunday.

Derby Letter.

MR. EDITOR : - Though Derby experiences a share of the financial depression, yet our ambitious and energetic inhabitants do not feel "crest fallen." This little village which has always

maintained her rights either politically, commercially or socially is destined to become the "Paradise of the North". Her commercial situation renders the village unrivalled for speculators to amass wealth. Her fisheries, her lumber trade, her manufacturing establishments rival-in a marked degree-those of the great metropolis, these combined with heragricultural resources, must, eventually, letter you see fit. elevate her to a position similar to many
