ARRIVAL. - On Saturday last, the barque Lothair, Hollywood, arrived here from Belfast on her third trip of the season.

Business.—We regret to learn that Messrs. Logan & Lindsay, of St. John, are in business difficulties, which we hope will only prove temporary.

DRAMATIC. -- Mr. Nannary's Dramatic Company is to open at Masonic Hall, Chatham, on Saturday night and appear for a season of three nights. The Com pany is well spoken of where it has ap. peared. The opening piece is "A Celebrated Case.'

THE SOCIAL PARTY at Masonic Hall. Newcastle to-night promises to be the most attractive social event of the season. The committee's arrangements are excellent and the attendance will doubtless be large and fashionable. The New Era leaves Chatham at seven o'clock, p. m., for the accommodation of Chatham guests, who return by the Andover at the close of the party.

THE WEDDING CROP promises to be fairly brisk the present fall, notwithstanding the dull times. We don't like to say much about such matters in advance, but we start our congratulations on the road to Bay du Vin, so that they may reach one of our most popular lady friends there ere she departs for St. John. We hope the old slipper will be in time to reach another happy couple who are about to enter upon new and closer relationships in the same locality. Nothing looks so well as marriage announcements at this season. OUR NEWCASTLE COTEMPORARY, whose

columns, in a general way show that an effort is being made to render them less offensive to the taste of its ordinary patrons than heretofore, says the ADVANCE is "filled with the gall of bitterness, and "flings out misrepresentations, insolence "and contumely with a prodigality quite "in keeping with the character of th "paper and its manager. In its columns "one of our firm has been accused of rob "bery, the firm itself of forgery-many of " our citizens ridiculed and alluded to in the "most disrespectful terms, and the general "course of the Advance has been such as "to bring discredit upon the profession of "journalism, and the party it represents "in this County."

Some other paper must have fallen under the eye of the writer of the above and been mistaken for the ADVANCE, or else he wrote under undue excitement, which we trust will be allayed by the soothing hard of time. We have not made the accusa- Landing. tions referred to, nor have we ridiculed anyone undeservedly. The Advocate and a few of its friends have made a specialty of attacking the ADVANCE and if we have ridiculed them for their presumption it was only because we wished to show that we did not take what they said to heart and, also, because we desired to say nothing in the way of resentment which could, hereafter, appear malicious. We really hope that the Advocate's better mood is the outward and visible sign of genuine reformation and that it has learned to differ from us in public matters, without displaying a state of temper which can neither injure us nor win respect for itself. We can overlook the ill-natured things it said in yesterday's issue and wish it success in its apparent efforts to be more worthy of its patrons in the future than it has been in the past.

Newcastle Items.

The Harkins Academy building, New castle, is being much improved. The Principal's room has been enlarged and is now commodious and comfortable. Hitherto it has been found too small and otherwise inconvenient for the winter attendance. An ell 28x25 ft, has been added. which gives a class room to the departments, above and below. Separate entrances for male and female pupils are also secured and such other arrangements made as will much improve the accomodations for female pupils. The ell will be finished uniformly with the main building and be a handsome addition to the general appearance of the structure.

Mr. Geo. S. Stothart of Newcastle is the contractor and the work when finished with what they would cost, and if the Trustees, now that labor and materials are so cheap, could see their way clear to erect a building as a dwelling for some person whe would look after the property and keep it in good order, it would be a move in the right direction.

Commissioner Atchison has discovered that a large portion of the shipyard which Mr. Mitchell sold to the Government was a public street of the town, and his store, known as "Russell's slaughter house," is upon the same street, a plan and record of which may be seen at the office of the laid out and recorded by Commmissioners, the late Hon. J. A. Street and the late James Gilmeur, Esq., of the firm of Gilmour, Rankin & Co.

Deputy Surveyor Crocker has received orders from the Government to survey 3.000 acres of the tract known as the "Sugary land," situated about ten miles from Newcastle by the road, and about six and a half as the crow flies. This tract escaped the Great Fire of 1825, and is still timbered with the original growth, and is a very desirable tract for settlement. Bye-Road Commissioner Atchison had a road ten feet wide cut through to this land some years ago, and says that an expenditure of \$2,000 will be necessary to construct a bridge over Bow Brook and make the road passible.

There are thirty applications in by Newcastle parties intending to settle on Government Lands, sixteen of which are under the Labor Act and the remainder under the Free Grants Act, the latter being for the "Sugary Lands." All the vacant lands on Chaplin Island Road are now ap-

The Russians claim that the Treaty of Berlin did not fix the duration of the Russian occupation of places outside of Roumelia, and that the occupation of such places is regulated by the Treaty of San Stefano. The Porte is informed that the Austrians will not advance into Novi-Bazar. The danger of a conflict is thus averted. THE MERCHANT'S BANK. -A Charlottetown correspondent telegraphed on Friday: "Little change has taken place as regards the Merchant's Bank since yesterday. It is reported that the Union and P. E. Island banks, which stood by it up to the hour of its suspension are about deciding on a rate at which they may hereafter take its notes. There is quite a confident tone in reference to the bank's ability to redeem all its paper at the end of the ninety days; but a large quantity of it is afloat and unless the other banks come to its rescue in the present crisis the notes will be very much depreciated. The farmers and laboring class who hold its paper are likely to suffer most, as some of them are almost panic stricken and ready to sacrifice it for anything. Today it was selling at ninety cents to the dollar and several merchants are offering McDonald, Bay du Vin, after a lingering illness

to take it at the face for goods." Since the above was in type we learn that St. John parties are taking the Merchant's Pank paper at 75cts on the

Our advice to the public at large is to try its virtues if they should unfortunately contract either coughs

An Astonishing Fact-

A large proportion of the American people are to-day dying from the effects of Dyspepsia or disordered liver. The result of these diseases upon the masses of intelligent and valuable people is most alarming, making life actually a burden instead of a pleasent existence of enjoyment and usefulness as it ought to be. There is no good reason for this.
