THE FIRE OUT .- No flaming headings over the political news in the Advocate the present week. It was known in Newcastle at nine o'clock on Tuesday night that Mr. Jones was elected by "a majority of at least 250" but the Advocate deliberately sent to its readers the misstatement that Mr. Richey had a majority-what a reliable, independent organ!

ANCHOR LINE. - It will be seen by advertisement that the sailings of the Anchor Line steamers are announced, and we should think they would meet with the requirements of our merchants. The steamships advertised, Scandinavia, Columbia and Scotia, are well known in the trade, and the two latter have been supplied with new engines and boilers, therefore good time may be expected of them.

THE REFORM MOVEMENT. - The

figures quoted by A. D. Shirreff, Esq. at the Masonic Hall on Tuesday evening tell a gratifying story of the effects of the Temperance Reform Movement. They should encourage the workers who have carried on the movement so successfully heretofore, and make them realise that the cultivation of a healthy moral sentiment is far more effective in the work of killing the liquor traffic than all the clamoring for probibitory enactments that have been indulged in heretofore. TABUSINTAC. - An obliging correspondent writes as follows from Tabusintac:-

"The smelt fishing has caused quite an all the fishermen with their houses down to Tabusintac fishing ground which makes quantity of smelts caught, causing quite a stir among the people, giving them em ployment with their teams to do the haulon the road. It gives also to the tavern keepers a share of the patronage." WHAT DOES HE TELL THEM ?- Now and

then we hear, throughthe Moncton Times or Advocate of a political meeting having been held in Northumberland by Hon. Mr. Mitchell, but it is strange that announcements of such meetings are nevergiven, and reports of what the hon, gentleman says at them are never made in the Advocate. We should like to know what Mr. Mitchell has to say for himself and the Party he has restored his allegiance to in reference to the questions at issue between them and the present Administration. We should like to know the grounds on which he justifies his position as a Protectionist. It would also be in order for him to explain how it is that he has become an obstructionist at Ottawa in the way of the proper administration of such affairs in this County as are controlled by the Dominion Government. We should like to have him "hire a hall" in Chatham and give us one of those "ringing speeches" to which the Times so often refers, which the Advocate faintly echoes, and of the details of which both keep their readers in ignorance. Our representative should not, in justice to the metropolis of the North Shore, let the light of his oratory shine only in the rural districts.

> A. D. Shirreff, Esq., said he had promised to give a few statistics concerning the local liquor traffic from the Custom House. He had taken the figures of liquors entered for consumption for three months, commencing November, 1876, and November, 1877, which were as follows:-

1			gais.	auty.
	Nov.	'76	995	\$936.80.
	Dec.	'76	375	450.60.
	Jan.	'77	279	334.80.

\$1138.30.

These figures showed a decrease of 701 gallons, and \$583.90 duty in the last three months as compared with the three months commencing November, 1876. This alone would cause a saving of \$4,200 for the last three months, but he estimated the saving would amount to \$6,000 if the liquor received from Halifax, St. John and Quebec, on which the duty was paid at those places, was allowed for in the calculation. This would amount to about \$25,000 for the year, but he believed the cost to Chatham yearly for liquor was \$60,000. The cost of liquor to the Dominion was estimated at \$10 per head yearly, but it was said Chatham drank more than its share and he would put it at \$12 per head for a promise of a dissolution of the House of population of 5000, which would give

The

matter caused a severe shock in social THE NECESSITY OF VARIETY IN FOOD. -Great ignorance seems to prevail in reference to the necessity of variety in food, especially in the country, where, indeed, variety is harder to obtain. We must not restrict ourselves to a few articles of food, but must have a great variety of food to select from; we must not partake of the same fare day after day, but must vary it as much as possible. Only with a varied and alternating dietary can we be sure that what is lacking in one food will be of \$2000 per annum, on the Fire District of Chatham, in the County of Northumberland, for Fire supplied in another, and what we fail to get to day we shall have to-morrow.
