PRELIMINARY EXAMINATION OF THE OS BORNES, AND EVIDENCE OF THE GIRL

PARKER. The preliminary examination of the Osbornes charged with murdering Timothy McCarthy, commenced at Moncton on Monday, the 21st inst., before Stipendiary Magistrate Wortman, assisted by Councillor W. J. Robinson. We take the following evidence from the

"Annie Parker, was called and sworn:-On the 12th October last, I was at John Osborne's, Shediac. The family consisted of Eliza Osborne, Martha Osborne, John Osborne, and Harry Osborne. I recognize the parties in Court. John Osborne was sick on the day referred to. He was a hotel keeper and kept the Waverley House. I was a servant girl. The prisoners were in the house that night and two children, Morton and John-in bed. Timothy McCarthy was there that night. I saw him there before 10 o'clock and again after 12 o'clock of the 12th October. When I saw him the first time he was in the ladies' sitting room. Mrs. Osborne and Eliza were with him. They had a conversation about Mr. McCarthy. They were talking about a girl in Moneton; I her. McCarthy said he had an idea of

IMPORTANT LETTER From a Distinguished Physician.

NTO single disease has entailed more suffering or No single disease has entailed more suffering or hastened the breaking up of the constitution than Catarrh. The sense of smell, of taste, of sight, of hearing, the human voice, the mind, one or more and sometimes all yield to its destructive influence. The poison it distributes throughout the system atacks every vital force, and breaks up the most robust of constitutions. Ignored because but little understood by most physicians, impotently assailed by quacks and charlatans, those suffering from it have little hope to be relieved of it this side of the grave. It is time, then, that the popular treatment of this terrible disease by remedies within the of the grave. It is time, then, that the popular treatment of this terrible disease by remedies within the reach of all passed into hands at once competent and trustworthy. The new and hitherto untried method adopted by Dr. Sanford in the preparation of his RADICAL CURE has won my hearty approval. I believe it likely to succeed when all the usual remedies fail, because it strikes at the root of the disease, viz., the acidified blood, while it heals the ulcerated membrane by direct application to the pasal passages. It action is based on certain fixed nasal passages. Its action is based on certain fixed rules, and unless the vital forces are too far exhausted, must, in the great majority of cases, effect GEO. BEARD, M. D. NOBSCOTT BLOCK, SO. FRAMINGHAM, Oct. 1, 1874.

SANFORD'S RADICAL CURE MAY safely claim to be one of the few popular remedies receiving the approval of medical gentlemen, who, in private, not only freely recommend it but use it in their families in preference to any of the preparations usually prescribed by "You are aware." said a distinguished city phy-ician, " that my obligations to the Mass. Medical ociety are such that I cannot publicly recommend or prescribe the Radical Cure; but since I received so much relief from the use of it myself, after a thorough trial of the usual remedies, I have privately advised its use, and presume I have sent to your store no less than one hundred of my patients for it."

UNIVERSAL SATISFACTION. GENTLEMEN,—We have sold SANFORD'S RADI-cal Cure for nearly one year, and can say candidly that we never sold a similar preparation that gave such universal satisfaction. We have We are not in the habit of recommending patent medicines, but your preparation meets the wants of thousands, and we think those afflicted should be convinced of its great meritso that their suffering will be relieved. We have been in the drug business for the past twelve years constantly, and sold everything for Catarrh, but yours leads all the rest. If you see proper you can use this letter or any part of it that you wish.

Very truly yours, S. D. BALDWIN & CO.

combining greater excellence of mechanical simplicity together with greater durability and entire eliability for all the requirements of the field, than any other Mower extant. - In construction they are similar to the celebrated-Walter A. Wood's Iron Frame Mower, and the Richardson Buckeye, both American Machines. Of the former there are over 200,000 in use, and the extraordinary number of 20,000 were manufactured and sold last season, by the Wood Company of United States. We have over 500 of our manufacture now in use, every on of which (no exceptions) stands as a monument e the grand and unprecedented success of home manufacture and our enterprise. A list of our Agents in this section of the Province will be found ppended, and farmers are requested to ask inforation of them relative to our Mowers in use in their respective localities, which will establish beyond doubt their unquestionable superiority over any other mower to be had in our market. The facility of procuring all parts or pieces with-in a nominal length of time must show beyond the shadow of a doubt the claims such an enterpris has upon the farmers of the Maritime Provinces.
