CARD. TO THE ELECTORS OF THE COUNT OF NORTHUMBERLAND.

GENTLEMEN :-

I beg to inform you that I will be a candidate for your suffrages at the approaching Election for the Local Assembly. In the small compass of an Election Card it is impossible to give one's views on the political questions which have been before the Assembly for the past four years, or which will probably arise during the next terms. Therefore, I will only say that as your Representative for the past term, I have pursued an independant course, and toral mind is not far to seek. It is an one which was calculated to benefit this County.

At the public meetings which will be held in the different Parishes of the County before Polling day, I will take the opportunity of giving my views at length on these questions. Meantime I have the honor to be your

CARD.

TO THE ELECTORS OF THE COUNTY NORTHUMBERLAND.

GENTLEMEN:-You are to be called upon with-in a few weeks to elect four representatives in the New Brunswick Assembly and, in response to the expressed wishes of a large number of your body, I have determined to again offer for the seat which I now hold.

It is commendable that leading and experienced citizens should aspire to legislative positions, but i think you will agree with me that it is not alone n the large towns or in the ranks of but one profession that we should expect to find those qual cations which fit men to represent the varied interests of so important a County as Northumberland Having been one of your representatives during the past four years my record is before you, and while making no invidious comparisons I feel that I can claim to have acted consistently and in such a manner that while conserving the interests of the Province, I have also assisted in securing for my County her full share of consideration in the

tribution of public patronage. It has so happened that I have, in the main, sup-ported the Government of the day. I did so because I considered that course the best in the interests of the Province, as well as of Northumber land, and also because I had no desire to aid in effecting changes of administration, simply for the sake of change, and without the prospect of there-by securing either local or general advantages.

Before the elections come off I hope to visit very many of you, and while I am desirous of seeing and consulting with my friends, I am equally anxious to meet those who may be opposed to me and to answer personally any who may call in question m political course.
