The plain English of the petition was that he should support the Government and thereby secure the patronage of the County. He did not seem to have discovered that the very fact that such a call upon him was deemed necessary by himself and his triends, was telling evidence against his assumed "independence" -for if he had really loccupied an "independent" attitude there was no need

At the same time it must be borne in mind that the Canadian policy, unlike the policy of any colony either of Australia or South Africa, is liable to aberrations produced by the close neighborhood of a great independent power. When we hear that Canadians so vehemently declared for protection, we cannot forbear from speculating upon the probable effect of that declaration in the States. The proposals of a customs union, embracing the United American correspondent lately informed us have been attracting attention in Washington, will not probably meet with a much warmer reception from the new Ministry that will be formed under Sir John Macdonald than they would have received from Mr. Mackenzie. The Protectionists in Canada are at least as jealous of American as of sition" of any kind, connected with Mr. | English competition, and the Conservative party have been consistently opposed to any measure tending towards amalgamation with the Republic. ed is who will be Premier. Sir John has many supporters, but the great bulk of the Conservatives prefer Ex Lieut.-Governor Tilley. Sir John could take office under him without loss of dignity, and the Government would be all the stronger not to have him in the foremost place. Many examples can be cited, both in England and this country, of Premiers taking office under former subordinates. Earl Russell, for instance, served under Lord Palmerston after he had been Premier twice. In Canada also Sir Francis Hincks has held a portfolio in ministries after be-

all the causes of this overwhelming reversal of the political situation of 1873, we cannot but think that the Mackenzie Cabinet were, in the minds of the electors, blamed for the "hard times" in an absurdly exaggerated degree."

WHAT NEXT.—The Sun alleges that Mr. Snowball offered his services to Mr. Tilley and the incoming Government on condition that he be allowed to control the patronage of Northum berland. Those who believe such story must think that Mr. Snowbal was willing to sell himself for a very small price. Mr. Snowball's own statement on Declaration day is that he will render all the service he can to the County he represents, and that he wil opposse the imposition of duties on flour, salt, etc. We see no reason to doubt the truth of this declaration.-

The Sun, although it is advertised to be owned by gentlemen of good character and position, makes some very singular assertions in Mr. Mitchell's interest. It is perhaps unfortunate for Mr. Tilley that those who profess friendship for him should take such unwarranted liberty in using his name.

The members of Northumberland Lodge of Free and Accepted Masons, after a series of misfortunes, have succeeded in erecting and finishing a fine hall in the Town of Newcastle, Miramichi. It is some years since they made the first move in this direction, and erected a fine building, which was unfortunately destroyed by fire just as it was completed and ready for occupation, and on which they had no insurance. They at once set about rebuilding, and had so far succeeded, as to have the frame up and partially boarded in when the whole structure was blown down by a storm and totally destroyed. Nothing daunted, however, they again set to work, with renewed energy, and after a hard struggle have at last the satisfaction of occupying a Lodge Room in a building owned by themselves. The New Hall is situated on Pleasant Street, on land owned by the Lodge, and is a handsome two storey building 100 ft. by 40 ft., with a lotty tower on the south-eastern angle. The lower story is finished in one large room which is used as a public Hall; on the second flat is the Lodge Room, which is a handsome apartment 28 feet by 38 feet, with a ceiling of 12 feet in States and the Dominion, which as our height. In the case of the New River Murder, to which we referred last week, the Coroner's Jury found Thomas Dowd guilty as principal and Eliza Ward, wife of deceased, guilty as an accomplice in the murder of Thomas Ward. o the Editor of the Miramichi Advance, that gentleman has ever made any such statements, and I defy the Advocate to name one man who has expressed the above sentiments. On the contrary, Mr. Snowball's large vote in Newcastle and all over the County may be attributed to the fact that he represented the doctrine en and his colleague, Mr. Mitchell, viz: "that 'Protection for the sake of Protection 'means taxing a paying business to sup-'port one that will not pay," and so per fectly organized is the Snowball party at

present that if another election were ordered to take place, that gentleman would lead Mr. Mitchell by from five hundred to The same article says "that the supporters of Mr. Snowball, notwithstanding that they have obtained an ill-bought "victory, are of all men the most misera-"ble. ized the Advocate to speak for the supporters of Mr. Snowball? Its presumption in this is only of a piece with its method Fish. -Cod are in large supply; prices of distorting facts all through the chapter, and contains about as much truth as the Extra of the Advocate, which was distributed in the country places on the Sunday

The Advocate must surely mean the supporters of the Leader of the Left Centre when it speaks about "of all men the most miserable," for a more dejected and disaffected set of men it has never been my lot to meet with. Let the Advocate, next week, name the men "whose hopes of reward are blasted. The Advocate also devotes some space

to condemning the way in which Mr. Snowball's friends and supporters celebrated the victory in Chatham on Wednesday last, and, at the same time, entirely fails to mention how the roughs of Newcastle, led on by the Inspector of Schools, marched through the streets, hooting, yelling and calling names, and using the most abusive language towards the prominent supporters of Mr. Snowball; and it fails to record how they tried to injure a dumb brute belonging to a man who was proof against the promises and threats of the oligarchy which has grown up here.

I understand that there is to be a grand torchlight procession on the return of Mr. Mitchell next Saturday evening, when, it FANCY GOODS, is supposed, "Tilley and Tupper would like to be present." These gentlemen, however, "can't see

An Astonishing Fact. A large proportion of the American people are to-day dying from the effects of Dyspepsia or disordered liver. The result of these diseases upon the masses of intelligent and valuable people is most alarming, making life actually a burden instead of a pleasent existence of enjoyment and usefulness as it ought to be.
