Continued from 2nd page.

to the farmers of Ontario, and I maintain that the farmers of Ontario are of such a quality that if this question were fairly presented to them, and they did find that the people of the Maritime Provinces who have to import their bread pay more for it, they would believe, and act on that belief, that the true national spirit requires them to confirm no such taxation; that the spirit which divides Provinces instead of uniting them, which creates the feeling in the Maritime Provinces that the farmer of Ontario is raising the price of wheat and flour to them, and putting the money for it into his pocket, is not the spirit out of which you can make a nation; that the cause of discord and dissatisfaction should be removed, and that you should be left to the operation of principles of trade and commerce, so that the people of those Provinces might be enabled to buy their food where they can get it cheapest. But for the paltry excuse of saying that this is putting more money into our pockets, we are creating that spirit which must be fatal if it grows to the national feeling and brotherhood.

THE QUESTION OF COMPENSATION.

But it is said, "Oh, no, that is not so, because you give them a compensation? If you charge them more for your flour you pay more for your coal." Now, look at the difficulties you are at once launched into when you take such a position as that. New Brunswick and Prince Edward Island are not coal-producing Provinces at all. This argument of coal compensation, if it applies to any, applies to Nova Scotia only, and leaves the others utterly uncompensated. And what is the case with Nova Scotia? There is not more coal coming up than there was before the duty was imposed. You are, like sensible men, buying coal where you can get it cheapest, and notwithstanding the duty, you can get it cheapest in the States, and so you are paying a large tax on your coal without encouraging the Nova Scotia coal. But they say, "That is no harm, a revenue has to be obtained, and it may as well be raised on coal as on anything else."

Raised by a duty on one of the first necessaries of life! Raised by a tax on that which lights your hearth fires! Raised by a tax on that which feeds your engines and your locomotives, and the motive power which keeps all your industries in motion! Raised by a tax on the people of this Province of Ontario, where the reckless destruction of our forests threatens to make us dependent on coal altogether? Raised, I say, upon that which is of vital consequence now, and must be of still more vital consequence in time to come. But supposing the tax on coal had the effect of sending it into Ontario, who would that trade benefit? Why, a few mine-owners, who reside principally in England, or in other foreign parts, would get a higher price for their coal out of your pockets. I don't know how far that would permanently improve their position. It would depend very largely upon the questions how many mines are capable of being opened, how many would go into the trade, and how soon the prices would come down to a normal condition? But supposing the profits did continue good, I say the few mine-owners who would obtain these profits and the few hands who would be taken from other labour and employed in this, are the sole persons interested in this question, while the prosperity of the Province of Nova Scotia, or the masses of its people would not be improved by this coal trade. The practical effect of the coal tax is that the people of Ontario are contributing a tax on one of the prime necessaries of life and one of the most important raw materials.

AN ADDITIONAL TAX.

The tax has done no good, and the fact is recognized, because we are told that we are going to have the blessing of an additional fifty cents a ton on coal. (Loud applause and laughter.) We believe it is one effect of the tariff, and it will be the carrying out of a promise made to the people of Cape Breton, that if the Government candidate were elected the duty would be added. This is done that you may be compelled to use Nova Scotia coal instead of bringing it from the United States. Some of our people bless the National Policy for the cheapness of coal which has marked this season —(laughter)—but we all know that this is an absurd claim. The cause of it simply is that keen competition among the mine-owners which has brought the price in the United States lower than it has ever been known before, and we in Canada have reaped the benefit of it. Had it not been for the tariff the cost of coal would have been about sixty cents a ton lower, fifty cents being the duty per ton and the cost of enforcing the tariff making up about the difference. (Cheers).

Don't.

Exaggerate.
Point at another.
Betray a confidence.
Wantonly frighten others.
Leave home with unkind words.
Neglect to call upon your friends.
Give a promise that you do not fulfil.
Send a present hoping for one in return.
Speak much of your own performances.
Fail to be punctual at the time appointed.
Make yourself the hero of your own story.
Pick the teeth or clean the nails in company.
Fail to give a polite answer to a civil question.
Question a servant or child about family matters.
Present a gift saying it is of no use to yourself.
Read letters which you may find addressed to others.
Fail, if a gentleman, of being civil and polite to ladies.
Call attention to the features and form of anyone present.
Associate with bad company. Have good company or none.
Refer to a gift you have made, or favor you have rendered.
Look over the shoulder of another who is reading or writing.
Appear to notice a scar, deformity or defect of anyone present.
Punish your child for a fault to which you are addicted yourself.
Answer questions in general company that have been put to others.
When travelling abroad, be over boastful in praise of your own country.
Lend an article you have borrowed unless you have permission to do so.
Attempt to draw the attention of the company constantly upon yourself.
Exhibit anger, impatience or excitement when an accident happens.
Pass between two persons who are talking together, without an apology.
Enter the room noisily; don't fail to shut the door after you, and don't slam it.
Fail to offer the easiest and best seat in the room to an invalid an elderly person or a lady.
Neglect to perform the commission which the friend entrusted to you. You must not forget.
Send your guest, who is accustomed to a warm room, off into a cold, damp spare bed, to sleep.
Enter a room filled with people without a slight bow to the general company when first entering.
Fail to answer an invitation, either personally or by letter, within a week after the invitation is received.
Accept of favors and hospitalities without rendering an exchange of civilities when opportunity offers.
Fail to tell the truth. If truthful you get your reward. You will get your punishment if you deceive.

Hoist by His Own Petard.

Professor Thomas, recently connected with Butler, University, was noted chiefly for his exactness in the use of the vernacular. One night he was awakened at an unseemly hour by the discordant sounds of midnight revelry from the direction of a student's bedroom. Dressing himself hastily, he hurried down the hall, and, after a few knocks on the bolted door to enforce silence, he called out:—

"Hi, you fellows in there! Can't you make less noise?"

"Who's out there?" was the response.

"It's me."

"Who are you?"

"Professor Thomas."

"You're a liar. You can't fool us. Thomas would have said 'it is I'. Come on boys; just once more." And the strains of "Landlord, fill the flowing bowl" resounded through the house till daylight. The affair was never after alluded to by the professor.

Chicago and Northwestern Railroad.

There is possibly no link in the great railway chain, stretching across the American Continent, from the Atlantic coast to the Pacific slope, that forms so material a part of that great continental railroad and is of such importance as the Chicago and Northwestern Railroad, running from the metropolis, Chicago, to the Missouri River at Omaha. In its construction from Chicago westward it was the first to connect with the Union Pacific, virtually making that road practicable, and well deserves the title it won of the "Old Pioneer." It had hard work as it forced its way over the then unsettled but fertile prairies of the States of Illinois and Iowa, but being the shorter or inside route and actually having less gradients or curvatives than its rivals to Council Bluffs, its records show achievements in speed, safety, regularity and reliability unsurpassed, if equalled, by any competing line.

Its improvements in the last two or three years have been simply remarkable, and the changes the most wonderful ever wrought in the East or West, in its roadway, rails and general equipment. It is now strictly first class, the model railroad, gravel ballasted, with steel rails, stone culverts, iron bridges, white oak ties, superior engines, airy and elegant coaches, supplied with the Miller couplings and Westinghouse steam brakes and attachments. In the shape of what have been called "marvels of splendor," the Pullman palace hotel cars, in which the traveller eats and sleeps in the most luxurious apartments, with all the comforts and conveniences of a well stocked home. The matchless tracks and the scientific outfit of this road are triumphs of art in railway construction. But in addition to its excellency of construction, it enjoys the signal advantages of natural location and a management that, from the highest official to the most subordinate employe, most sedulously cares for the convenience and satisfaction of its patrons. During the past year it was without a terminal detention, and such is the increase of its freight and travel that a double track is necessitated. The development of the road is marvelous—iron rails in 1865, steel rails in 1875, and steel rails and a double track in 1879.

The Chicago and Northwestern Railroad operates nearly 2,200 miles of road (the exact figures being 2,158) and reaches nearly every important point in Northern Illinois, Wisconsin, Northern Michigan, Iowa, Minnesota, running many miles into Dakota. It transports millions of passengers annually, and its freight carriage is simply enormous. From Chicago, westward, you can trace its California line, until you touch the Missouri river at Council Bluffs, opposite Omaha, a single run of nearly 500 miles. Northwestward, through Madison, the capital of Wisconsin, and through the pine woods of that State into Minnesota, 400 miles more. Again, looking from Chicago, you can trace a line through Sparta, Wisconsin, La Crosse in the same State, Winona, Owatonna and New Ulm, in Minnesota, and northwestward far into Dakota 625 miles more of road. Again, coming to Chicago, we see two lines running northwardly—one along the lake shore to Milwaukee and thence to Fond du Lac, and the other running more inland through Janesville, Watertown, etc., also to Fond du Lac, thence north through Oshkosh, DePere, Green Bay and Escanaba to Negaunee, Ishpeming and Marquette—another 440 miles of road. Then we have a line from Chicago to Elgin, Rockford and Freeport; another from Clinton, Ia., to Anamosa, in the same State; another from Kenosha, on Lake Michigan, to Rockford, in Northern Illinois.

Passengers to or from California, Colorado, Utah, Nebraska, the Black Hills, Minnesota, Manitoba, the East, West, North or South, should see that they are furnished tickets by this great line. No other road has Pullman or any other form of hotel car.

Considering the vast area of territory tracked by this road, the number of trains daily running, the freight and passenger business it transacts, its main lines and ramifications, its equipment, its celebrated hotel cars, and in short, the character of its entire outfit, the Chicago and Northwestern Railroad eminently deserves the title of one of our grandest trunk lines.—*Daily Graphic, New York, May 21st, 1879.*

ABOUT NAILS.—Many persons are puzzled to understand what the terms "fourpenny," "sixpenny," and tenpenny" means as applied to nails. "Fourpenny" means four pounds to the thousand nails, or "sixpenny" means six pounds to the thousand, and so on. It is an old English term, and means at first "ten pound" nails (the thousand being understood,) but the old English clipped it to "tenpan," and from that it degenerated until "penny" was substituted for "pounds." When a thousand nails weigh less than one pound they are called tacks, brads, etc., and are reckoned by ounces.

PRINCIPLE.—Meeting a newsboy whose face was scarred with scratches, and looked like a map of some great railroad centre, a newspaper reporter asked the youngster what the matter was. "Feller spoke disrespectful to my sister; said he'd bet she was cross eyed, and I sailed in." Is your sister cross-eyed?" asked the reporter. "Hain't got no sister," was the reply. "It was the principle of the thing what I got licked for."

There's a love of beasts and a love of birds,
And a love of the love-god's wiles;
But a love that knocks a pocket-book thin
Is a love of the latest styles.

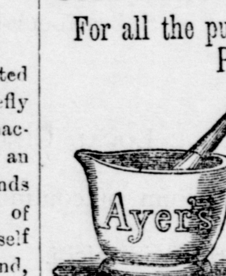
AYER'S CATHARTIC PILLS,
For all the purposes of a Family Physic,



CURING
Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach and Breath, Headache, Erysipelas, Piles, Rheumatism Eruptions & Skin Diseases, Biliousness, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, euralgia, as a Dinner Pill, and Purifying the Blood, are the most congenial purgative yet perfected. Their effects abundantly show how much they excel all other Pills. They are safe and pleasant to take, but powerful to cure. They purge out the foul humors of the blood; they stimulate the sluggish or disordered organs into action; and they impart health and tone to the whole being. They cure not only the every day complaints of every body, but formidable diseases. Most skilful physicians, most eminent clergymen, and our best citizens, send certificates of cures performed, and of great benefits derived from these Pills. They are the safest and best physic for children, because mild as well as effectual. Being sugar coated, they are easy to take; and being purely vegetable, they are entirely harmless.

—PREPARED BY—
Dr. J. C. Ayer & Co.,
LOWELL, MASS.,
Practical and Analytical Chemists.
SOLD BY ALL DRUGGISTS AND DEALERS IN MEDICINE.

DR. CHANNING'S Sarsaparilla
FOR THE BLOOD.

CURES SYPHILIS, — SCROFULA, — SALT-RHEUM, — ALL SKIN-DISEASES, — TUMORS, — ENLARGEMENT OF THE LIVER AND SPLEEN, — RHEUMATIC AFFECTIONS, — DISEASES OF THE KIDNEYS, BLADDER AND URINARY ORGANS, — LEUCORRHŒA, — CATARRH, — AND ALL DISEASES RESULTING FROM A DEPRAVED AND IMPURE CONDITION OF THE BLOOD.

A HIGHLY CONCENTRATED EXTRACT OF RED JAMAICA SARSAPARILLA AND THE DOUBLE IODIDES.

Space forbids the giving more testimony in this place, in favor of this great medicine. Is not one certificate, however, from an eminent and well-known Physician like Dr. Bessey, of Montreal, sufficient to establish its superiority over the numerous mixtures called Blood Purifiers offered by Druggists and others?

T. C. STRATTON, Esq.
Montreal, Feb. 1st. 1877.
I cannot but regard the formula from which Dr. Channing's Sarsaparilla is prepared, as one of the best possible combinations to constitute an effectual remedy, for the cure of *Blood Impurities*. So far as my experience leads me with this remedy, I can testify to its great value in the treatment of all Strumous and Cachectic affections, as Glandular Enlargements, and a wide range of skin affections; as a reliable preparation for general use as a *blood purifier*, I know of none equal to it, combining as it does, all the imputed virtues of Sarsaparilla, and several other valuable remedies, with the extraordinary alterative properties of the "*Double Iodides*," and of none that can be more highly recommended as safe, certain and reliable, and I have every confidence that such a remedy for general use, taking the place of the many worthless nostrums of the day, will be a great boon to suffering humanity, and its use will be attended with the most satisfactory results. It should be invaluable to persons beyond the reach of medical advice, and will, no doubt, become popular with Medical men throughout the country.
Respectfully yours,
W. E. BESSEY, M.D
Beaver Hall Square.

NOTE.—Dr. Channing's Sarsaparilla is put up in large bottles, with the name blown in the Glass, and retails at $1.00 per bottle, or Six Bottles for Five Dollars. Sold by Druggists generally, and most Country Stores. Be sure, and ask for Dr Channing's Sarsaparilla and take no other. If not easily obtained in your locality, address the General Age

TO THE FARMERS OF MIRAMICHI.
We have been Manufacturing
IRON FRAME MOWERS
For the last four years, and are now offering to the farming community this, the
BEST MOWER,
combining greater excellence of mechanical simplicity together with greater durability and entire reliability for all the requirements of the field, than any other Mower extant.—In construction they are similar to the celebrated Walter A. Wood's Iron Frame Mower, and the Richardson Buckeye, both American Machines. Of the former there are over 200,000 in use, and the extraordinary number of 20,000 were manufactured and sold last season, by the Wood Company of United States. We have over 500 of our manufacture now in use, every one of which (no exceptions) stands as a monument of the grand and unprecedented success of home manufacture and our enterprise. A list of our Agents in this section of the Province will be found appended, and farmers are requested to ask information of them relative to our Mowers in use in their respective localities, which will establish beyond doubt their unquestionable superiority over any other mower to be had in our market.
The facility of procuring all parts or pieces within a nominal length of time must show beyond the shadow of a doubt the claims such an enterprise has upon the farmers of the Maritime Provinces.
For the coming harvest of 1877 we will manufacture LARGLY in excess of our numbers of last season, and trust that our growing enterprise may find such inducements held out to it as will be commensurate with its merits.
Let it be remembered we have no hesitation at all times, in entering into a friendly competition in the field with any other machine in our market. WE GUARANTEE OUR MOWERS TO BE INFERIOR TO NONE. Farmers would do well to enquire prices and terms before purchasing elsewhere.
AGENTS:
Campbellton—MALCOM PATTERSON.
Dalhousie—DAVID RITCHIE.
Bathurst—CHARLES ROSS.
Newcastle—STEPHEN Y. MITCHELL.
Doaktown—ROBT. SWIM & SON.
Richibucto—WILLIAM WHETEN.
Buctouche—B. FOLEY.
M'Farlane, Thompson & Anderson.
P. S.—Various patterns of the most improved HORSE RAKES to be had of our Agents, CHEAP.
Fredericton, June 5, 1877.
