Last week was one of the saddest that has, for many years, leen experienced on the Miramichi. We recorded, in last issue, the drowning of the poor lad, Stewart while skating just below Chatham, and about six o'clock on Wednesday afternoon intelligence that Mrs. J. Y. Mersereau was missing spread through the community. She had been skating on the river during the afternoon, attended by her husband, and both had stopped to converse with Mr. John Wyse, who lives opposite Chatham. After a short time Mrs. Mersereau skated off in a establishment under your supervision. down river direction and when Mr. Mersereau had brought his conversation to a close he followed. Enquiring for his wife of a group of skaters, toward whom he thought she had gone, he learned that she had passed on towards the ferry opposite the town. As Mr. M. did not find her in that direction and it was dusk he went homeward, thinking she had preceeded him. She was not there, however, and he thought she had gone to the house of her father, Geo. RICHIBUCTO, N. B. Dec. 16th, 1879. MR. EDITOR:-The many readers of the · ADVANCE" may remember a letter which appeared in your columns some time ago, signed "Inquirer." The letter referred to the manner in which the rails were obtained for the Kent Northern Railway. and told some wholesome truths about a certain transaction which the public christened "The \$1600 affair." Inquirer's letter was evasively answered by a noncommittal squib signed "Not Brown." Some of the parties interested may deem it out of place to renew the controversy at present, but it is as well, perhaps, to keep such matters from drifting out to sea. The writer of this does not oppose the Northern Railway project. Let it be built! But build it honestly. Are you doing this? is the question I ask the "Browns" and the "Not Browns," and if they deem it infra, dig. to answer, I'll answer for them. To make the task easy I'll briefly direct my inquiry and answer to that \$1600, alluded to by "Inquirer's"

Mr. Robideaux, the enterprising proprietor, lost heavily in the October fire, in common with other business men of the town, and though he states that the delay attendant on the re-appear ance of his paper was greater than he expected, still under the circumstances there reason for congratulating him, and we wish him even a greater measure of success in the future than in the past. The business men of Shediac generally have shown recuperative powers that would be creditable to more wealthy localities, and no doubt recognize the importance of having a live medium, such as the Acadien is, for carrying their announcements to the whole people. The importance to the Acadian population of the Province generally, of having a newspaper devoted especially to their interests, can scarcely be over-estimated, and they will no doubt extend a letter, and not alluded to by "Not generous support to Mr. Robideaux .-Moneton Times.

It was equally out of place, also, for Sir. Leonard to make a political reply to a non-political address. Sir. Leonard is now returning to Ottawa and thousands of his old friends, who still have a strong personal regard for him, deeply regret that his late political course has been such that after a long public career and having enjoyed the fullest measure of merely political success, his visit to his old constituency should have awakened no enthusiasm. ----Hanlan And Courtney.

The N. Y. Herald of Friday last says : Hanlan, the champion oarsman, paid a visit to Mr. W. Blaikie's office yesterday afternoon, his object being to obtain a settlement of the controversy in regard to the \$6,000. Some days back he had an interview with Mr. Soule, who said that in the All the Latest and Newest event of Mr. Blaikie being unable to bring about a race he would, if it was proved to him that Hanlan never intended to pay over any part of the prize to Courtney. probably award the prize to the Canadian. On the strength of this Hanlan came to the city and had an interview with Blaikie, the result of which will be found in the appended proposition. While the meeting was in session Blaikie received a telegram from Soule, which ran as follows :-Prospects good for a race; will write you from Rochester.

What this referred to was not known. Mr. Blaikie asked Hanlan if he would be willing to let the race go over until next season. Hanlan said he would not; that he would give Courtney five weeks more, and no longer. The following is the ultimatum signed by Mr. Hanlan :--

OFFICE OF WILLIAM BLAIKIE, NEW YORK, Dec. 11, 1879. I. Edward Hanlan, am willing to row Charles E. Courtney, at any time within five weeks from this date, on the Potomac River, near Washington, D. The importance and value of Johnson's Anodyne Liniment to a family cannot be estimated in dollars and cents. It is both for internal and external use and will prevent and cure diphtheria and all dangerous throat and lung troubles.

A Gentle Hint.

In our style of climate, with its sudden changes of temperature-rain, wind and sunshine often intermingled in a single day,-it is no wonder that our children, riends and relatives are so frequently taken from us by neglected colds, half the deaths resulting directly from this cause. A bottle of Boschee's German Syrup kept about your home for immediate use will prevent serious sickness, a large doctor's bill, and perhaps death, by the use of three or four doses. For curing Consumption, Hemorrhages, Pneumonia, Severe Coughs Croup, or any disease of the Throat or Lungs, its success is simply wonderful, as your druggist will tell you. German Syrup is now sold by, Dr. Pallen, Chatham, E. Lee Street, Newcastle, and by all first class druggists in every town and village on this continent.
