"ANNEXATION" SCHOFIELD is one Mr. Adams' new Commissioners under the Free Grants Act. His settlement is put down as "Lockstead." Mr. Schofield is right in requiring his party to give the public evidence that he is still in full fel lowship with them. A man who does so foolishly bold a thing as Mr. Schofield did to please his political friends ought not to be deserted by them.

PERSONAL :- Wm. Carman, Esq., of Fredericton has been visiting his Miramichi friends this week.

We regret to learn that Charles Bourne, Esq., of Newcastle has been dangerously ill of diphtheria for several days. On Tuesday last his friends had almost given up hopes of his recovery, but we learned by telegraph yesterday afternoon that he was slightly better.

GROUNDED :- It was a part of the contract for the new Northwest bridge that one of the old piers should be removed so as to admit of rafts being run through. Yesterday, when a raft was being run down, it grounded on the pier which has really not been removed at all as required by the specification. Perhaps the gentleman who inspected the work under the Department of Public works will explain who is responsible for the loss the owner of the raft is subjected to.

A FEAT.—Mrs Julia Macfarlane of St. Patrick's, aged 95 years, went into the hav field last week and shook out twelve cocks of hay, equal to about half a ton.

Mr James Doyle of Bartibogue is 96 years old and has handled several tons of hay this season. He was a hale looking old gentleman the other day, when interviewed by the writer, and appeared to be in possession of all the faculties which render life enjoyable to a first class old man. If the Courier hasn't any haymakers over 100 years old, it will have to "sit back" among those whose friends are only comparatively young persons.

ABSURD. - A local cotemporary says :-CHANGE IN THE SCHOOL LAW. - A change in the law affects the powers of trustees in rural sections to levy and collect public school rates. Henceforth such trustees must obtain all monies for public school purposes from their township councils. The law further directs that they make application in writing to the council to raise the required amount at or before the August meeting of the council. Trustees, therefore, should, before the end of this month, estimate the amount of the application to the township council. In December, or as soon as the taxes are collected, the trustees will give an order on the township in favor of their secretarytreasurer for a part or the whole amount raised for them by the towship council. The orders for the disbursements of the school money will, as usual, be given on

their own secretary-treasurer. The above is entirely misleading. No such changes are made in our School law or even contemplated. We have no "townships" in the province, nor do our Municipal councils meet in August. It is not probable that many persons would be misled by the paragraph quoted, but, to a limited extent, even a "ready made" batch of news might cause inconvenience. An item like the above appeared in the Hamilton Times recently, and seems to have been appropriated without credit.

Entertainment of the Dutcher Reformers.

On Tuesday evening the weekly entertainment of the Dutcher Reformers was held in the Temperance Hall. Mr Alexander Cantley, Vice President (in the absence of the President, L. J. Tweedie Esq., who arrived shortly after), occupied the chair at the opening of the meeting, and Mr. A. W. Paterson engaged in prayer. Addresses were delivered by Messrs. W. nary marbles and almost round in shape. Johnston, Chas. Gremley, A. W. Paterson, S. Frost, Alexander Cantley and L. J. Tweedie Esq.; Recitation by Miss Reta Kelly; Solos by Misses A. Shirreff and acres of oats-some 250 bushels. On Capt. Brown. There was Instrumental the next farm—that of Mr. John Kellymusic by Misses A. Shirreff, S. Harris, it destroyed four acres of oats and the G. Goggin and Bertie Haviland and crops on the farms of Messrs. John Mc-Choruses by the Choir. Miss A. Shirreff Rae and John McDonald were also very

the better, and while they could not always believe in newspaper reports, they knew, now, that their founder had fallen. He was sorry this had occurred, but if it was necessary to cut off a limb to save the tree, he thought it should be done, and he would give his vote freely in favour of this course. He thought the Executive should take this matter in hand, and hoped that the officers would co operate with one

another generally. The proceedings were brought to a close by singing the National Anthem.

Sunday's Services.

Monday next. On Sunday next the Bishop will be pre sent at services in St. Mary's and St. Paul's Churches and will administer the rite of Confirmation in the former church The service at St. Paul's Church will be at 4 o'clock.

In St. Mary's Chapel the alterations in the interior, which have been in progress for some weeks past, will be sufficiently completed to admit of the Chancel being used for the first time on Sunday next. For this purpose the building formerly used as a Sunday School has been refitted and Chancel Arch cut through the Eastern wall of the Church. The interior walls of the Chancel are sheathed with black ash boards and battened. A gothic East window has been placed in the Eastern wall of the Chancel, and temporarily filled with common glass. On the South side of the Sanctuary there is a Vestry set off by partitions of black ash boards battened and finished with panellings of stained and oiled pine and a battlemented cornice at the top. On the north side of Sanctuary there is a room for the organ blower and other purposes, finished, on the Chancel side similar to the Vestry-

Between the Nave and Sanctuary, on either side of the Chancel are three seats for the Choir, and on the north side of the Choir stands a fine organ just completed by Hook & Hastings of Boston, and which is to be used for the first time on Sunday

The organ is termed a special No. 5 by ornamented in gold and soft colors, the whole presenting a neat and church-like appearance. The organ is 18 ft. high 7 ft. wide and 6 ft. deep, has two manuals and 15 registers and contains the follow-

It has also a patented device for regulat. ing the keys, giving them more or less dip as the organist may desire, and several other attachments which are very convenient, and render the organist's control of it absolute. The instrument was tested last evening and proved satisfactory in quantity and quality, and the various combinations produced by interchange of register, as well as the fine solo effects, show the builders have spared no pains in the voicing to render this as fine as any of their large instruments in every respect. St. Mary's has needed such an organ for some time to assist in the proper render-

ing of the services of the Church. The Chancel Arch will be finished with heavy mouldings of stained and oiled pine. Temporary arrangements will be made in regard to the Pulpit, Lectern, and Prayerdesk, and other furniture of the Chancel;

also as to the lighting apparatus. The alterations have been carried out according to plans and specifications furnished by the Rector, and the work has been done by Mr. George Arnold. The men have had a rough time of it in camp so far, on account of the disagreeable weather, but as a rule do not complain. The Battery contains forty men who

never drilled before, but notwithstanding the presence of so many recruits, very satisfactory progress is being made in the various movements and exercises. A very great deal of sympathy is manifested for the two officers now lying ill at their homes-Lieut, C. F. Bourne and Lieut, C.

The Battery will be inspected on Thursday for shot and shell practice, at 9 a. m., by Lieut. Col. Price Lewes, Assistant Inspector of Artillery, and Lieut. Col. Maunsell, Dep.-Adj.-Genl. The Battery will also be inspected at 3 p. m., in Field Gun Drill and other movements, by the same officers. The Camp will strike tents on Friday. The citizens of the town kindly offered to entertain the Officers, Non-Commissioned Officers and men of the Battery at a Moonlight Excursion on Thursday evening, but owing to the extreme and unexpected illness of Lieuts. Bourne and Fish, the offer was in the meantime declined.

HANDSOME GIFT. -- The Hon. M. Aadms has kindly contributed the following prizes to be distributed among the various Sub-Divisions of the Newcastle Field Battery of Artillery, for their proficiency in shooting, under the rules of the Dominion Artillery Association, the points subject to the decision of Lieut. The sporting public have been in the qui vive for a few days past over the pending single scull race on Bedford Basin, Halifax between Wallace Ross of St. John and Warren Smith of Halifax. It was to have taken place on Tuesday last, but the water was so ruffled as'to be unfit for the contest. A postponement until between three and six o'clock yesterday afternoon was announced, but another postponement was made the water being stlll rough.

By-Roads in Hardwick.

A correspondent writes complaining alleged incapacity, etc., of the Hardwick By-road Commissioner, Mr. Alex. Cameron. He alleges that no proper notice was given of his first sale of repairs of the Bay du Vin road in 1878; that he made it an aid in canvassing for the Dominion election; that he exhausted the money on one part of the road, only, and that not the part most in need of repairs, save in one bad place. When he went to oversee the work on the road he said the water would lie on the lower end of it and he gave out the job of "taking the water off" promising to see the work paid for. For this he paid \$14, when \$4 was all it was worth. Our correspondent continues, "He came along in the same way this year, without notice, and said this piece with the water on it was not yet done. But he said there was only \$50 for the road this year and he would deduct the \$14 from even that small sum. This he was forbidden to do, but he took the responsibility of witholding the amount. \$6 worth. He said that was all the money

and this, too, in a christian church at the

talking the admission fees for the sight.

Pokemouche, Aug., 16. 1878. To the Editor of the Miramichi Advance. SIR :- There is a characteristic of your paper of which your friends ought to complain-and it is this, that when a matter of public importance is discussed in your columns, you allow all kinds of characters to have their say in reference to it. I have made certain charges against Supervisor Walsh, and before he defends himself in your columns you allow another person to step in and volunteer a defence for him. The good book tells us that there is a curse attached to " a servant of a servant" and if the defender of Mr. Walsh escapes the curse he may consider himself fortunate. There are some natures which seem to thrive on grovelling and "Fair Play" is recognised as one admirably fitted for playing a very inferior part in defending a person, who, while he lacks the facts and manliness with which to defend himself, has the questionable "possession" of a creature who does not scruple to lend himself to any work he may be paid for. An American authority

on fleas has assured us that-Big fleas have little fleas And these have fleas to bite 'em, And these fleas have other fleas And, so, ad infinitum. Now, imagine the Youngs as the big fleas,

have a fair idea of the "happy family" in which Supervisor Walsh is the "dignified creature" who scorns to defend himself, but hires the work out to-ad infinitum. I can remember how a certain fishery Overseer under the old law, used to carry his basket in his boat on Saturday and Sunday nights and receive fish as a sort of toll for not enforcing the law against illegal fishing. Such a person might be expected to defend Supervisor Walsh. It might be that I have received money for the performance of public services. But ! even been challenged as false or "cooked." I have no dispute just now with Mr. Walsh's amanuensis, "Fair Play," but ! ask what has Mr. Walsh done to clear up my charges against him? Did he try to make ont that the \$600 put in his father's name-when the poor old gentleman was on his death bed-for dressing lumber was false? Did he try to make out that Chatham Association. He reported the \$154 charged by his brother for the four spruce poles put on the spans of the Big Bridge near Mr. Rivers' was not correct Did he try to prove that the \$1,000 I said was given to his brother and Alcade Landry for repairing the same span was not correct? or that \$100 was not sufficient to make the whole span new? How can he justify the charge of \$1,154 for this work? Has he or Mr. Walsh shown it is untrue that Michael Landry stated in presence of "Fair Play" that he never received the \$130.00 which the Supervisor puts down against him in his report? This "Fair Play," who acts as Clod while Mr. Walsh plays the Miller represents the latter as having limited means with which to keep the roads up. Look at the reports of Public Works and you will see the "limited" means he had. Look at the Shippegan branch of the great road. Not one cent of money was spent on 7 miles of that road these 8 or 9 years. Just imagine a road through woods in soft springy land going 8 or 9 years without any repairs. This will show how well he has kept the roads in repair. He owned that the bridge which was going to be " a support to the Government" has slewed. hat is one part of my statement that is correct. I suppose it has been wedged or

plastered since the spring, he says it is no fault of the Supervisor or builder. suppose he means to say it is an evidence that the bridge is badly built. He says he has not seen the specification; why not ask Mr. Walsh to show it to him? He might have done so when he was at Mr. Walsh,s house writing his defence of him against my charges which Mr. Wslsh could not "condescend to notice." I have not done with Mr. Walsh yet, as he will

find, and it is possible that he will discover

Mr. "Fair Play's" inability to shield

him from the result of his wrong-doing.
