### -------An Astonishing Fact.

A large proportion of the American people are to-day dying from the effects of Dyspepsia or disordered liver. The result f these diseases upon the masses of intelligent and valuable people is most alarming, making life actually a burden instead of a pleasent existence of enjoyment and usefulness as it ought to be. There is no good reason for this. If you will only throw aside prejudice and skepticism, take the advice of Druggists and your friends, and try one bottle of Green's August Flower, Thursday, Next, 27th inst. your speedy relief is certain. CURLING .- The Chatham Curlers great ly enjoyed an opportunity afforded them last week of extending Curlers' courtesies to John Ruddock, Esq., of the St. John Thistle Club, who happened to be visiting Miramichi. He skipped in several games and won in all of them. We observe that since his return home, in playing off his tie for the Royal Caledonia Club Medal with Mr. James Kennedy, the latter won.

A LECTURE upon India is to be delivered in St. Andrews Church, Chatham, on Thursday evening next, by Rev. Dr. Jardine, as will be seen be announcement elsewhere. The lecturer's residence of some years in the East and his well known ability as a platform speaker, cannot fail to make the occasion a profitable and highly entertaining one to those who can be present. There is to be no admission charge, but a silver collection will be made.

MURDER AT SEA .- On the recent voyage of the barque Winona of Richibucto, from Liverpool to Charleston, S. C., the mate, whose name is not given, was stabbed and killed by a seaman, named Hugh Munroe. This happened on the 29th December. When the vessel arrived at Charleston Newcastle, on Thursday the 6th inst., at 7 Munroe was taken into custody, and on p. m. Allan A. Mrs Perley is so well known very satisfactory. to Miramichi audiences that it is almost unnecessary for us to remind our readers of her great musical attainments. WOLVES ABOUT :-- It will, doubtless, surprise a good many persons to learn that wolves have become quite numerous in portions of our forests. They annoy the lumbermen considerably on the South Branch of Renous River, at Monoghan Brook, where they have been seen in packs of dozens at a time. Daniel McLaughlin, ciety Esq., informs us that they dug up the ground in that vicinity last autumn in such a manner as to cause those who found the | Jan. 15. evidences of their work to wonder what kind of animal had done it, the appearance of the ground being like that dug over by cheep at the same season. Mr. James Kelly, of Renous River, caught a welf by the foot in an iron trap, but it got away leaving a portion of the foot in the iron jaws. The audacity of the animals is in dicated by the fact that the lumbermen's dinners, which the latter take from camp with them when they are working at a distance, have been eaten by wolves within the sound of the owners' axes. REV. MR. MCCULLAGH, lately in charge of the Presbyterian Church at Redbank, is the subject of complimentary reference in the St. Andrews Standard, which refers to the fact that before leaving Miramichi, he was presented with a beautiful wide-margin Bible for manuscript notes. The Standard also says, that at College, rev. gentleman was highly distinguishand gained first prizes and medals in Hebrew, Greek, Mathematics, Elocution, Sacred Rhetoric and Systematic Theology. He has thus enjoyed the full benefit of a thorough scholastic and collegiate training, and his testimonials are of the highest character. His ministrations, during the short time he has been in St. Andrews, have given universal satisfaction, and we trust he may be induced to accept the for the gratitude of all who have at heart to hide their sin. charge which has been vacant since the the best interests of the community. lar ented death of its late Pastor, Rev.
