A FORTUNE: - Our Richibucto correspondent says that Mr. Robert Law son of Rev. James Law, has received intelligence from England that by the death of an uncle he becomes the owner of a large fortune and it is not improbable that Robert will take a trip to the "Old Country" to look after

his property. "SHOO, FLY," was the reply of General Butler to a very pretentions speech against him by "Sunset "Cox of New York in Congress, and the St. John Freeman does not say even that much to the little Her ald, which attacks it venomously on the Vice-Chancellor Blake matter. The Free-

man is right. A BAZAAR will be held in the Masonic Hall Richibucto, on Tuesday 24th inst by the ladies belonging to the Presbyterian body of that town. The object is to raise funds to go towards building a Manse. The affair is in the hands of an energetic committee, and promises to be quite a

TROUTING IN THE NORTH .- We are indebted to friends in Gloucester for some splendid specimens of the trout that now reward the sportsmen in our northern counties. For one of the parcels sent to us, we are indebted to John W. Nicholson, Esq., as the medium of communication. The first are very fine and such a sportsman, who will establish himself at the Wilbur house, Bathurst, may catch in great numbers at adjacent streams. There the angler will escape the fogs of the Bay of Fundy and may possibly forget for a time even the latest developments of the National Policy. He can live very cheaply among a kind and hospitable people and when he wants to drive any where, he can do so at moderate cost. Shortly the salmon fishing will be in full blast, when the fortunate lessees of well selected salmon rivers can enjoy no end of sport. There ought to be a great rush of travel to the Gulf Counties this season. - Tel.

THE NEWCASTLE FIREMEN have decided to have a Pic-nic and Excursion on Domion day, and have engaged the Andover for the purpose. A delegation of the Firewards met with the company last week and promised their aid and co-operation.
The Committee consists of Messrs. Morrisey (the Captaiu), W. T. Miller, W. H. Buck, R. Fairman, J. D. Creighan, J. B. Russel, R. H. Gremley, Wm. Murray, A. W. Perley, P. Wheeler, F. Peters, T. J. M'Ewan, W. Fenn and H. E. Parker. The picnic will be held at Bartibogue. Tickets will be sold at \$1.00 which will admit a lady and gentleman. This Picnic ought to be very largely patronized, for several reasons. One is because it will offer an excellent opportunity for a very pleasant Excursion; another, because the Firemen deserve to be encouraged in their efforts to perfect an already efficient and important organization and another, because those interested have not done all their duty in promoting the company's interests in the past. Chatham will, doubtlees, contribute a good contingent of excursionists on the occasion.

Of the New Albert Lime, advertised in another column, the Times says:-We are pleased to learn that the lime manufactured by the Albert Brick, Lime, and Cement Company, whose enterprise we have previously noted, is rapidly finding its way into different parts of the Provinces and is coming to be largely used not only for building purposes, but also as a fertilizer. Containing 10 per cent. of phosphate, as ascertained and vouched for by undoubted authority, it need only to be tested by agriculturists in order that its great merit may be appreciated. Unquestionably it is destined to be regarded as the very best available fertilizer of its class in these Provinces. For architectural purposes also it ranks very high and has won the approbation of Mr. Stead, the Government architect, and other competent authorities. We are glad to know that the Company are now manufacturing on a large scale and pushing their enterprise with great energy, They must eventually find an extensive market and a profitable business. Yours, [The above Settlement needs better road facilities than it now has or is likely to get for some time. We hear of a number of apportionments of public money to roads which are said to be almost private roads-being made for the sole benefit of individuals-and the list we publish today bears evidence of the fact. It is well that private roads should be made in special cases, when it can be done without detriment to the interests of our new settlements, but those acquainted with the subject will realise that the public have, in some cases, been slighted in order that certain political favorites might be served. The Settlement above referred to has not received the money it ought to have had apportioned to it. The reason may be that it is not a large voting centre. It needs aid in providing school accomodation, also, and should receive a share of the 'poor district" fund. - [ELITOR.]

Council Bluffs Globe, May 16th. United in Marriage.

A pleasant event was witnessed last evening at the residence of Mr. and Mrs. John T. Oliver, on Market Street, this city, the occasion being the marriage of son. The nuptial ceremony was perform. ed by the Rev. Cyrus Hamlin, pastor of bid in my nets, but it was only the inof this city. A large company of invited were all kept back and not offered for friends were present to witness the mar- sale riage obligation, which was solemnized at the hour of 8 o'clock, and to congratulate the contracting parties upon entering the blissful and angelic state of matrimony. The bride was neatly and richly dressed and presented an attractive appearance. The groom exhibited himself to good advantage in a black suit, and his face looked the very picture of happiness and joy. The wedded couple are by no means strangers to the readers of THE GLOBE. GOOSE CREEK, May 29th. To the Editors of the -The Honorable Jack Straw, General Surveyor, arrived at Goose Creek on Monday night, after sustaining the fatigue of two days' travel. His arrival caused no little among us, as was attested by the scattering of the sheep off the highway one of which got jammed in Mr. Brown's bars was released by the distinguished visitor in the most condescending manner. After shaking hands with a Scotchman and partaking of some supper, consisting of ham and eggs and tea, in which was some excellent milk, the bon. gentleman went out to the door and enjoyed a smoke while Mrs. Brown washed the dishes. The hon, gentleman shook hands with three men, and a Scotchman before going to bed and passed a quiet night. Next day he walked two miles, in order to become personally acquainted with the settlers and their requirements and ascertain whether they would vote for him at the next election. He shook hands with several persons during the day. He shook hands with a Scotchman. The Scotchman was hearty and told him he was so pleased with what was done to McDougall that he would vote for him every time and sometimes twice and so would "his uncles and his cousins and his aunts." The hon. gentleman gave the settlers advice about building their houses, telling them that they were in the habit of laying the courses of shingles too far apart on the joists of the gable ends, while they entirely ignored Blackstone's authority in the matter of attachments. He explained that wooden wainscoting fitted snugly in the corners of the ridge-pole and held in place by a screw augur mortgage was the correct for the prevention of drafts and beneficial to the health of the dear children, whom he always loved to kiss. He also suggested that turnips and potatoes would keep much better during winter if the rafters of the cellar floor were covered with paper duly sworn to and executed as required by law in such case made and provided. A Ludlow Seizure

LUDLOW, June 9, 1879. To the Editor of the Miramichi Advance. SIR :- I would like you to give me some information regarding the law relating to seizures under the Fisheries Act. Last of the Miaamichi river, particularly at season Mr. Samuel Freeze, Fishery Overseer, seized a lot of nets, some belonging to me and some to other fishermen, most of them being good, new nets, the others, inferior ones. This spring he advertised their daughter Rose to Mr. A. W. Patter- the nets seized for sale. > Has Mr. Freeze a right to keep these back and not offer them for sale? What They Think at Tabusintac.

TABUSINTAC, June 3rd, 1879. Mr. Editor:—The people in this section of the County are close observers of the adminstration of the Dominion Govern. ment so far as it can be known to them, and they ought to be especially well-inform ed in reference to such adminstration when it affects their own immediate interests. It will not be a matter of surprise, also, if they measure the adminstration in all its departments by those parts of it of which they are the most competent judges-viz.. those affecting their own home affairs. We had been led by some remarks of the ADVANCE, a few months ago, to entertain the hope that the new Minister of Fisheries would act justly in adminstering his office, but are disappointed. We have the proof of his wrong doing here, in Tabusintac, as where in the County.

you must know, and as they have it else. you. It is difficult to understand the Advocate's motives for aiding in and approving of the deliberate injustice that is being worked upon us to please a few disappointed politicans, but it seems that paper use the Quinine Wine prepared by Northmust do as it is directed, even though its editors are sensible of the fact that the people are crying out, shame upon it. I would like to know what man, who independent and wishes to see public affairs managed in a proper way, can respect that paper when it boasts of Peter Mitchell's influence in securing a number of the late dismissals from office ?-dismissals of men far more decent and worthy than himself, and whose chief fau't is that they have displayed an independence which those connected with the Advocate never dared to exercise, however much they might have so desired. These dismissed men were inefficient! So says Mr. has undergone long and close observation, Pope at the bidding of a man who himself has been rejected by this County for inefficiency. Take for instance, William Blake, who is stigmatized by Mr. Pope as inefficient. When Peter Mitchell was neglecting the County's interests for five years, and doing all in his power to harass the fishermen in order that Mr. Smith's administration might be made unpopular. when he was living in Montreal and doing the work of a political hack for the Protectionists, William Blake was endeavoring, in his humble way down here in Northumberland, to do his duty. We had two other officers in this parish, Messrs. Robichaud and Stymiest, who were and are as inefficient as Mr. Mitchell was of late in his sphere, but while they were asleep in their beds, or turning a blind side to violations of the law, Mr. Blake was lying out night after night, especially in the fall of the year, watching the

salmon spawning grounds to protect them from poachers. Now, the Advocate calls upon the people of the County to approve of Mr. Mitchell securing the dismissal of good men while the notoriously inefficient are left to sleep on in official ease. We believe our present Representative spoke the exact truth on the floors of Parliament when he said these officers were an imposition on the public. The Advocate has had a great deal to say about Sir A. J. Smith being a political partizan, but we

do we care who the individuals are who

may hold them, so long as the public are

honestly served in return for their money
