The Montreal Orange Crisis.

A Montreal despatch of Friday last says:—"The principal points of ex-Mayor Brady's defence in suit brought by David Grant, County Master of Orange County, to recover \$10,000 damages on account of alleged false arrest on 12th July last, are as follows:—That whatever more dangerous and subversive of public order; so opposed to true precepts of Christian Charity that it provoked intervention of Imperial Parliament and Provincial Legislatures, which have believed it their duty to enact laws imposing severe penalties against its members; that its doings have produced in the country a spirit of defiance such that public bodies, notably Legislative Council of Ontario, refused to give legal sanction to that said Orange Association...

Detained by His Love of Music.

A SCOTCH DETECTIVE ARRESTS HIS MAN AFTER TWO YEARS' SEARCH AS A WANDERING BAITFISHER. (Bradford Era, May 23.) For nearly two years past a young man wearing the garb of a High and Pimper, has been wandering about in the counties of Pennsylvania, playing his pipes in the streets, attending picnics and dances, and apparently depending on his instrument to make him a living. A few days since he was playing in a mining village on the outskirts of Saratoga, Pa. A crowd had gathered around him, among them a mine labourer named Brady. Suddenly, the pipe ceased music, and stepping from the crowd seized Brady by the shoulder, and announced that the labourer was his prisoner. At the same time he produced papers which he said were his authority for making the arrest. Brady seemed entirely overwhelmed by the arrest, and made no opposition to the authorities, when it was revealed that the pipe was a detective. For two years he had been on the track of his prisoner, who is charged with having murdered a wealthy man named Findlay, in Scotland, in January, 1877. Brady was the employer of Findlay. Early one morning the latter was found dead by the roadside with his skull crushed with a club. Brady had been discharged the morning before for drunkenness. He had been heard to make a threat that he would get even with Findlay. He was nowhere to be found, but was traced to Glasgow, where it was believed he had taken a vessel for America. William Male, detective, was employed by the relatives of the murdered man to come to this country and search for Brady, who it was thought would bring up in the Pennsylvania coal regions, where he had friends working. One of Brady's peculiarities was his love for the bagpipe, so the detective, being a piper, adopted the disguise of a Scotch piper, and played about in the coal towns in the hope of some day attracting the attention of the man he was seeking, he being sure, from information he had received, that Brady really was somewhere in the coal regions. The ruse succeeded after two years of patient tracking, and he is now on his way to Scotland with the alleged murderer.

The Death-rate of

Our country is getting to be lessening annually, the average of life being lengthened every year. This is due to various causes, the most important of which are the result of the most significant origin. At this season of the year especially, a cold is such a common thing that in the hurry of every day life we are apt to overlook the dangers attending it and often find too late, that a fever or lung trouble has already set in. Thousands lose their lives in this manner every winter, while had Beecher's German Syrup been taken, a cure would have resulted, and a large bill from a Doctor been avoided. For all diseases of the Lungs, and for all ailments of the throat, Beecher's German Syrup has proved itself to be the greatest discovery of its kind in medicine. Every Druggist in this country will tell you of its wonderful effect. Over 950,000 bottles sold last year without a single failure known.
