## BACK AGAIN. T. R. COLPITTS, Photograph Artist.

HAVING concluded to permanently locate myself in Chatham, I have purchased the business previously owned and conducted by Mr. W. A. Campbell, NEARLY OPPOSITE THE MASONIC HALL, CHATHAM, N. B. I have commenced business, and after the arriva

of some new instruments, backgrounds, &c., &c., I will endeavor to give the people of Miramichi as Good Photographs, and every style of Pictures that are made at the p esent day, as can be produced in any part of the world.

In my travels the last five years, and especially during my stay in Philadelphia, that city which is looked to for instruction by the millions, particularly those of the New England States and Canada, both in fine arts and in scientific experiments-1 have taken care to note all modern improvements in the art of Photography, and have tained receipts and instructions, some of which have been very expensive. Now, all I ask is the patronage and confidence of the people, and I will give them the benefit of the knowledge I have attained, by producing for them, superior work and at prices to suit the times.

It will be needless to mention the numerous and different styles of pictures here. Any style, from the smallest Tin-type to the largest Portrait finished in oil, India Ink or Water Colors. Al orders I receive for pictures to be enlarged and to be finished in ink, painted in oil or water colors, will be done by one of the very BEST ARTISTS OF PHILADELPHIA, whom I have made arrangements with for that purpose.

My Framing Department being altogether

separated from the Photographic Rooms, yet quite convenient and handy, with a very large and com-modious Show Room, will be unequalled. I have ordered a large lot of Mouldings so as to be able to suit the wants and different tastes of my customers, so every attention will be paid to the Picture Framing Department and after a few more changes in my Studio, 1 shall be fully prepared to give those wishing real nicely finished Photographs, a far better picture than the samples at my door, they being old and having been taken before the

About Roads.

We are glad that a correspondent, whose letter appears in another column, is enabled to speak so favorably of at least one road in the County. There is something radically wrong, however, in connection with the condition of other roads and notably, the Richibucto Road. The general opinion, indeed, seems to be that in the matter of the Richibucto Road, there are two wrongs. The first is that the Public Works Department does not apportion as large a sum to it as it is entitled to, considering the nature of the ground over which it is made, while the money that is apportioned to it is not expended to the best advantage. The present Supervisors are, perhaps, as honest and efficient as their predecessors, but their chief fault is that they have not improved upon the working of a system which may produce good results in the hands of thoroughly competent and unselfish men, but is, unfortunately, calculated to encourage the sacrifice of public to the promotion of individual and private interests.

It is said that the roads of Ontario, which are superior to ours, do not cost any more, because they are maintained by direct taxation upon the people of the Townships through which they pass and who, having immediate control of those entrusted with the expenditure of the money, secure only the best and most competent men. If the money expended in both Great and by-Road services in this Province, (and which in this County amounts to some \$15,000 a year) were placed in the hands of the Municipal Councils, under such a perfected system as the importance of the charge and the immediate influence of local public judgment would soon establish, there can be little doubt that the result would be advantageous to the great fire in St. John, by me, at the corner of King and Germain streets. When you look at those pictures do not make up your mind that you cannot have as good taken, but come right upistairs and if I fail to give you better than those, I will make you a present of a dozen.

The result would be advantageous to the people. Whatever may be the faults of our Municipal Councils it will be conceded that they are generally prudent and accommission to the result would be advantageous to the people. and economical in administering the local revenues. Unlike the Legislature and the Government they are new or-Tobacco! Tobacco!! ganizations, created at a period when practical business ideas had been pretty well established throughout the country. The Government and Legislature are different, being managed and maintained at a maximum of expense, and that by act of Parliament. There is, therefore, naturally, a spirit of extravagance prevading the unwieldy Departments and the unwieldy Legislature at Fredericton. Added to this objectionable feature the Legislature and Government are susceptible of political and party influences which are constantly crying, "give!" The By-Road and Great Road services have, especially since Confederation, been the means of meeting the demands of the smaller, or parish politicians, too many of whom are unfortunately found in every county. These make the injury and neglect of even the roads which they and their neighbors are dependent upon, the price of their support of legislative candidates mean enough to court their suffrages at such a sacrifice of public interests. All this is wrong. It is the element in the question which, honest-intentioned members of the Legislature have attempted to grapple with and have always failed in successfully dealing with. The reason is because the change that is needed would involve

"Papers of the Telegraph and AD-VANCE stamp" are invited by the Sun to "consider carefully" a tissue of untruthfulness from the Mail on the subject of dismissals from office alleged to have been made, for political reasons, by the late Government. The people of Canada do not require information of that kind from either the Sun or Mail. In every section of the country the Andover for service in Miramichi Bay, by us last week, the Moncton Times people are now comparing the "dis- but some of us have seen steamers on says :missal" records of the respective Governments. They will all desire to see a higher sense of justice prevail and the tenure of office by public servants established on a more meritorious basis. If the Sun and Mail stated the truth in reference to the late Government's dismissals-if such dismissals had really been made for political reasons-it the wrongs, also. would be only justice to restore those who had been improperly deposed. The whole fabric woven by those papers, however, is false and rotten. It is a tissue of falsehoods, palpable to the people at large, who know and are impressed by the facts as they exist. The men who, being entrusted with the Government of the country, have degraded it by unjust treatment of faithful servants, will have to be taught that they themselves are answerable to those will give their offices to others. Those, also, who have unworthily taken the offices thus vacated, as the reward of party services, apart altogether from considerations of personal fitness to discharge the duties required by the people, will, in turn, be taught that the way to public preferment is not through the muck and mire of political "dirty work." The Sun and the Mail know that the party whose organs they are, have alone been guilty of introducing the "American system" as applied to public office tenure, and the same papers will as surely learn, when their party chiefs are dismissed from office, that the faithful servants they have discharged will be restored, as a recompense for the injustice that has been

done to them and a warning to those

Our correspondent, "Teazer," sends us a letter much longer than usual this week, but none the less interesting on account. He differs from us, he says, in reference to the Andover's usefulness and believes that "there never was a boat built to suit that part of the County better." He also believes that there was no rowboat on the Miramichi that could have gone up through Bay du Vin Bay on the 4th of July, while the Andover accomplished the feat without a great deal of trouble. A man's 'beliefs" in such matters are generally based on his knowledge, observation and experiences and his capabilities of profiting by them. When "Teazer, therefore, assumes that there never was a boat built better suited to run on the lower Miramichi route than the Andover he shows that his knowledge of steamers is exceedingly limited,-or having a knowledge of them, he is incapable of correctly judging as to what is a suitable boat for the route,-or knowing all about it he is "captured" by the Andover people and is willing to make just such statements as he thinks will please them-they congratulating themselves, meantime, or having so able a champion as the redoubtable "Teazer" of Teazerville on their side. But "Teazer" is well known as a near and dear friend of about the only person whose fishing business is really accommodated by the Andover, and that fact, coupled with his well known lack of knowledge of steamers has made him forget his usual caution and misled him into the "superlatives" with which he bedecks his paragon stern-wheeler.

He appears to forget that Petitions were sent to the members for Northumberland at Fredericton last winter, lished. praying that a subsidy of \$1,500 be granted for a suitable steamer to ply

"Teazer" must be ignorant of these facts or he. surely, would not inferentially claim that the Andover was doing satisfactory standard work. Now, is "Teazer" aware of the fact that the subsidy was granted to the Andover with the understanding that she was to run three times a week to the places named in the petitions for a "suitable" steamer, the names of which places are printed above in italics? If he does know it, can he expect that the public will be satisfied with a service twice a week and with which "the only

If the papers and correspondents who wish to make it appear that the boat is doing good service for the money she receives, publish what they do with the sanction and authority of the steamer's owners, we will overlook their gross and unworthy personalities-which will their case however-and ask them whether they believe we are right or wrong in stating the above facts connected with the petitions sent to Fredericton and asking for the subsidy. Presuming that they will not deny those facts, as we state them, we will ask them why it is-if the Andover is "a suitable steamer" in the sense understood by the petitioners-that-

Respecting the courtesy and obliging disposition of the owners of the Andover towards the Bay du Vin gentleman who patronises their boat as stated by "Teazer," we have only to say that the travelling public, generally, will readily endorse what he says. Who knows but what the next move will be to secure an increase in the Governor-General's already liberal yearly salary of \$50,000? If this sort of thing is to be followed up, and the Dominion asked to foot up occasional £2,000 voyage bills, we would much rather be content with a less important personage than a most honorable Sir John Douglas Sutherland Campbell, K.T.G., G.K.G., C.M.G., Marquis of Lorne, as a Governor General. This is quite certain."

How exceedingly witty and high-toned must be the party who penned the above! It is a commentary on the consistency and taste of the class of newspapers to which the Times belongs that its columns contained much florid and fervent "gush" over the Governor-General when he first arrived. ## Our Fame Abroad.

The chief Committee-man of the Left Centre-Protectionist-Annexation party in Blackville, Mr. John L. Schofield, has gained fame abroad, whatever may be thought of him at home. The Boston Herald thus refers to him in connection with his recent Annexation fiasco | true state of our affairs? If not, he will in the Municipal Council:

"The bold innovator, a descendant of a Loyalist family was censured and came near being expelled. Yet, to the outside observer, he spoke words of truth and We have no desire to see Canada a connection would be more favorable to itself than its present dependency on a lovernment across the Atlantic, seems to need no argument. Canada's loyalty to what in England itself has come to be almost a meaningless tradition, seems like a

The Herald's report of what the "bold innovator" did and said, his pedigree, etc., together with what Mr. Schofield either said or intended to say concerning the blood and sacrifice with which his ancestors sustained British institutions is refreshing-that is when read "on this side of the line." But it is as a "leading politician" of the County that Mr. Schofield shines brightest, and his fame in the land as an americanised friend of the Protectionist party is only equalled by that of Mr. D. W. Clark. who was paid \$25,052 through Mr. Peter Mitchell's influence, in pursuance of as big a fool's bargain as Councillor Schofield would have us make just as we are in a most critical period of our history. The Herald's report of the exploit of "leading politician of the County" man of "recognised ability" and

After reading the above statement, he corcluded as follows: Gentlemen :- If we were incorporated into the great nation to the south of us. we would have a government able and willing to complete all necessary public works, American capital would flow into our country, our latent resources would be developed, and we would soon be on the high road to prosperty. I believe in the "Monroe doctrine" -- America for the Americans-North America as one country. This I believe to be our destiny, and nothing less than the prophetic end of the world in 1881 can prevent it. I believe that the day will come ere long, just as sure as to morrow's sun will rise, when this continent will stand before the world, with all the artificial restrictions which now hamper its trade removed, as one nation, the wealthiest, powerfullest and most progressive in existence.

While we give little heed to anything which the Star may be instructed to pubish in reference to this paper or its editor,

it is, perhaps, necessary for us to say that the above is based on imaginary correspondence, entirely. Personally, the editor the ADVANCE has not addressed the when an acquaintance in Fredericton requested permission to introduce the pertance, assuring the applicant that he was the following grounds:convinced, from the perusal of some of Mr. Collins' writings which appeared in the St. John Freeman, that he was a blackguard Collins had not then attacked the editor of the ADVANCE, but his turn came, as that of every other man before the public has done who has treated him on his merits. Mr. President, and Vice-Presidents of the Young Men's Christian Association of Chatham, N. B., Canada: Dear Brethren:-I cannot well express words the feelings of my heart, after earing the beautiful Christian address

presented by you this evening in behalf of our Association. I wish I were more worthy of the handsome testimony it offers o my usefulness as a Christian Minister, while connected with your Association and in the community where I have labored for nearly three years. You say:-"In Divine truth have been both encouraging from the Province-Adams & Lawlor for and profitable, and helped you to a better understanding of God's word." I consider this one of the greatest elements of success, as well as the richest blessing that can follow the ministrations of a servant of God. And as the fruit of this success you have been pleased to add that, "many of our young people of this community have been induced to trust in the Lord Jesus, and lured to a higher life under your instrumentality." This, more than all cheers me, and rejoices my heart For this has een the great object of my life. This is. of all others, the grandest evidence of being "called of God" and "an able minister of the New Testament." For these many years, as a messenger of Grace, I have been ravelling over this world in search of preious souls, as the most costly jewels that could gather to adorn the crown of my Lord and Master Jesus Christ, and if, during my sojourn in this northern clime I have succeeded in burnishing some and n finding others-toshme forever as bright

indeed accomplished a heavenly work, which far outweighs all the toil and the pains in theseeking. But lastly there is one feature of your address which so perfectly accords and harmonizes with my own sentiments and principles, that I cannot overlook it, and which I believe lies at the foundation of your Society, and is the spirit of that charity which inspires the Word of God. It is this-your address is not denominational-there is no narrow sectarianism about it; your committee, like your Association, represents nearly all the congregations in our community. The sentiment breathes and the motto it bears is, "Grace be unto all them that love our Lord Jesus Christ in sincerity." This is eminently Christian, and in accordance with the Gospel. Brethren, this Christian unity, this holy fellowship, with all who truly love our Lord Jesus Christ, has ever

stars in that crown of his glory-I have

been my constant desire, the prayer of my heart and the effort of my life And now, my brethren, I bid you an affectionate farewell, I heartily thank you your kind words of blessing on my family, and your prayers for my future success. May the God whom I serve bless, keep and prosper you; may the riches of his grace descend on every member of your Association, and may you especially be successful in your growth in grace and in winning souls for our Lord and Saviour Jesus Christ.

# SANFORD'S RADICAL CURE For

CATARRH & Catarrhal Deafness Permanent ly Cured with One Bottle.

Gentlemen,-About two and a half years ago, menced treating my little granddaughter, aged 8 years for Deafness caused by Catarrh, with your RADICAL CURE. She was relieved by a half bottle taken in inhalations. She continued using it until the bottle was finished, and we find that she is permanently cured, as she has no return of the Deafness. She has been deaf from her third or fourth year every time she had a cold, and we feared that it was incurable. I think it was a wonderful cure, and write this that others so afflicted may be helped in the same way.
