The D af Hear.

One of the most remarkable discoveries of modern science is the Dentaphone, by means of which the deaf are made to hear through the teeth. Mr. George Robinson of Chatham, who has recently returned Letson from the Western States, and who, as our readers know, is a very deaf person, called at the close, said that the examination had thank both the audience and the Christian at the ADVANCE offi e the other day bring- not been so lengthy as usual, but he had Brothers, as these occasions only occurred ing the new invention with him, which much pleasure on this, as well as on other once or twice a year, and next in imporenabled him to hear conversation address- occasions in which he had visited the tance to the ministry, came the vocation ed to him in an ordinary tone of voice. On Friday they shown by the register the claimants would have been highly satisfactory to Professor tion has been so successful. At the conclusion of the examination on Friday evening his Lordship Bishop Rogers ad-

dressed the pupils-His Lordship said the hour was very late, and they were no doubt fatigued, and he doubt d not that these present would all have felt fatigued but for the deep interest their eleverness and preficiency had excited. It was at once hor orable to their teachers and themselves, and also to the locality in which it was situated, to have such an educational institution, where youthful citizens could receive the germ of those qualities, the fruits of which would be seen in after days. They had reason to be thankful to their patrons, and also that their building, which has been destroyed by fire, had been re-erected in so short a time, owing to the kindness of neigh . bours and friends. Thanks were due in Lasticular to the Christian Brothers, whose success in educational matters was well known on the Continent of Europe as well as on this Continent. They (the pupils) were, indeed, fortunate in being blessed with such teachers, who intended shortly to celebrate the 200th anniversary of the establishment of their order by John Baptiste De La Salle, all over the world. Morality and religion were the basis of the teaching of the Brothers and this had been illustrated that evening in the various essays, dialogues and songs which had both prose and portry, the Geography of entertained the audience. His Lordship

ment were as to prizes, but he assured "From India," Clifford Wyse, Miss E. them that both they and their teachers were worthy of the warmest sympathy. And he would also express grateful thanks to the audience who had favored then that evening with their presence, and fo the encouragement given to their endeavors to promote useful knowledge G.A. Blair. Esq., in addressing the pupils | combined with morality. He would again MONDAY EVENING.

sisting of Dialogues, Songs and Recita- Singing and Recitations. tions, which had been given during the The proceedings having been brought to

The prizes given by the Trustees of Christian Brothers, and ranking the office by several ot ers, all being perfectly satis the ministry, he dwelt particularly on the | the school necessity of combining religious training with education. On this subject his Lordship spoke at length with much earnestness, shewing the evil effects of a purely secular education, as tending to promote infidelity and thus relax the moral obligaof the people in every day life. He urged this more particularly, in view of the theories put forth by modern scientists, which tended to sap and undermine religion. Hence the importance of a Christian education, and he expressed his thankfulness that there were such institutions as St. Michael's College, and that of St. Louis. In these remarks he had no intention to make invidious comparisons with regard to other schools, but he would

say that the law which had been passed in this Province, the same which had been was exceedingly hurtful in its effects. It been taken out of a certain store in that was far better that the people should re- locality. With a Board of Health in main instupid ignorance, than become scien- | Fredericton and their Secretary residing tific without religion; they had then nothing somewhere in Upper Canada, the ad to make them good, for m taking away the ministration of the Lazaretto cannot fail belief in God, they removed the bond of to be what it is, a public humbug; and yet human society. They, as Catholics, were the Government were kept in power last nevertheless suffering from the school law, session because of their promise to do which he believed had been enacted in a | what would be proposed to them as fair mistaken spirit. He did not blame in- and just! Evidently the "distance of redividuals, but he would hold that science | sidence" of the Lazaretto officials does not without religion was a curse, and that it affect the tender conscience of our Local would prove so. While thankful for rulers now as of old. Well might some of many neighborly acts of kindnessespecially | them say-"the times change and we in the attendance of many there that change with the times!" evening, he could only approve of other schools in proportion as they were religious, and the evils of the contrary course would come though it might not be in our day. As Catholics, a storm had come upon them, they could not tell exactly from where, but it was his duty as captain of the ship to hold the helm. Hence he could not but feel grateful for such an institution as that of the Christian Brothers, who, while adopting all the advanced views of science

in their teaching, still maintained Chris tian schools. He also felt thankful for all the kind sympathy manifested toward him since his arrival in Chatham, and adverted to the great harmony which prevailed amongst the people, notwithstanding their good to those around them, though he did been striving to educate the young correctly, and doubtless their neighbours had been actuated by the same spirit, and he hoped the harmony which had hitherto prevailed would continue. Again commenting upon the importance of religious education, he said, that as a people they ought to have the manliness to despise school books, which had not these charac teristics and pluck them out. And this was the reason that their own community had made such sacrifices as they did; they were carrying a heavy burden in consequence of the wicked legislation which had become law, and he felt the benefits of their school system would not be confined to members of their own congregation,

Mr. Gillespie M. P. P., on, being called upon, briefly expressed his pleasure at being present, and was sure the Students would shew their appreciation of the kindness they had received by increased at-

SCHOOL EXAMINATION. - The Semi-ananal examination of the Bathurst Grammar School took place on Thursday last, and was in every respect highly creditable both to teacher and scholars-classes were examined in Arithmetic, Virgil Geography, English History, Geometry, Chemistry, Greek and Reading in all of which the scholars were subjected to a rigid examination and shewed a high standing proficiency. The English History Virgil and Reading were particularly good. The general deportment of the pupils, and discipline were all that could he desired. The following are a few of the general average marks as copied from the Merit Book :-- J. A. Donaldson, 1135; Lizzie Miller, 1132; Henry Hornibrook, 1086; Fred. Hornibrook, 1077; Annie Buttimer, 1072; Annie Smith, 1066: Lizzie Smith, 1058; Blossie Harris, 1047; John Parrot, 1029; Fannie Smith, 1017; Alfred Buttimer, 1016; Maximum 1140. It might be here stated, this is the only school in the County which has a Merit Book, and it would be well were they more generally adopted. It tends to create emulation among the scholars, and those teachers who now have them say they would not have a school without one. This school has for the post four years been in charge of Mr. Geo. W. Mersereau, of Northumberland Co., who, by his untiring zeal and the lively interest which he takes in his scholars and his work, has brought the school to the high standing in which it now is. There was a large number of visitors present who all expressed themselves highly satisfied and congratulated Mr. Mersereau on the success which attended his labours. Mr. Sivewright, Secy. to Trustees, made a few remarks at the close in which he complimented the pupils upon the marked progress they had made since their last examination, and urged them to make even greater efforts and improve the grand opportunities they now enjoyed. He also congratulated Mr. Mersereau upon

JUVENILE CONCERT :- The children of the Presbyterian Sunday School gave a Dime Concert on Saturday evening last. The programme was a very good one and was well carried out. The proceeds amounting to about \$10, were applied to the Library Fund.

al meeting was held in the Court House yesterday afternoon for the purpose of or anizing an Agricultural Society. There formerly had been a Society here, but through the inactivity of its officers and members, it was allowed to die a natural death. The meeting was called to order by F. J. McManus M. P. P. and K. F. Burns was chosen chairman, Mr. Sivewright Secretary. M. Burns explained the object of the meeting. The Society is to be called the "Pathurst and Beresford Agricultural Society." K. F. Burns was chosen President, Sam. Melancon, Vice Treasurer, and a committee of management was appointed, also a subcommittee for the purpose of drafting Bye-laws. A subscription list was opened and \$73 subscribed, which amount it is hoped, will be increased to \$120. Mr. Burns made a few very wholesome remarks The following recitations were given by at the close, urging the farmers to go into stock raising, also sugar beet, flax, and potatoes for the manufacture of starch. He recommended the re-opening of the cheese factory near town, and also the building of a starch factory. He tried to impress upon the farmers the advisability of withdrawing the money they had locked up in the Savings Bank, and investing it in their farms which would return them a

ance about it, and there is every prospect of the Society flourishing, and no doubt it will prove a great advantage to the

National Anthem. THE CONVENT SCHOOL. situated in the Hotel Dieu, took place or last Thursday afternoon at 2 o'clock. This School is divided into two Departments, Primary and advanced, the former being in charge of Sister Carter assisted by Miss. M. Dunn, and the latter of Miss Quinan, assisted by Sister Carter. In the Pri-

Advanced Department there are also 60 pupils on the roll, the average attendance were also present; together with a number

of parents and friends of the children. The exercises of the different classes consisted of Reading, Spelling, British and Canadian History, Arithmetic, Grammar and Analysis, Algebra, Geometry and Geography. The proceedings were varied, as usual, by singing and recitations. Some excellent maps were shewn by the oupils, as well as specimens of Book-keeped crayon drawings. Brother Louis and young ladies of the advanced class in Algebra and Geometry, expressed them-
