

Calendar for February 1880. Days of the week, dates, and phases of the moon.

Miramichi and the North Shore, etc.

VALENTINE'S DAY comes on Saturday next. THE SMELT FISHERY has been good this week. ANTI-WEDNESDAY services were held in the Pro-Cathedral and St. Mary's Church, Chatham, yesterday.

RECREATION COUNTY COUNCIL report, which we intended to publish this week, is not sufficiently full to be interesting at this late date, and we have, therefore, concluded to hold it over altogether.

LECTURE.—The Rev. J. A. F. McEbin will lecture in the Methodist Church, Chatham, this (Thursday) evening, subject, "The Cross, and how to become a Hero." Lecture to begin at 8 o'clock. A SILVER COLLECTION will be taken on Friday.

OUR CONGRATULATIONS are extended to a popular M. P. P., who resides not a great way from Douglastown, on his domestic prosperity. The happy event, however, excites a shade of regret, inasmuch as it is likely to prevent one of the most charming members of the social circle of Fredericton, last winter, from being in the capital during the approaching session of the Legislature.—Telegraph.

TWO GENTLEMEN in Chatham are said to have had offers of the Lieut. Governorship and both declined, the one because he thought he would not be able to agree, with his advisers, on his experiences as an M. P. P., and the other because he preferred "peace and quietness," which he says, he never enjoyed when in Fredericton. Besides, he has no fault to find with either Mackenzie or Sir John, both of whom suitably recognized the efficiency with which he discharged his duty as a gas inspector.

DRAMATIC.—The entertainment given on Monday evening last by the Amateurs of St. Michael's R. C. T. A. Society, in St. Patrick's Hall, Chatham, was very well attended. The performers appeared to have pleased the audience in many parts of the programme, but there was an evident lack of preparation by some of the characters. This, added to the fact that the light was very poor, indeed, and the stage altogether too circumscribed for the pieces presented, tended very much to lessen the effect of several well sustained characters. The pantomime was very well put on, and the several characters, with the exception of one or two slips of memory—did the business allotted to them creditably.

QUARTERLY MEETING OF THE CHATHAM TEMPERANCE REFORMERS. On Tuesday evening the quarterly meeting of the Chatham Temperance Reformers was held in the Temperance Hall, which was well filled on the occasion. The chair was occupied by the President, Mr. A. W. Paterson, and the meeting was opened by Rev. Mr. Teed. Address was delivered by the Rev. Mr. Teed, Professor Youmans, and the President, Mr. A. W. Paterson, and a reading by John Shirreff, Esq. Solos were sung by Miss Maggie Johnston, Miss Templeton, and Capt. Brown. Miss Haviland gave several instrumental pieces on the organ, and choruses were sung by the choir. Mrs. J. R. Goggin presided at the piano.

THE PRESIDENT said that this being the quarterly meeting, he would now read the report of the Treasurer, Mr. Wm. Johnston. TREASURER'S REPORT. The Treasurer's report stated that the expenses of the past quarter had been comparatively small, amounting to only \$15.90, leaving a balance in the hands of the treasurer of \$111.69, and showed that every exertion had been made to reduce the running expenses of the Society. In conclusion, the report referred to the proposal of the Executive committee to postpone the fortnightly meetings for a month, and the subsequent decision at a public meeting to continue them weekly with an addition of one cent, showing that the result had been most satisfactory.

THE FINANCIAL STATEMENT showed that the receipts during the past quarter were \$21.85, and expenditures \$15.90, leaving a balance in the Treasurer's hands of \$111.69, a portion of the balance in the Treasurer's hands from the previous quarter. John Shirreff, Esq., and Mr. Wm. Anderson were appointed auditors to examine the Treasurer's accounts, which they reported correct, upon which the report was received and adopted. The Secretary then read his report, of which the following is an abstract: SECRETARY'S REPORT. The Secretary's report commenced by referring to the meeting held the 21st Oct., when a resolution was passed calling a temperance mass meeting for the evening of Nov. 6th for the repledging of the members of the Society, which took place in St. Andrew's Church, when the books were opened and signed by 62 persons. With subsequent additions the Society now has 123 members, of whom 107 were old, 5 former members who had resigned, and 11 new members. The number of old members who signed again was smaller than was anticipated. This was owing mainly to indifference on the part of the members holding office in the Society, had neglected to repledge themselves. During the past quarter no signatures outside the hall had been reported by the visiting committee. The Secretary suggested the advisability of more effort in this connection. During the first months of the quarter, the attendance was very small, but at the last two or three meetings had improved, owing to the efforts of the Ladies' and Gentlemen's Executive Committees.

THE STATE OF THINGS it was hoped, would continue, and that the next quarter would be much more prosperous than the preceding one. OFFICE BARRERS. The President then read the following list of officers for the ensuing quarter, nominated by the committee appointed for that purpose at the previous meeting.

President.—D. Davidson, Esq. Vice-Pres.—J. D. Brown, John Shirreff, and J. R. Goggin, Esq. Treasurer.—Mr. Wm. Johnston. Secretary.—Mr. D. P. McLachlan. Executive Committee.—A. W. Paterson, William Johnston, D. P. McLachlan, Herbert Pallen, S. B. Paterson and A. D. Shirreff. Ladies' Executive Committee.—Mrs. Herbert Pallen, Miss C. Johnston, Mrs. H. R. Goggin, Misses Mary McLachlan, Mary Anderson, Maggie Johnston and Mary Johnston. Executive Messrs.—Messrs. Wm. Anderson, R. Gordon, Alex. Cantley. Gentlemen's Visiting Committee.—The President and Vice-Presidents.

THE NOMINATION of the officers was confirmed and their installation proceeded with, the ex-president addressing them upon their duties. John Shirreff, Esq., was now called to the chair and introduced Professor Youmans, who in a short address declared his adherence to the temperance cause and his request that he might be allowed to sign the pledge, as he was in the habit of doing in places which he visited. He then sang a "Sleigh Song" accompanying himself on the violin, and afterwards "The Fine Old Irish Gentleman," accompanying himself on the organ, both of which were warmly received.

THE REV. MR. TEED announced there would be a lecture delivered by the Rev. Mr. McEbin in the Methodist Church on Thursday evening. Professor Youmans stated he intended to remain some time in Chatham, and on Friday evening would deliver a lecture on Vocal Music in the Masonic Hall, in which those present would be taught distinct articulation, the admission being 5 cts. It was announced that a meeting of the Gentlemen's Executive Committee would be held the following evening at 8 o'clock at the office of Adam Shirreff, Esq. The proceedings then concluded with the National Anthem.

RURAL DEANERY MEETING. The clergy of the Rural Deanery of Chatham, met at Newcastle on Tuesday and Wednesday the 3rd and 4th inst. Owing to the severe storm on Tuesday, a contemplated meeting in the Sunday School House, at which addresses were to have been delivered on various subjects by the clergy, was not held. On Wednesday morning a service was held in St. Andrew's Church at which the following clergymen were present:—Rev. W. H. Street of Bathurst; Rev. J. H. S. Sweet of Dalhousie; Rev. D. Fitzgibbon, D. D. of Chatham; Rev. A. P. Hiltz, of Darby; Rev. H. H. Barber of Newcastle and Rev. E. P. Flowering of Baie des Vents. The Deanery sermon was preached by the Rev. W. H. Street.

THE DEANERY Chapter met in the afternoon at the Rectory, for reading of the Scriptures and transaction of business. In the evening a service was held in St. Andrew's, and a sermon was delivered by the Rev. J. H. S. Sweet. This service was highly enjoyable and very profitable to all present. The clergy returned to their parishes on Thursday. The next meeting of the Deanery will (D. V.) be at Baie des Vents, in June next.

THE LATE THOMAS HARVEY. EXCHANGE BUILDING, Denver, Colorado, Jan. 30th 1880. At a meeting held by the undersigned this day the following resolutions were unanimously adopted: Whereas—it has pleased Almighty God to remove from amongst us our much beloved friend and companion, the late Thomas Harvey, deceased. Therefore Resolved.—That we most earnestly sympathize with his father and relatives in their loss of their dear and affectionate son and that the God of all consolation may comfort them in their sad bereavement.

RESOLUTIONS. Resolved, that a eulogizing resolution be forwarded to the father of the deceased and also to the Miramichi Advance and Union Advocate for publication. Geo. M. Ewen, Geo. Robinson, Hiram J. Frost, George H. Fieger, Donald R. McDonald, Geo. McLean, William Scott, Samuel Goggin, John Simpson, Wm. Simpson, James Creighton, Hugh H. Creighton, John Murphy, Harvey Thomson, Wm. McDonald.

DECEASED. A young man named Ahern was killed on the Intercolonial last Sunday morning by a freight train near Norton. The pieces of the body were gathered up, inspected by a coroner's jury (which was met on Monday to hear witnesses) and forwarded to Sussex. Another coroner interfered at that place and "he too" was determined to hold an inquest. Fortunately, he became convinced that the inquest then pending had precedence of anything he could get up in that line, though he said it wasn't the thing for the job to be taken out of his hands by a Coroner who worked on Sunday. The incident has a ghastly humor about it.

CROWNER'S QUEST LAW. An intoxicated man named Ahern was killed on the Intercolonial last Sunday morning by a freight train near Norton. The pieces of the body were gathered up, inspected by a coroner's jury (which was met on Monday to hear witnesses) and forwarded to Sussex. Another coroner interfered at that place and "he too" was determined to hold an inquest. Fortunately, he became convinced that the inquest then pending had precedence of anything he could get up in that line, though he said it wasn't the thing for the job to be taken out of his hands by a Coroner who worked on Sunday. THE PRINCESS' ARRIVAL AT OTTAWA. The Governor General and the Princess Louise arrived at Ottawa on Friday of last week at four o'clock p.m., and were received with military honors. The Premier and Privy Council and the Mayor and Corporation were present. Mayor Mackintosh presented addresses of welcome, and the Marquis replied on behalf of the Princess Louise. He said: "The Princess desires me to thank you much for the kind greeting contained in the address of welcome you have read. As an undoubtedly you know, it is a saying that the Princess of Wales, before she came to Canada, visited London before she came to Canada. The Princess has proved her title to the name of Canadian, because she has visited London since she became a resident of this Dominion. She desires me to thank you sincerely for having come to meet her on her return to that home in which she has already passed so many happy hours."

THE PRESS AND THE N. P.—The Sackville N. B. Post (Tory) says:—"The low price of paper the past three or four years have been a great assistance to the printing and newspaper business, but for which many a business that is now flourishing would have gone to the wall. The price of paper is now at a low ebb. The rise is general. In Chicago the advance within three months has been at least 50 per cent. In Canada within a month, the advance has been 20 per cent. The increased price is yet expected to be more than ever expected to struggle with cheap country weeklies to keep afloat."

A SAMPLE INVENTION. The St. John Telegraph publishes most extraordinary statements respecting politics, social and domestic events:—A Christianizing dinner was lately given in honor of a babe who had on that day received the sacrament of baptism. The more cards were made in the likeness of a baptismal font, which was an elaborate piece of sculpture. The cards alone cost \$25 apiece, and the guests took them home after dinner. This money would have made a good investment if banked in the name of the child; and it is just these children who are so fortunate at their birth that usually fall a paper's grave at death.

FARMERS IN COUNCIL. A number of gentlemen, representatives of the Farmers' Association in several counties of the Province, met at Sussex this week and talked in a very business, practical way about the best modes of agriculture. Several said they had tried the sugar beet, and nearly all concluded that it would not pay if sold at \$4 or \$5 a ton, or even at \$6. It requires more care than mangolds, and the yield is much smaller. Some said that when fed to much cows, it causes a great flow of milk, and that it is very useful for fattening. Some talked of having obtained 18 tons to the acre. None of those who spoke

into account the value of what is left after the sugar has been extracted. Few appear to be as hopeful as we expected they would be of making the raising and fattening of cattle for the British market, a large and profitable business. Some thought it would pay better to raise and fatten sheep. It was stated that 700,000 bushels of wheat were raised in the Province last year, but this is little more than conjecture. It was the general opinion that a larger quantity will be raised this year, as the yield last season was so satisfactory. The Secretary could not resist the temptation of airing his professional notions in his report. He probably, is a professional because he is so great a partisan. The N. P. has done nothing for the farmers but to impose burdens so heavy as to be almost intolerable.—Freeman, 7th.

DOMINION REVENUE. Within the six months commencing January 1st the revenue must exceed the total of the very large sums received from the corresponding six months of 1879 by at least \$1,200,000, if Sir S. L. Tilley's calculations and estimates are to prove correct, and we are not to face a serious deficit, with our powers of raising money by taxation well exhausted, and our liabilities and debt increasing with fearful rapidity. In the Maritime Provinces the first month of these six months yielded no increase. At St. John the Customs receipts were as follows:— 1879. Customs \$51,469.26 \$36,944.46 Sick Mariners' Fund 175.94 72.34 Miscellaneous 500.78 33.27 Totals \$52,145.98 \$37,050.07

DECREASE IN JAN. 1880.—\$4,854.09 Taking the above of the duty into account, this shows that the value of the imports was only about 60 per cent. of what it was in January, 1879, notwithstanding the great advance in prices. At Halifax there was an increase of \$2,106 in Inland Revenue, but a decrease in Customs:— 1879. 1880. Customs \$47,196.88 \$45,286.80 Sick Mariners' Fund 40.00 35.00 Signal Tax 40.00 35.00 Other Revenue — 158.85 216.40 Totals \$47,686.88 \$45,656.65 Decrease \$1,653.53.—Freeman.

VERY SERIOUS COASTING ACCIDENT. The Calais, Me., correspondent of the St. Croix Courier sends the following to that paper:—"A sad coasting accident occurred at the Ford's School House Hill, Red Beach, on Friday last, by which five boys, the entire occupants of the sled, were seriously injured. One had, 14 years of age, named Blythe, was thrown against one of the iron posts of the bridge, into which the sled ran, with such force as to divide the flesh of the inner upper part of the leg near the thigh, clear to the bone, breaking the same; and when the boy was rescued, his leg was completely wound around the post. Three of the boys were badly injured in the groin, head and various parts of the body, while the fifth received a severe knee wound. As soon as the accident occurred three physicians were immediately summoned from Calais and the wounded boys were cared for. It became necessary to amputate the Blythe boy's leg to save his life, and then doubts were expressed as to his recovery, but we understand he is now comfortable. It is estimated that at the time of the accident the sled was going at the rate of 60 miles an hour. [The speed is entirely over-estimated. Half that speed would be sufficient to cause the injuries reported to have been sustained. ED. ADVANCE.]

Sample Bibles 10 cts. Regular size 75 cts. Sold by Dr. Pallen, Chatham, and all other first class druggists.

THE SUPPLY DEPOT of the entire bodily economy is the stomach. There it is that the manufacture of blood goes on, and upon activity of the great digestive organs depends in a great measure the well-being of the system. If its functions are interrupted by dyspepsia, biliousness and constipation, the impure blood becomes meagre in quantity and poor in quality, the appetite impaired, nervous symptoms manifest themselves and there is a loss of flesh and vigor. As a means of stimulating and invigorating the stomach and remedying the above deplorable state of things, Northrop & Lyman's Quinine Wine may be confidently relied upon by debilitated, dyspeptic, and nervous sufferers. Not only is it a tonic of great and certain merit, but a most agreeable one. Its flavor is unexceptionable and it contains no ingredients that can prove harmful to any one using it. It proves most efficacious in remedying weakness and nervousness when the digestive organs are strictly adhered to. As an anti-periodic, it possesses great excellence. Chills and fevers, bilious remittent fever, and the minor malarial complaints, demand its use, and in all these cases well calculated to put the remedial value of any remedy to a crucial test. Refreshing sleep, increased muscular force, a gain in flesh and mental cheerfulness are among the blessings which it confers. Intending purchasers should not forget to ask for the Quinine Wine, prepared by Northrop & Lyman, Toronto. Sold by all Druggists.

Good Advice. Now is the time of year for Pneumonia. Lung Fever, &c. Every family should have a bottle of FROESCHER'S GUMMEX SYRUP. Don't allow for one moment that cough to take hold of your child, your family or yourself. Consumption, Asthma, Pneumonia, Croup, Hemorrhages, and other ailments of the Throat, Lungs, and Air Passages are cured by thousands of these delectable diseases, yet it is much better to have it at hand when three such ailments are met, having so much efficacy, they are rarely afflicted with diseases of the bowels. But they have weak lungs, and the reason why so many of the most interesting among them die when brought to Europe is the too sudden change of air, diet, and water.

General Business. Commercial House, CHATHAM. THE NEW STOCK OF STAPLE AND FANCY DRY GOODS Unsurpassed for Variety and cheapness by any in the trade. A call will convince the closest buyer that bargains are being offered for the cash. W. B. HOWARD. GOLDEN BALL, BOOT & SHOE STORE AND Furniture Emporium. We are in receipt of full lines of all kinds of WINTER GOODS, comprising: BOOTS, SHOES, Rubbers, Overshoes, &c., &c. and as we make it a point to buy from the best houses only, our stock can be relied on for durability, and interest in sums owing, and not paid. The parties who have to pay this amount are those who have bought for cash, which is manifestly unfair, by adding this plan we will be enabled to sell, at least, 10 per cent. lower than before, thus benefiting our customers to that amount. It is unfortunate, however, in these poor times, that goods have taken such a tremendous rise in price. All rubber goods have advanced twenty per cent. and leather goods more per cent., but notwithstanding this, with our improved method, we will be able to sell NEARLY ALL our stock at Old Prices and some at lower. We may also state that anything we may have occasion to book, will be changed 5 per cent. over our selling price, unless to those who have extra cash.
