WILLIAM MURRAY,

Argyle House TO THE Ilion, N. Y. FARMERS OF MIRAMICHI. We have been Manufacturing

> IRON FRAME MOWERS For the last four years, and are now offering to the farming community this, the BEST MOWER combining greater excellence of mechanical simplicity together with greater durability and entire reliability for all the requirements of the field, than any other Mower extant. - In construction they are similar to the celebrated Walter A. Wood's Iron Frame Mower, and the Richardson Buckeye, both

> American Machines. Of the former there are over 200,000 in use, and the extraordinary number of 20,000 were manufactured and sold last season, by the Wood Company of United States. We have over 500 of our manufacture now in use, every one of which (no exceptions) stands as a monument of the grand and unprecedented success of home manufacture and our enterprise. A list of our Agents in this section of the Province will be found appended, and farmers are requested to ask information of them relative to our Mowers in use in respective localities, which will establish beyond doubt their anquestionable superiority over any other mower to be had in our market. The facility of procuring all parts or pieces within a nominal length of time must show beyond the shadow of a doubt the claims such an enterprise has upon the farmers of the Maritime Provinces. For the coming harvest of 1877 we will manu-facture LARGLY in excess of our numbers of last season, and trust that our growing enterprise may find such inducements held out

all times, in entering into a friendly competition in the field with any other machine in our market. WEGUARANTEE OUR MOWERS TO BE INFE-RIOR TO NONE. Farmers would do well to enquire prices and terms before purchasing else-AGENTS: Campbellton-MALCOM PATTERSON. Dalhovsie-DAVID RITCHIE. Bathurst-Charles Ross.
