MISTAKES. - People sometimes have oceasion to find fault with and criticise a newspaper, on account of mistakes of different kinds that occur in an issue. Were they "at the helm," so to speak, of newspaper affairs, they would probably speak more charitably. The wonder is that mis-

HOME NEWS FROM ABROAD :- The St John Globe says: The Baptists of Chatham are contemplating building a new place of worship. This is quite a new thing in the way of proposed church building. As there is neither clergyman nor congregation of the Baptist persuasion in Chatham, it seems probable that some idle St. John architect has been imposing on

the Globe.

A NEW TENT, capable of accommodating six persons, weighing only 16 pounds and of the bulk of an ordinary-sized valise, has been procured by the proprietor of the Miramichi Bookstore who offers it to fish ing parties who may desire to hire it by the day. It is made from a pattern designed by himself and highly approved by one of the leading tent and awning manufacturing firms of Canada, and though square, with 3ft. walls, is pitched with only one pole, that may be cut with a large knife or batchet. The material is American twilled boatsail drill that will

resist all weathers. THE RIGHT KIND OF GIRL :-- The Cincinnati Gazette tells of a girl who bought herself a summer outfit for \$10. It consisted of two 6-cent calicoes, an unbleached cotton gown trimmed with handkerchiefs, a cheese-cloth overdress, a rough blue flannel, a white Swiss gown and a hat. The trimmings were lace from her old gowns, and the silesia, tape, braid, cambric, E. A. Strang, ewing silk, thread, whalebones and buttons were "in the house." We now expect the Miramichi girls to come out dressed in cheap calicoes with cheese-cloth overskirts cut on the bias, ruchings of blue

put on promiscuously to match. OBITUARY:—The Hamilton Spectator of May the 11 contains the following .- "We P. H. Anslow, regret to chronicle the death of an old and respected citizen, Mr. Wm. Roddick, Mrs. J. Woods, who died on Sunday the 9th inst. at 7.30 Mrs. McCartie, senr. Wm. Anderson, a. m. at his late residence, 230 James street north. He then removed to Hamilton with his wife and three children, where he resided up to the time of his death. He leaves a widow and three Mrs. Walls, married daughters to mourn the loss of an

affectionate husband and a kind father." THE LINDLEY OPERA COMPANY arrived in Chatham yesterday and made their first appearance in Masonic Hall last evening. The following papers have been placed in our hands for publication :-

To R. R. CALL, Esq. : We, the undersigned citizens of Chatham, beg respectfully to lay before you the following representation regarding the running of your steamers between Newcastle and Chatham on the Lord's Day. We have learned with deep regret, that it is your intention to do so, believing as we do, that it will lead to the very serious demoralization of the community.

The great ends for which the Sabbath was instituted are to provide a day for needful rest, and chiefly for the cultivation of the religious life of mankind. These ends, we believe, will be largely defeated by the running of steamers on the Sabbath, there being already sufficient facilities for crossing the river for attendance on religious services. therefore, earnestly request that you will re-consider your determination to run

these steamers, and thereby obviate the very serious evils which we forsee will certainly follow from this interference with the sanctity of the Sabbath day, We remain very faithfully yours, Mrs. W. Maclean, J. A. F. McBain. Robert Jardine, Mrs. McKinnon,

CAPT. Tower has been found guilty in the ship scuttling case in St. John. THE GASPEDEAUX SEASON is drawing to close, and the prospects are now that the

The present week, which, it was expected would have proved the best of the season, The following vessels are reported for Miramichi has turned out to be very slim, on account of the backward weather. Although some good fishing will, no doubt, be obtained, yet, still a large season's catch is not expected .-- Sun.

receive a paper for which you have not subscribed, do not take it for granted that it is paid for by some friend, unless you have good reason to think so. If you do not wish to become responsible for payment, just leave it in the Post Office. telling the postmaster that you refuse to receive it. It is then his duty to notify the publisher not to send it to your ad dress. If you have been taking a paper and wish to discontinue it, do not take it to the postmaster and tell him to send it back; in nine cases out of ten you will fail to stop it in this way. Do not attempt to return it yourself, and write on the wrapper to discontinue; this is against the law, and lays you open to a fine. Refore your subscription expires, send to the editor a postal card, saying your subscription expires on such a date; please discontinue at that time. Sign your name, also the Post Office address to which your paper has been going. If the paper has been sent two weeks or more over the time for which it was paid, don't send a postal card; it will do no good; rather write a letter and inclose what is due for arrearages, always allowing that one number will be sent before the letter reaches the publisher and his list is corrected. By observing these simple rules, your requests will al-

ways be promptly attended to. Bathurst Notes.

May 18th 1880. SCHOOL INSPECTION: - Inspector Valentine A. Landry has been in town during the past week inspecting the Schools. He spent upwards of a day in the Grammar School and expressed himself as highly satisfied with the character of the work done. He also expressed great dissatisfaction with the schoolroom; apparatus and furniture, and we think not without cause. This is, probably, the only shiretown in New Brunswick which has not a proper school house with suitable apparatus and furniture. Why this should be so we cannot tell. One thing is certain; it is not because we are insufficiently taxed.

SPORTS:--Base Ball appears to have come out as the ruling game here this season. Two clubs have been formed, "The Grammar School B. B. Club" organized by the boys of the Grammar School and the "Evening Star B. B. Club" composed of young men of the town. The former have received a challenge from the latter to play a game on the Queen's Birth- | 5th April. day which they have accepted.

THE LUMBER :- Notwithstanding the heavy rains of last week, the streams are now lower than ever owing, no doubt, to the cold weather we have had since. A number of Messrs Temple & Cos. drives are out, and the great body of the rest is in the main rivers, so that they anticipate little further trouble. Trouble is being experienced with the drives on the Pabinean, Little River and Bass River all of which are said to be hopeless. The Caraquet drive has been out some time.

A Valuable Spring-Where is it? To the Editor of the Miramichi Advance. MR. EDITOR :- Cooney, in his history of New Brunswick, referring to our mineral resources, mentions a spring at Black Brook to corroborate the likelihood of there being some valuable ores in the County. Not, however, to speak of the knowledge this author possessed of the geological formation of the North Shore. if this spring can be found out and the salutary effects stated to be produced by drinking it are trustworthy, the owner would wake up some fine morning and find himself famous. Our eyes would then, likely, be relieved from the post bills of Durkee and Holman. Caledonia, Saratoga, and German waters might not be found with us, and the reputation of Miramichi would travel far and wide. It would be the means of attracting throngs of visitors to our shores. In contemplating the beneficial results that would ensue, it perhaps would be better to wait and see whether such a mine is in existence or not. Yours truly, NATURALIST.

[From Cooney's History.] At Black's Brook, near Saint Andrew's point, there is a mineral spring, from which issues water, having a red cast, and smelling as if it had been sometime lying in a rusty iron vessel. In the immediate vicinity of this spring, the water | 21st, leaky and would be docked for repairs. is crested with a sparkling foam resembling quick silver, while the land is impregnated with small, bright particles of the same description. Several persons who drank this water while afflicted with a distempered liver, have assured me that they derived considerable benefit from its use. Without entering into conjecture, I shall close this statement by affirming, that many of the rivers and streams in Northumberland are discoloured by sedi ment running from various springs, which

appear to consist of metallic oxides." A Good Thing.
