

ceived, but no loss of human life has yet been reported. A Chicago despatch says that during the storm, the schooner B. W. Wells, bound in iron ore from Escanaba, founded off North Chicago. Her mast alone remained above water. Her Captain and seven seamen have not been heard from, and are supposed to have perished.

CALENDAR.

Table with columns for Month, Day, Sun, Moon, and other astronomical data for October.

Miramichi and the North Shore, etc.

THE BRANT AND GOOSE shooting is excellent. COTTAGE, House and Store to rent—See advt.

FORBES' LECTURE.—Every seat for Forbes' first lecture in Halifax is already sold.

UPPER NELSON new subscribers' papers are addressed to Chelmsford office. If any of them prefer the Nelson Office, we will change the address at once notified.

ACCIDENT.—At Tabusintac, yesterday, Mr. Norman Campbell had his arm mangled while thrashing and was obliged to send to Chatham for medical aid.

THE "ST. CROIX COURIER" is just "sweet fifteen." With all its experience it is still foolish enough to be on the production list—otherwise it is a creditable paper.

THE LUMBER delayed in the river is being driven to the boom. A quantity of it is now being rafted. Some 5,000,000 feet are in tide water at and below Indian-town at the present time.

SUNDAY NEXT will be observed by Harvest Thanksgiving services in St. Mary's and St. Paul's Churches, Chatham, and St. Andrew's Church, Newcastle. Special collections will be made at the services in each church.

THE LATE MR. CREIGHTON.—The funeral of Mr. Wm G. Creighton, which took place on Monday last was largely attended by all classes of citizens. He was a reliable and worthy man who enjoyed the respect and confidence of all who knew him.

AN ATTRACTIVE STOCK of fancy and children's goods is now being opened at the Miramichi Bookstore. It is large and complete and having been bought to the best advantage will be sold at prices that must be very satisfactory to customers.

NEW SUBSCRIBERS.—Eighty-seven new subscribers are added to our list this week. If any who expect papers do not receive them, it will probably be on account of some error in the Post Office address, which may be corrected by sending postal card or other notice to this office.

PERSONAL.—Deputy Sheriff Rankin, of St. John, was in town on Tuesday. He had been at the County Court, Newcastle, as a witness.

DR. J. B. BENSON, who has sufficiently recovered from his recent severe illness to admit of his going abroad, has left for the West, on a convalescing tour. We join with the community generally in wishing him a speedy return to full health.

REV. GEO. STEEL and bride have arrived at Newcastle, where they have commenced domestic life under happy auspices.

WM. LAWLER, Esq., is expected to visit Chatham to-morrow notwithstanding his engagements in the Celestial City.

We extend the congratulations of the Globe to the Rev. D. Macrae, pastor of St. Stephen's Church, and Moderator of the General Assembly, whose learning, attainments and ability have obtained fitting recognition by Queen's University conferring upon him the degree of D. D.—Globe.

ACCIDENT.—On Tuesday last, 12th Oct., Chas. Edward Gray, employed in the water mill of Messrs. Prince Baker & Co., North Esk, had the upper joints of two of his fingers cut off with the circular saw, while engaged in cutting a pair of sled runners. Drs. Fish and McLean were called in and dressed the wound.—Advocate.

SCHOOL EXAMINATIONS.—The examinations of the schools of No. 1 District, excepting the grades in the Principal's room, will be held on the 27th, 28th and 29th inst.; in Miss Alexander's room on Wednesday, Miss Hamilton's on Thursday, and Miss Williston's on Friday. The principal examination will be held immediately before the Christmas vacation.

THE FARMER'S ADVOCATE and HOME MAGAZINE for October is to hand. It contains accounts of the Dominion, Provincial, Industrial, Western and Southern Exhibitions, from personal observations of the editor. Every farmer and any person interested in the agricultural prosperity of the country, should read it. It is a real, live, practical and independent periodical, and contains a number of original engravings. The Home Magazine department contains much to instruct and amuse the Home Circle. It is published by W. WELLS, London, Ontario, Canada.

MR. CHARLES G. D. ROBERTS, Principal of the Chatham Grammar School, and a native of Fredericton, read a paper on "Progress as Illustrated by History," before the Teachers' Institute of that town lately. The career of this talented young gentleman is watched with interest by his friends here. The Telegraph says of his latest production: "The paper of Mr. Roberts (whose poems are winning golden opinions) deserves to be published in its integrity."—The Capital.

Senator Muirhead's Mill. Senator Muirhead is in town. He intends to commence next week rebuilding his mill at Chatham, St. John's Globe. There seems to be something exceedingly strange in the estimation of some persons, respecting the reconstruction of the above mill. Preparations for the work have been going on nearly all the past season and, yet, every now and then, some enterprising glenner of news discovers that the mill is to be rebuilt. In our issue of August 19th we made the following announcement:

NEW MILL.—We understand that the Muirhead mill is to be rebuilt in time for the next season's work. The new structure will stand on the site of the old one and be a two gang mill. It is satisfactory to know that Messrs. Muirhead are displaying their usual enterprise in restricting this important source of employment.

We believe the ADVOCATE was informed that the Senator did not intend to build the mill, but it was only by some one who wanted to take "a rise" out of our innocent contemporary—not a difficult task at any time. Some of the younger representatives of the Senator's business interests have amused themselves, when questioned on the subject by their friends, by saying "if we do build your know," etc., when, at the same time, they were quietly surprised at the questions not knowing, after the above announcement in these columns, that Mr. Geo. Dick, their able engineer, and a large part of the force of the Miramichi Foundry Company were for some time employed upon such preparations for the new structure as could be made during the past season.

The new mill—now really well advanced, so far as everything save the building is concerned—is to be of the class indicated in the above paragraph. It will thus have one gang less than the old one, but will, no doubt, do nearly as much work as all the improvements which have been introduced, as they have been in the three-gang Snowball mill, which is admitted to be the best in the Province. Messrs Muirhead will probably have their new mill among the first to start next spring. The loss of the old one was a severe one to the community as well as to the firm, for the greater part of the mill laborers of the town proper depend upon the establishments of Mr. Snowball and Mr. Muirhead for employment during the summer months. With the restoration of the Muirhead mill and the prospects of a fair lumber season, we may look forward to better times in Chatham all round next year.

Municipal Elections. Considerable interest is being manifested in the Municipal Elections. In Chatham there will probably be little trouble in the matter, as those who have, heretofore, kept candidates with axes to grind in a minority, will do the same good service for the parish this year. It is not improbable that the election in Chatham will be deferred for a few weeks, owing to an informality in connection with the public notice given, the twenty days notice required by the amended law having been overlooked. This, however, will not be a matter of inconvenience to anyone in particular. It would be better not to hold the election on Tuesday next because it may lead to annoying complications in connection with the collection of rates and the transaction of other public business. If the Ratepayers shall decide not to go on with the election, or if no Chairman will take the responsibility of presiding, it will be the duty of the Warden to issue his warrant for the election to the Town Clerk who shall give ten days notice. The election will then be held in the usual way. It will be well for the Ratepayers to be in attendance on next Tuesday morning at the Masonic Hall, Chatham, in order that the matter may be well understood and properly decided upon.

It is said that John O'Brien, Esq., will not offer again in Nelson, but it is to be hoped he will change his mind. Should he not do so, it is probable the Ratepayers will find another good man to share the representation with Warden Burchill. Mr. Thomas Flett, who polled a large vote last year, is the choice of many electors. There is talk also of Mr. Saunders offering. There is some talk of opposition in Alnwick, but it is quite probable that it will melt away before Tuesday next. Mr. Loggie has given satisfaction to the people, while those who have been satisfied with Mr. Savoy will doubtless continue in the same singular humor.

There is quite a "tempest in a teapot" in Newcastle, caused by somebody who wishes to see some fun, inducing the Advocate to make an attempt at influencing the election. It is said that because Surveyor-General Adams has not any confidence in the influence of the Advocate and has expressed himself to that effect, our contemporary has been waiting for a chance to say him off. Accordingly as soon as Mr. R. B. Adams (who resides at Douglastown, but has his attorney's office at Chatham) filed his nomination, the Advocate objected to him. Instead of stating it was because he was the Surveyor-General's brother, it represented him as a resident of Chatham, and on that account not at all suitable to represent Newcastle. Mr. Adams thereupon comes to us with a letter, in which he is not very complimentary to the Advocate and its unfortunate editor. We publish the letter, as Mr. Adams seems to feel that the Advocate is malicious in misrepresenting him. It would be much more pleasant for us to see these brethren dwelling together in unity, but it is, at the same time, interesting to find the one "happy family" expressing their real sentiments in reference to each other. The poor Advocate is surprising its readers by coming out with a change of base on the non-resident question, while one who speaks for the Conservative Party is opening up on the subject of the ex-Organs' worthlessness and unreliability.

Penitentiary tenders for which had to be accompanied by \$3,460 and to be on hand last Wednesday. Mr. Lawler has shown himself a most deserving man, and we hope he will get it.—The Capital.

Rogerville Letter. We publish the following letter, which has also appeared in the Freeman, by request:—

Rogerville Settlement, Carlton, L. C. R., is rapidly improving. The courageous have every reason to feel proud of the prosperity which is attending their labors. His Lordship, Bishop Rogers administered confirmation here lately to a large number, and has considered it necessary to place a pastor to attend to their spiritual wants.

The Rev. Father Boucher is now stationed here whose zeal for colonization is already known.

The Hon. Surveyor-General visited the settlement last week. He is much pleased with its progress. He will accompany Mr. Landry here this fall to make appropriation for Eye Roads which are greatly needed for local purposes.

A large number of the settlers are receiving their grants.

The commodious school house is about completed.

There is a large quantity of good available land for those wishing to make comfortable homes for themselves. Roads are being opened up rapidly; the settlement has accommodations equal to other settlements, such as grist and saw mills, church, schools, &c.

As the I. C. R. runs through the Settlement all have a convenient way to the kind of all kinds of lumber and produce.

The crops of all kinds have turned out well this season.

The railway managers are making suitable accommodation for the increase of traffic during the winter season. Large quantities of lumber and hickory bark are shipped from this station. During the month of September traffic at this station amounted to \$300 on bark shipped to Boston via Moncton. Messrs. Miller & Ames are the leading shippers.

Constable Thibodeau has taken legal proceedings against the Chief Constable, or Deputy Sheriff, named Loggie, from Newcastle, for interfering while he had one Stevenson under arrest. It is said Loggie showed a revolver during the fracas.

As the majority of those who have taken land under the Free Grant Act, have complied with all the conditions of the Act, and are receiving their grants, they intend, with the assistance of some M. P. P., and Mr. Johnston, M. P. P., for Kent, who has taken a deep interest in the colonization of his people, to press their claims for evenhanded justice. He, with others, will push it home, with success, the claims of these settlers to receive the money payment that they had the same right to receive as other settlers in other parts of the Province where new settlements have been started. It is alleged that a number of poor settlers were induced to waive their claim by some local persons, and those who are representatives of the Acadians should now try to have some light thrown on the matter. No doubt Mr. Landry will see that his people receive justice. Certainly if an order-in-council was passed to treat those settlers differently from all others by counselling them to waive their claim, nothing can be done. But your correspondent believes that if a searching enquiry be made by our representatives the poor settlers will yet receive their rights. The industry of which the proofs can now be seen should strengthen their claim.

Yours, W. STORR.
