and who was much agitated. As the prisoner was stepping from the carriage going into jail, the constables had to remonstrate with the clamorous crowd to prevent any interference, When an op portunity was afforded Thiebault was quickly ushered into jail and the door quickly slammed after him by the jailer. IDENTIFYING THE BODY.

A woman whose name is believed to be Mrs. A. B. Scott, came up in another carriage and was shown the remains and identified them, affirming that they were those of a young woman named Charlotte Hill, who had left the poor house on Tuesday or Wednesday morning about the same hour as Thiebault left. She asserts positively that the remains are those of the young woman, Charlotte Hill. Mrs Scott is understood to have lived in the same house with the girl.

INTERVIEW WITH THIEBAULT. Through the courtesy of Mr. Rice, the jailor, a Telegraph reporter was permitted to interview the prisoner briefly. He was naturally questioned as to his relations to the murder. He promptly asserted his innocence, denied all knowledge of the deed, and affirmed his readiness to prove an alibi, he being the wrong man. Hesays he is the owner of the house, a portion of which is used as a poorhouse, and for such use he is allowed \$300 a year. He states that the murdered girl lived with him for about three months. He declares that the first intimation he had of her disappearance was on Thursday morning, when his wife told him that she went to call her about 5 o'clock to milk the cows and found that Miss Hill was not there. He professed to be surprised at this.

Touching on another point, he said believed the girl was enciente; but that she had been the mother of four children, the eldest of whom, who is 3 years old. was still at his house. During the interview he seemed very restless and felt his situ ation keenly. Besides his wife, Thiebault has a family

of six children-four boys and two girls. The eldest of the family is a son, a young man 24 years of age, who, with his two other brothers, were working in the woods a short distance from the house, when their father was arrested.

Thibeault has been fully identified as the man met near the scene of the murder and other circumstances point to hir the murderer.

#### Telegraphic Notes and News.

London, Sept. 1. News has been received at the War Office from Quettah stating that General Roberts arrived at Candahar yesterday, and, contrary to expectation, in advance of Gen. Phayre. Col. St. John, with a detachment, met Gen. Roberts, on Saturday, about 20 miles outside the city, at a place called Robat. The reinforcing column passed Ayoob Khan's position some miles to the left, Ayoob being on the bank of the Augandabe River, between which and the Cabul road or pass . Ligh range of mountains intervenes. - Ayoob is very strongly posted in his present position and an attack upon him there, should it be attempted, would involve much risk and at the best could not seceed without serious loss to the British. It is stated that Ayoob Khan has already undertaken to open negotiations with General Roberts. The purport is understood to be that he will allow the British to leave the country unopposed, provided they will evacuate of Wm. Wilkinson, Esq., Q. C., Bushville. Candahar immediately. General Roberts refused to enter into any such compromise. Hassam Khan, Ahmed Khan, Ali Khan, Musa Khan and the late heir apparent's mother are reported to be in Ayoob's camp. Avoob's Heratee troops are still reported to be wavering in their allegiance to him, | County. but they have been sworn on the koran to remain faithful. The Afghan forces on the Angandabe now number about 25,000, and the Ghilzais are rising and joining then in considerable numbers. Gen. Phayre with his entire force, which cannot amount to more than 5,000 men, expects to fight a battle at Taktipa, but whom he expects to fight is not so clear, unless it is the Hillmen, who are in sympathy with Ayoob. Should they attempt resistance by flooding the cultivated levels of the Khushab plain, which would make the only approach to Candahar impassable for waggons, artillery or cavalry, and here a most formidable stand might be made by the tribesmen.

of some kind must soon be reached. LONDON, Sept. 4. The following despatch has been received

Affairs are now in such a form that crisis

from General Roberts, giving details of his victory over Ayoob Khan CANDAHAR, Sept. 2.—Report of reconnoisances carried out by General Hugh Gough and Col. Chapman, on 31st ult. afforded me all necessary information regarding the enemy's position. I found is quite practicable to turn his right, and thus place myself to the rear of Baba-Wali range, where Ayoob Khan's main camp was. I decided on doing so, and commenced the attack shortly after nin o'clock yesterday morning. To cover my designs I made preparations for a direct attack upon Babi Wali. This feint was entrusted to troops of the Candahar garrison under General Primrose, who also arranged to occupy my advanced positions of the previous day. At the same time a cavalry brigade under General Hugh Gough advanced upon the left, and without difficulty reached Argandab, where it was well placed for pursuit, should the enemy break either towards Girishk or Kakrez. The attack was made by first and second brigades under Generals McPherson and Baker respectively, with the Third Brigade under General McGregor in support, the whole infantry being under command of General Ross. An elevated village within 1,200 yards of our position was strongly held by the enemy and had first to b taken. This was done in a most gallant manner by the 92nd Highlanders and Second Ghoorkas covered by artillery Two brigades then advanced through orchards and enclosures, fighting steadily. The left of the Second Brigade being brought gradually round until the village of Pirspaimal was reached. At this point the enemy was in great force and fought most resolutely, but nothing could resist the determined advance of the British troops. Shortly after this the reverse's lope of Babi-Wali was reached and the standing camp of Avoob Khan became visible. All the enemy's attempt to stem the torrent were futile. By 12 o'clock noon the camp was in our possession with 27 pieces ordinance, which included our own guns lost on the 27th of July. The casualties, in addition to those yesterday reported. include three officers of cavalry slightly wounded, named Major Willock, Lieut Baker and Lieut. Neville Chamberlain.

The Ninety-second Highlanders had fifty-

seven wounded, three of whom have since died. 72nd had 17 wounded, of whom

six died : among native troops 11 were

killed and 72 wounded. Total number

wounded about 210. The cavalry brigade

marches to morrow to Kokeran, where it

will be well placed, and this will facilitate

supplies been brought into the city. The 19th Bombay infantry, with the 3rd Bom-

up communication with Gen. Phayre, to

whom I am writing requesting him not to

of stores and supplies."

is so impaired as to prevent his engaging actively in his regular business, he thinks the work of an undertaker will be sufficiently well adapted to him to admit of his engaging successfully in it. We bespeak a good share of patronage for him.

BUCTOUCHE BRIDGE :- The Bridge over the Big Buctouche River at Buctouche Village, will be completed this week and opened for the travelling public. Those who have examined the work speak in the highest terms of it, and it is safe to say the structure reflects credit on the Contractors. Messrs. Taylor and Thompson, and on their foreman, Mr. Archibald Fer-

THE PIC-NIC of the Sunday School and Baird. Congregation of Emmanuel Church on Wednesday last, was one of exceeding great pleasure and interest to all who attended it. It was a remarkable success. Unanimous and hearty thanks were voted to lows :-J. B. Snowball, Esq. for his characterist generosity in furnishing to all the fre passages to and from the picnic grounds Ivory's Crossing.

THE R.E.CHURCH:-The distinguish English clergyman, Rev. Edward Wilso D. D. recently elected Bishop of the Reformed Episcopal Church of Canad makes his first Episcopal visitation Chatham this week. He will pread Sunday morning and afternoon Emmanuel Church. There will administered the rite of Confirmation connection with the 3 P. M. service All are cordially invited.

DISSOLVED: - We were reliably informs yesterday that Messrs. Burns, Adams Co., of Bathurst, had dissolved partnership Mr. S. Adams retiring. The business wi henceforward be carried on by Messrs. I F. and P. Burns under the style and firm of K. F. Burns & Co. We wish the ne firm every success with their large and rapidly extending business. Mr. Adams, the retiring member, has made many friends during his short sojourn in Gloucester, and is highly esteemed in the County. Should he decide to leave the County, as in all probability he will, he will be missed at the Council Board, where he has already rendered valuable service. it during the Camp. He thought the Wherever he may settle in the future, our best wishes will go with him. - Advocate.

Consecration.—The new and pretty little Episcopal Church at Campbellton, which has been erected during the past were so many recruits. He complimented year, was on Sabbath last consecrated to the officers on their success in preparing Divine Worship. His Lordship Bishop the Battery to pass so successful an inspec-Medley, Canon Medley, of Sussex, the tion. He also expressed his pleasure at Rector, Rev. J. H. S. Sweet, Rev. H. H. the improved appearance of the Battery. Barber, of Newcastle, and Rev. Mr. For- The horses were much better ones than syth, of Chatham, were present, having heretofore, and the harnesses more carefulremained over while on their way to attend the Provincial Synod. His Lordship He paid a deserved compliment to Sergt. preached an able and appropriate discourse in the morning, from the words-" Lord, I have loved the habitation of thy House. and the place where thinehonor dwelleth.' Canon Medley preached at the afternoon service. Both services were well attended and the offertories in aid of the building

fund were good We understand that his Lordship presented the Church with a handsome Com- Gunnery. munion Service, and also a box of books for the use of the Parish.

The Rector has evinced a great amount of energy in the erection of the new edifice, which is a neat and comfortable structure, with seating accomadation for about two hundred persons. It occupies a central location between the town and the I. C. R. depot, and will supply a want long felt by the adherents of the Church at that place. The cost of the building is probably in the vicinity of twelve or fifteen hundred dollars. Advocate.

## Extensive Fire at Derby.

THE BARK EXTRACT FACTORY BURNEL, The destruction by fire of Messrs. Mil ler's Hemlock Bark Extract Manufactory at Derby took place on the afternoon and evening of Tuesday last. It appears that the fire began in the centre of the building in which the large vacuum pan is situated, but its origin is not known. Mr. Crocker, book-keeper of the establishment had just been up in the tower where the pan was, for the purpose of noting the pressure and saw nothing amiss, but he had just come down and reached the side of the building when the alarm was given. Many of the men about the establishment at once rushed for buckets and endeavored to check the flames, while others got the hose connected with the factory pony engine and that of the other fire engine in readiness. but the fire could not be checked. Word was sent by telephone to Newcastle asking for assistance, but, in the meantime, the work of destruction went on, the means at hand being entirely inadequate to check it. When hope of saving the main factory was abandoned attention was turned the adjoining warehouse and other property. The factory fire was so fierce that it is doubtful if any ordinary engines could have successfully combatted it after it was fairly under way. Soon the wharf began to take fire and, as there was a large quantity of extract stored in the building there, it was closely watched and much work expended on it. The steamer Grip lying at the wharf was also endangered, but, fortunately, the efforts of the people present confined the fire to the factory, and although it was still burning yesterday forenoon the danger was over, especially as the Newcastle hand engine Total ...... \$54,261 was on the ground, having been sent up S. Parnell, lately launched at Richibucto, work of fighting the fire was still going on. extract of bark which were in the factory. of Shediac. Mr. Luke Desmond of Chat- It is fortunate that the store on the wharf was saved as a large quantity of extract

be ascertained, definitely, owing to English members of the firm having effected risks at home, but there is probably a fair amount covered

We understand that the work of rebuilding the factory will be undertaken as soon as the debris can be cleaned away, and LABRADOR HERRINGS:— Capt Boucher Mr. Miller hopes to be ready for operation Rankin Ferguson, Insolvents, vs. Patrick perience in New Brunswick bears out again within a few months. It is also pro bable that there will be no interruption in the purchase of bark at the factory, a prospect which will be good news to a great short time at Chatham and then proceed many persons who are engaged in the bark peeling business.

The factory destroyed was built in 1869. It was 100x200 feet on the ground floor the Grand Falls on the Nepisiquit a short now. There has been some first rate play and contained eight leaches 8x16 ft. It time ago. On opening it he found inside there lately. The three men making the best time vere the following:-

Gunner Geo. Russell,

Sergt. Duffy 4 min.; Sergt. Henry Copp. min. 20 sec.; Bomb. Wm. Tushie, 5 min. After the inspection in the afternoon, Col. Lewes expressed himself much pleased with the Battery and the work done by shooting was not so good as that of last year, although very fair, but the drill and field movements showed marked improvement, notwithstanding the fact that there ly fitted than when he last saw the Battery. Major. Hughes and the valuable work he

had done all over the Province. Lt. Col. MacShane also addressed the men briefly, and said that although he belonged to another arm of the service, he could appreciate the good condition in which the Battery undoubtedly was. He could not too strongly impress upon them the importance of attending a school of

Major Call also spoke thanking the inspecting Officer for the encouraging remarks he had made. He then referred to the fact that he had been in command of the Battery for twelve or thirteen years, and that there was but one man in it who originally belonged to it. They had, however, the same old guns and accoutrements as they had ten years ago and too much ought not, therefore, to be expected of them. After thanking his officers and men, he proposed the usual cheers by the Battery which were given and he was also cheered. No 7. Battery of Garrison Artillery, commanded by Lt. Col. T. F. Gillespie, was inspected on Friday by Col. Lewes., accompanied by the Officers above-named. The shooting by No. Battery was superior this year. The target, a barrel, was struck several times and the flag cut away by a round shot. In addressing the Battery Col. Lewes complimented them on their shoot-

On Monday next the annual Target Practice of No 7 will take place and that will close the work of the year with them.

## Attractive Pic-Nic.

The Pic-nic of the season will probably be that to be held at Bay des Vents on Wednesday 22rd inst. on the beautiful grounds of Mrs. A. Williston. The Andwill convey excursionists to the grounds and Chatham and Newcastle. as as Black Brook, Douglastown, Nelson etc. will furnish a full load of pleasure-seekers. The object of the Pic-nic is to raise funds to build a Rectory in connection with the Church of England Mission at that place, and we are quite sure all denominations will be ready to aid in so worthy an undertaking. Further particulars will be given next week. Bathurst Notes.

Sept. 7th, 1880. CIRCUIT COURT: -The Gloucester Circuit Court opened this morning, His Honor Judge Weldon presiding. The following legal gentlemen are in attendance :-- Messrs Weldon, Tuck, Gilbert and McLeod of St. John and Messrs. Davidson, Tweedie and Lawlor of Miramichi. ## A Sworn Monopoly.

From the Toronto Globe. The chief organ says:

"It is nonsense-open, palpable and of manufacturers in Canada for the purpose of forcing up prices." The organ also says that if the Globe

will substantiate its statements about the N. P., or any of them,

"No consideration of party fealty shall prevent us from demanding the immediate repeal of such an instrument of oppression and the overthrow of Ministers so lost every sense of patriotism and justice."

wish that it had never been born. We can furnish a piece of evidence which proves that there is a combination of manufacup prices, and the charge that such combinations do exist, we have esteeemed the

the N. P.

Last winter the stove founders of Canada formed a combination as to prices and terms. They advanced prices in concert several times, and the bulk of their sales were made at 25 per cent higher prices than they obtained the year before. As the stove founders did not possess an exuberance of faith in each other, they adopt. ed the most approved methods of the United States, where the making of rings has been reduced to a fine art. Each manufacturer or firm deposited \$200 in money or securities with the President o Treasurer of the Association. This sum was to be forfeited if the depositor sold stoves at less than the ring prices, and

was found out. They have agreed to put up an additional sum of \$200 on the same terms, having probably discovered that monopolists become, that they are binding each other by a secret oath to observe the compact. A little bird has brought us the oath which each member of the ring is bound to take. A copy of this oath we now print in substantiations of our charge that such combinations do exist:

"COUNTY OF ' To wit :

"I-, of the town of -, in the county of -"Do solemnly declare that in the month of February last I entered into a compac with certain manufacturers of stoves, viz.: Here follow the names of fourteen firms stove-founders), whereby it was stipulated and agreed that certain trade arrangements. conditions of sale and prices should be bserved by all parties to the said contract, fully recollect the condition of the agreement, and have, since I entered into it

observed all the said contract, and I have made diligent inquiries of partners, managers and salesmen, and all others from whom I could expect to be informed in this natter, and I believe that they and each of them have observed all the conditions of the said contracts. And I make this solemn declaration, conscientiously be lieving the same to be true, and by virtue of the Act passed in the thirty-seventh year of Her Majesty's reign, entitled 'An act of Suppression of Voluntary and Extra Judicial Oaths.'

"Declared before me at --- in th County of - day of -

A. D., 1880." We will close our eyes while the chie organ crawls away through the most convenient gimlet hole. The above affidavit proves most conclusively that a ring does exist; that the object of it is to force up prices, and that prices have been forced up. All this is done under the shelter of the 25 per cent. of protection conferred by

As the shivering Canadian sits next winter, insufficiently clad in woollens taxed 60 per cent., by the side of a stove taxed 25 per cent., scantily supplied with coal. for the privilege of burning which he and other consumers have paid more than \$500,000 in taxation, he will extract much comfort from the knowledge that fourteen wealthy firms of stove founders are in a state of beatific satisfaction with the N. P. And the stove-founders, who, by reducing wages, can compel the workingmen to pay the taxes on the iron and coal entering into | the streets of that city, Luke was hanged the manufacture of stoves, can lay the flat- upon an olive tree in the classic land of tering unction to their souls that by the expenditure of their wealth they are bene-

## Gorrespondence.

Our Fisheries-Letter from Professor Hind.

WINDSOR, N. S., Sep. 3rd, '80. To the Editor of the Miramichi Advance SIR :- Mr. Mowat's letter addressed to the ADVANCE and published in your issue of the 5th Aug., has been copied into Forest and Stream. In-a communication which I have mailed to that paper, I hav taken the opportunity to reply to Mr Mowat, to "Stanstead" and to Sala Wilmoti all in one. The remarkable communication of the last named writer and author appeared in the Daily News Aug. 16th. In my communication to Forest and Stream I have adverted to the climatic question in reference to the late appearance of salmon in our rivers this season, also to 'biennial spawners', also to the habit of salmon seeking other rivers than their native streams for sanitary Mowat, through the columns of the Ap-VANCE, to be so good as to give what definite and reliable information he can about the catch of salmon in the Bay year, will be thankfully received. I have prepared a notice of the salmon catch and character of the seasons in certain rivers in Scotland for about one hundred years,

I should be glad if Mr. Mowat would also state whether he has ever taken or seen large male salmon late in the season without the hook being developed largely on the lower jaw; also, whether he has one who skins the carcass to get the hide ever seen or heard of large male salmon, between the married and single men result- power employed 50 men on and about the inch and a half inches in having milt well developed, without the All bullocks, calves, sheep, etc., slaughhook on the lower jaw. I should also tered in these establishments are blown up a match on Saturday, 11th inst. between in procuring bark—and worked up 12.000 | Exonus.—Fifteen young men have left like to ask him whether he has ever seen in this manner. were made in the spring of the year. I upon a novel plan. The pigs are taken against the estate of the late Helen Loban of Chatannual product of extract between 7,000 DIPHTHERIA.—There has been two have seen such nests at the headwaters into a large round house, having a cupola ham, deceased, are requested to present the same duly attested to R. Carman, Attorney-at-Law

Survey of the Province. Mr. Mowat will understand that I ask these questions for scientific purposes, as I intend to supplement the communication I have sent to Forest and Stream with some details respecting the influence of climate upon the movements of fish, in which I feel sure he will be interested. I adopt this means of seeking information in the hope that the readers of the ADVANCE will be induced to furnish any reliable instances within their

#### HENRY YOULE HIND. The Kingston Bridge.

Your obedient servant.

To the Editorof the Miramichi Advance SIR :- It is said Mr. Buck, Government Engineer or Inspector, recently examined We can make our contemporary even being paid. Did Mr. Buck ascertain if common or refined iron was used in the turers in Canada for the purpose of forcing | Bridge? Did Mr. Buck make any enqui ries of what was said by those who ought to know in reference to the stability of most damaging of all the charges against this bridge? The bridge as it now stands is a doubtful piece of work and may ere long be the cause of loss of life.

Yours &. More Anon. Kingston, Sept. 7th. 1880.

THE ISLAND PARK HOTEL AND GROUNDS at Summerside, have been purchased by J. L. Harris, Esq., of Moneton, for \$4,000. They cost the late Mr. Holman \$50,000.

SIR LEONARD'S FIGURES:-This is what the London Advertiser says about Sir Leonard Tilley's new system of book-keeping by double entry:-

got to get! That's four dollars, twice four is eight, and eight and four is twelve! Guess a man don't need to work when he's got twelve dollars!" That was the calculation of the old negro long ago. Sir Tilley reproduces it. His deficit is \$1,693, the first \$200 was not sufficient to keep | 127.47, but he adds in \$1,300,000 from the some of the members straight. Nay, so receipts of last year, and so reduces it by amount. If he had only added the rest of the deficit from next year it would have balanced the account nicely,

and have been just as correct. FREDERICTON has won an unenviable notoriety by compelling the mechanics, not citzens of Fredericton, who are employed on the new legislative buildings, to pay business license. If it were known last winter that Fredericton would pursue so grasping a policy, the result of the agitation for the transfer of the seat of Government might have been different. it is, the employers who pay in all cases, this transaction really means that Fredericton, having the chance, compelled the Province to pay for permission to erect a new Parliament building within its limits.

FATHER FARRELL'S WILL .- Father Farrell, who recently died in New York, directed that his executors should spend on his burial \$100, and no more. following inscription is directed to engraved on his tomb, viz.: "And I beseech you to love liberty and to love intelligence, and try to extend their blessings to every member of the human family: hate tyranny, oppression, wrong, slavery; but, above all, hate ignorancethe fruitful parent of evil to the human family." Among his bequests is one of \$5,000, Alabama bonds. "to be used for the relief of the sober and honest poor of the district without distinction of race or religion." He gives a similar legacy towards the foundation of a church for colored Roman Catholics, and he accompanies this bequest by the following statement: "My motive in making a bequest for the benefit of the colored people is simply this. I believe that the white people of these United States have inflicted grievous wrong on the colored people of African descent, and I believe that Catholics have shamefully neglected to perform their duty toward them. I wish, then, as a white citizen of these United States and a Catholic, to make what reparation I can for the wrong and neglect."

# Fate of the Apostles.

All the apostles were assaulted by the enemies of the Master. They were called to seal their doctrines with their blood, and nobly did they bear the trial. Tradition says:-Matthew suffered martrydom by being slain with the sword at the distant city of Ethiopia. Mark expired at Alexandria, after being cruelly dragged through Greece. John was put into a cauldron of boiling oil, escaped death in a miraculous manner and was afterwards banished to Patmos. Peterwas crucified at Rome, with his head bowed downward. James, the greater, was beheaded at Jerusalem. James, the less, was thrown from a lofty pinnacle of the temple and then beat to death with a fuller's club. Philip was hanged ub against a pillar, at Heryolis in Phrygia. Bartholomew was flayed alive. Andrew was bound to the cross where he preached to his persecutors until he died. Thomas was run through the body with a lance, in the East Indies. Jude was shot to death with arrows. Matthias was first stoned, and then beheaded. Barnabas, of the Gentiles, was stoned to death by the Jews, at Salonica. Paul after various tortures and persecutions, was at length beheaded at Rome by the Emperor Nero. Simon Zelotes was crucified in Judea.

The Paris Abattoir. The slaughter houses of Paris are located at La Villette, on the outskirts of the city, and form, together with a police station, telegraph office, barracks for a small force of troops stationed there, and other buildings, a town of very respectable size. The buildings, which are of stone, were constructed in the most thorough manner by the city under government authority. The premises are inclosed by a high stone wall, and the grounds are divided into regular rectangles by four avenues, intersected by four streets. Through each building runs a series of

cours, covered with a glass ceiling, and in these cours the slaughtering is done, the animals being dressed on wooden frames placed at regular intervals on each side of the cour. A peculiar feature of the busi. ness is that of blowing up the carcass as soon as the head and legs are cut off. which the Commercial Bulletin describes as follows: The body being placed on the dressing frame, an incision is made in the breast near the neck, and the nozzle of a bellows inserted. A man then works the bellows for about fifteen minutes, until the whole carcass is swollen out like a balloon. The reasons given for this are that it makes the meat look better, more plump than it otherwise would, and that it enables the off quicker and easier, without injuring it.

Pig butchery in Paris is also conducted No other paper had it, and it could only It is needless to say that nothing which is now seriously ill with it. Mr. Thomas 1864, when I was making the Geological den at a time, and a butcher passes along

and strikes each one on the head with a

After being bled, the defunct porkers are carried to the side of the room and arranged methodically in a row. They are then covered with straw, which is set on fire and the short bristles quickly burned off. After a thorough scorching, the pigs are carried into the dressing-room, hung up on hooks, and scraped by means of a sort of drawing knife, handled by a skillknowledge respecting the local habits of ful operator, who performs his work at the rate of about one pig a minute. Then the bodies are washed and the entrails taken out and cleaned.

Every part of the animal is utilized Paris, and that which the American throws away as worthless, is made to subserve some use in the Frenchman's economy. the Bridge over the Richibucto River at The pig's blood is used in the manufacture Kingston in this County, previous to the of the large black sausages which meet contract being taken off Mr. Gallagher's with such extensive sale in Paris. The Canada House hands and the balance of money, if any, long bristles are pulled out by hand and go to the brush maker.

MARRIED.

At Nelson, on 1st inst. by Rev. Aug. F. Hiltz, Rector of Derby, Henry Hubbard to Mary Jane McKenzie, both of Nelson.

DIED At Blackviile, on the 28th Aug., after a short illness which he bore with christian resignation, Mr. Daniel Coughlan, aged 69 years. He leaves a wife and five children and a large circle of friends
