The late John Pollock of Metapedia.

We are requested to publish the following resolution, passed by the Professors and students of Queen's College, Kingston, on the death of Mr. J. R. Pollock, better known as the late Presbyterian Student of Metapedia, who died Nov. 12th 1879 aged 28 years.

Resolved: -That we, the members of the Missionary Association of Queen's College, Kingston, having heard with much regret of the death of John Pollock one of our members, desire to express our deep sympathy with the relatives of the deceased in their bereavement. That from the success attending his labors on the Mission field he gave every promise of being a faithful and successful labourer in the vineyard of the Lord. That we, therefore, regret his early decease the more, but rejoice that his relatives were comforted at his death by the childlike faith he reposed in that Master whom he co-workers. That a copy of this resolution be sent to the said relatives.

The routine business being disposed of the Secretary-Treasurer submitted a report in reference to the lot of land in the town of Newcastle, which had been deeded to the Dominion Government, with the understanding that it was to be used as a site for a drill shed. The Secy. Treasurer's report showed that he had communicated with the Department on two occasions in reference to the land in question -the last time being on 21st April, -but had received no reply. He recommended that the Dominion Government, having failed to fulfil the conditions under which the land was transferred, the County retain

possession of it. Adjourned until 2 p. m. TUESDAY AFTERNOON.

Coun. Adams moved that the Secv. Treasurer be ordered to take such action s will secure the lot of land now in possession of Mrs. Shaw, and be authorised to rent the same to the best advantage. Coun, W. S. Brown thought it would be

better if the Secy.-Treas, were authorised to offer the land for sale at an upset price to be set by the Council, but failing a sale that it be rented on the best available LAUNCHED at Kingston, Richibucto, on terms. The Council fixed the upset price at \$2,000.

NORTHESK AND SOUTHESK. Coun. Tozer brought up, by resolution, the matter of apportionment of County School and Contingent funds between the parishes of Northesk and Southesk, moving that as the Committee appointed to apportion said funds between the two had not attended to their duty, they now set about the work assigned to them and report to the Council at its present session. Coun. Adams opposed the motion on the ground that the assessment had already been made by the Sec'y.-Treasurer and it was unnecessary to open up the

Coun. W.S. Brown said the Committee had been authorised to apportion the various assessments but had overlooked the contingent and school assessments. They had fixed the proportion for Alms House fund for Northesk at \$215 and that for Southesk at \$185 but the Secretary-Treasurers, not knowing this, had divided the contingent and school assessments equally-an injustice which he was sure neither Northesk nor the Council would wish to enforce. Coun. Maddox said so much talking was

done in the Committee by Messrs Brown an Adams that little was done towards a decision. Three disinterested Committee. men then settled the question and their have completed their engagement and left arrangement was agreed to. It was not carried out, he was sorry to say.

Coun. Adams contended vigorously against the motion arguing that the assessment was now made and even if there was a little injustice to Southesk the remedy would be very difficult to effect. The remedy could be applied next year. Coun. W. S. Brown thought if Coun. Adams would agree that next year's apportionment should be on the basis of the Alms produced the delightful sketch of "Our House apportionment he would agree to

> Couns. Maddox and Betts continued the discussion and Coun. Tozer withdrew his motion on the above understanding.

Coun. Cameron moved that a committee of three be appointed to visit the Alms House and report to this Council. He referred to disparaging reports he had heard in reference to the Alms House and to a visit he himself had made to it, when he found it in a most cleanly, orderly, and creditable condition, He wished others to go and see for themselves how well the institution was cared for.

Several Councillors thought such a visit would be unnecessary, especially as it might involve expense. Coun. Sullivan thought the people of the County were well satisfied in reference

to the institution being well kept; the Commission in charge of it had representatives from each parish and it was hardly necessary for the Council to move in the matter as any Councillor could visit the Alms House if he pleased.

Coun. Bamford thought Coun. Cameron's object was to disabuse the minds of the people up-river in reference to damaging reports that had been circulated conerning to the Alms House. Coun. Cameron's motion was carried

and Couns. Bamford. Pond and Underhill were appointed to make the visitation and report.

OVER-ASSESSMENT. Coun. W. S. Brown asked for the appointment of a Committee to investigate his claim to be relieved of an assessment upon him for \$400 income in Newcastle. Coun. Betts moved that a Committee of three be appointed to investigate and

report to-morrow. Coun. Lawlor thought Coun. Brown should have appealed to the assessors as the law directs and not to have interrupt ed the business of the Council.

The motion was lost. JAIL LABOR ETC.

Coun. Adams moved that a committee of tive be appointed to consider the matter of establishing a jail yard to be surround ed by a suitable fence for the purpose of ffording opportunity to employ the prison ers at wood-cutting or other suitable employment-said committee to report at the next session in January.

Coun, Betts thought the expense of guarding the prisoners would be greater than the profits derived from their work. Coun. Sullivan thought the motion was move in the right direction and would

Coun. Bamford entertained similar views and thought if prisoners were set to work they would not be so anxious to get into prison at certain seasons of the year. Coun. Lawlor argued that it would be

injudicious to apply the labor principle to so small a prison as the County jail. Coun. W. S. Brown was of a different opinion and thought even if the yard was never utilised for labor purposes it would be well to improve it. He thought there was no harm in appointing a com-

mittee to took into the matter. Coun. Adams said if the prisoners cut their own wood it would save the County \$200 a year. If his resolution succeeded it would lead to the jailer being appointed by the Council instead of by the Sheriff and save the people's money.

The resolution was adopted and Couns. Adams, W. S. Brown, Jas. Brown, Johnson and Betts were appointed the committee-Coun. Lawlor being excused at his

Coun. Jas. Brown from the special committee reported that they could not procure earth-closets for the jail at the price fixed by the Council. The report was received. HAWKERS. Coun. Johnson reported the disallowance

by the Legislative Council of the bill sent to the Legislature to authorise the Coun cil to impose a tax upon hawkers pedlers, CLEARING ROADS.

Coun. Adams moved that a bill be prepared to go before the Legislature to oblige property-owners and holders to break the roads ruuning through their properties and keep them free from drifts and pitches in winter, or to take down their fences on the side of the roads liable to drifts. Coun, Betts thought the existing law

governing the proper distance of fences from the road was sufficient, if enforced. Coun. Sullivan said the fences might be 60 feet apart and yet the roads would drift up in exposed places, He referred to remedies within his knowledge and thought it would be hard to oblige every

Wm. A. Park Esq., and the "Advocate."

To the Editor of the Miramichi Advance. In the Advocate of this date appears an editorial paragraph written in a would-be facetious style, indirectly, yet unmistakably pointing to me as the author of certain "news items" printed in the Fredericton "Star" over the nom de plume of "Bark." The junior editor also admits that such was the intention of the article and that his information was based on a rumor to that effect, which he had heard from two three people about town. I wish to state for the satisfaction of myself and friends that I had nothing to do, whatever directly or indirectly, with the correspondence referred to and that the inputations contained in the Advocate are untrue, have no foundation whatever in fact and are as contemptible, mean and despicable as the mind from which they emanated. Yours etc., with thanks,

To the Editor of the Miramichi Advance. SIR,-I notice in your issue of June 15th, an article from the Toronto Globe. concerning Leadville, Colorado. item in question has evidenty been penned at the instigation of some disappointed pilgrim. Many have gone to Colorado, expecting to step into a fortune without any exertion on their part. It is to this class that Colorado owes whatever is written against her richness and resources in Eastern journals. It is true the ill advised, so-called strike of the miners in

The Park Hotel. [St. John "Globe.]" St. John has justly gained an enviable notoriety for the comfort and hospitality of its hotels. True, they do not possess much external grandeur, but they possess what is much better, viz., comfortable and convenient apartments, the best of tables and the most courteous of hosts. Prominent among the hotels of the city that have gained for themselves such a reputation is the Park Hotel, situated on the north side of King Square, whose genial proprietor-Mr. Fred. Jones-is so wellknown to the travelling public, not only on account of his connection with the Park Hotel but from the relations he formerly bore to the old Barnes Hotel. His House has lately undergone extensive

improvements and alterations, and may

now be regarded as the finest hotel in the For the past twelve weeks, painters, carpenters, upholsterers, plumbers, cabinet-makers, masons and representatives of almost every branch of trade have been engaged about the premises, adding, improving and repairing, until the interior of the building presents an almost palatial ppearance. From top to bottom the work of renovation has been going on New and costly carpets have been laid down, handsome furniture added, several new bath-rooms fitted up in ash and walnut, with all the modern conveniences, the walls tinted and the ceilings brightened, and a variety of other improvements made that we have not the space to refer to in detail. On the ground floor the large vacant store in the front has been added and fitted up in handsome style for a business office and reception room. A new floor of hardwood has been placed down, the walls wainscotted in hardwood, the ceiling whitewashed and improved, and a new plate-glass front put in. Connected with the business office are the wires of turns from all the Justices except Justice | the W. U. Telegraph Company and the Theotine Blanchard of Caraquet. All the stairways have been newly carpeted, and the doors painted and grained in black walnut. On the second floor several important changes have been made in the dining room for the convenience of guests. New and handsome walnut furniture of elegant design has been supplied and the room thoroughly painted. The walls of the ladies' parlor have been re-decorated and re-touched, an Imperial Wilton carpet placed on the floor and luxurious and handsome furniture added.
