in granting their just rights has caused people to talk seriously. Farming and fishing were their principal industries. The National Policy was of no benefit to those industries, but rather the contrary. He asked the members from other sections that were benefited by the National Policy to help them to obtain a share of the fishery award. (Orposition cheers.)

The motion was carried. In the absence of Hon. Mr. Burpee, Mr. Weldon, seconded by Mr. Rogers, moved for the following papers :-

Orders in Cancil, etc., respecting the drawback on ship materials, etc.; a statement of the amounts expended on Negro Town Point breakwater, etc.; a statement of flour and grain, coal and coke, teas, etc., imported; also return of old rails sold and shipped. Carried.

Mr. Robertson (Shelburne) moved for a statement of the coal admitted free into the Dominion for the use of steamers and tugs on the lakes and rivers of Ontario and Quebec.

Hon. Mr. Bowell explained that no coal was admitted free, but only in bond for the use American and Canadian steamers.

Mr. Anglin-Then the shipowners were deprived of the advantages of the N. P. (Laughter.)

Mr. Mackenzie-Of its advantages, the poor people had to pay the duties, while those who were able to pay got their coal free; yet they called this a "raternal Government." (Cheers,)

Mr. Rolertson (Shelburne) moved for a return of the correspondence about the Order in Council regulating the lobster fishing. Carried. Also for correspond. ence between the Government and the official assignee of Shelburne, resigning that office. Carried.

Mr. Casey moved for reports by the officers of Inland Revenue as to the examination tests of Canadian oil. Carried.

Mr. Anglin, seconded by Mr. Charles Burpee, moved for a statement of the men employed, dismissed and re employed on the Intercolonial Railway, in the various workshops of the railway, etc. This was carried after considerable discussion by Messrs. Anglin, Tupper and Mackenzie.

Dr. Tupper said that contrary to the rumors mentioned by Mr. Anglin, the returns when brought would show there had been no favoritism or preference for Nova Scotians. No person's services had been dispensed with for political reasons, though when vacancies occurred and were required to be filled preference was given to the Government supporters.

Mr. McKay, (Colchester,) said complaints were made that too many New Brunswickers were employed. (Laugh-

A man who made Halifax on Friday afternoon, 20th. gross mis-statements against the former Government just before the election was rewarded with a fat office.

Mr. Domville denied the truth of the statements about accidents. There were none when he came up. Mr. Weldon-Yes, there was; the en-

gine springs broke down at Metapedia. (Laughter). Mr. Domville-I admit that. (Great laughter.) He defended the management.

Mr. McDonnell defended himself from

the charges of Dr. Tupper, showing that

three accidents occurred during his passage to Ottawa, and made it his duty to call the attention of Parlian ent to the matter. Mr. Snowball regretted anything that in any way should mar the usefulness of the Intercolonial. Cn arriving from England he was detained at Halifax four hours; the train gradually lost time to Moncton. Later a grade was reached on which the engine attempted and backed down three times, then ran back to Moncton and got another engine. This engine's axles got hot and there was further detention. Later the flange came off the wheel of a car, and being within a few miles of Chatham Junction he walked on. (laugh ter.) It was a common report that the engines could only take 8 to 12 loaded cars over the grades. The country was complaining and not without cause. Messrs. McKay and Boultlee defended

the management. Mr. Robertson (Shelburne) said Mr. Mc-Kay was one of the principal grumblers on the train on which he came. (Laughter.) Nearly every through mail train since New Year's was delayed from 8 to 10 hours. Complaints were made against the management all along the line.

Mr. Anglin said there was an undue strain on the rolling stock. Thirteen engines were repairing at Moncton and eight at Richmond that should be on the road. Mr. Longley said the train he came by was on time at Montreal.

Mr. Anglin said it was two hours behind at Quebec, and made up time after. Mr. Longley charged the Opposition with an attempt to break down the credit of the Intercolonial Railway.

Professor Youman's Juvenile Concert.

On Monday evening last Professor Youman's, who has been instructing a juvenile class of some 130 pupils in Chatham, for a term of ten lessons, gave his Juvenile Concert in the Masonic Hall for the Sir Charles Tupper withdrew the report | purpose of showing to the public the proof the Minister of Railways and submitted | gress the children had made. The Hall the same report with an additional page was completely filled on the occasion by embracing the report of the Chief Engineer, a highly respectable audience, and the Mr. Schreiber, showing that the working proceedings commenced with the entrance march and counter march of the pupils, through the hall, and to their seats on the brilliantly lighted stage. After the pupils had taken their seats, which were raised one above another in an incline from the way companies, to regulate the rates of ting with wreathed arms, their faces reflecting the crimson glow from the red fire which illuminated the stage. Among the more striking portions of the programme, were the Recichorus "We are a Noddin", which, by pieces which gave great pleasure were "Hanlan's boat song," a chorus accom-

Youmans which was loudly encored. Professor Youmans addressing the audience, said that during the past quarter, their efforts had been chiefly devoted to scale and chorus singing, but also in some degree to calisthenics and declamation in chorus, of which examples would be given: he also alluded to the proficiency of the pupils in pitching single notes and chords, which he contended few professed vocalists among the audience could equal. The pupils now gave the "Sailor's

Dream" as a declamation in chorus, and afterwards shewed great proficiency in

striking notes and chords. Professor Youmans announced that it was desired he would remain in Chatham for another term; if this was confirmed. he would meet a class next afternoon. On Wednesday evening he would commence the formation of an adult class, the admission to be 10cts. a night, instead of \$1.00 for the term. He believed he could shew them some thing new in the rudiments of music, and that he had a novel way of presenting the subject. He concluded by rendering his thanks to the audience and also to Mr. Gillespie for his

kind assistance. The pupils and their teacher with joined hands, then sang Auld Lang Syne, and the proceedings finally concluded with the National Anthem.
