LOBSTERS :- Mr. Jas. Morrison is building a new lobster establishment on Neguac

THE REV. DR. STEWART, of Sackville College, will preach in the Methodist Church of this town next Sabbath evenling, the 14th inst.

THE EPIZOOTIC has attacked a very large number of Miramichi horses. Mr. Thos. Ullock, of Chatham, lost a valuable animal-the Loggie mare-last week. GEESE AND BRANT were comparatively safe last week at Neguac and Tabusintac owing to the fine weather prevailing.

The present week has, so far, been more

favorable for sportsmen. BEAR TRAPPED. - About three weeks ago, a large bear, that had committed serious depredations in Wellfield Settlement was caught in a dead-fall trap by Mr. Martin Moran. The account against bruin for young cattle and sheep was a heavy one, and the fact that he weighed 300, lbs was a small consolation.

THE SCOTT ACT APPEAL. - Information has been received from London that owing to the death of the appellant, Mr. T. Barker, of Fredericton, it will be necessary to institute proceedings over again in order to obtain the decision of the highest Court of Appeal as to the validity of the Scott Temperance Act.

The proprietor appears to start the new establishment under favorable auspices and his house is in high favor with former patrons as well as with many new ones.

TURNIPS-We have received from Capt. Boucher's farm at Tabusintac Bridge, two turnips which weigh eight and seven lbs. respectively. They grew from seed planted in July last. It is not probable that anything better, or even as good as this, has been produced in this County within

SHIPPEGAN BREAKWATER : -- We are sorry to learn that the work done at the Shippegan Breakwater this fall is not what it ought to be. We are told that the Breakwater is too low, and that it is not \$2,000 appropriated would have proved after the present season. sufficient for doing properly all that was undertaken if it had been judiciously expended. - Freeman.

OH, DEAR!-The Advocate says that the scarcity of salmon is owing to the fact that smelts are allowed to be caught. It seems to be oblivious to two great facts, the first being that smelts were more plentiful last spring than ever, owing to the use of them for manure being prohibited for several years, and the second, that the Miramichi smelt fishery is more valuable than the salmon fishery. Why does the Advocate continue to publish silly things concerning our important industries?

ATTENTION :- Last week closed another year's business for the ADVANCE and while thanking its many friends for a liberal and we believe, deserved support, we have to remind some of them of their indebtedness. We hope those of them who have not already made the remittances to which we are entitled, will do so promptly. The yellow slip on the first page shows the time for which the paper is paid up. When the paper is sent after the date indi cated on the slip, the subscriber is receiving it on credit, which no one should suffer himself to do, unless under exceptional circumstances.

BURGLARY:- On Monday night, or early on Tuesday morning, the store occupied by Mr. Dennis Regan on Church Street, and owned by Mrs. Desmond, was entered by some parties unknown, and a variety of groceries consisting of raisins, tobacco, herring, cranberries, etc., besides other goods, taken, valued, in all at about \$20. The thieves entered by forcing the store doors with a bar until the lock bolt slipped out of the catch in the centre, and when Mr. Regan, who lives a morning, he found the doors open. So far no clue to the robbers has been discovered.

Messrs John U. and W. A. Loggie and Jas. Anderson are having a large lobsterpacking establishment erected on Tabusin tac Beach, a little below a point opposite the mouth of the river. The erection of the necessary buildings and the making of traps, etc. is being done under contract by Mr. Wm. Stewart of Neguac, who is now pushing the work forward in a vigorous manner and expects to have the whole completed, ready for the next season. The main building, which will be used as attached to it are two wings, one of which, 34x17 ft., will be used as a breaking room, and the other 12x14 ft. as a bath house. DISTRICT NO. 1, OAK POINT. On Friday 29th ult. the Semi-Annual examination at Oak Point, No. 1 school, took place in presence of the Rev. Mr Morrisey, the Trustees, Secty, parents and a number of lady visitors. The various lasses A, B, C and D were examined in reading, spelling, grammar, and the elementary rules of Arithmetic. A number of the scholars showed aptness in map drawing, tracing Counties, Parishes, Towns and rivers from memory. The examination was relieved at intervals by the following recitations and Dialogue : - "The Psalm of Life," by Annie Bowie; "The two Crossing Sweepers," by Janie Burchill: "Casabianca," by Katie Coughlan : "Today and To-morrow," by Thomas McLean: 'The Wreck of the Hesperus," by Maggie Burchill; "Little Jim," by John Burchill; "The Rain Lesson," by Jennie McDonald and Annie Bowie. The examination had to be brought to a close on account of the lateness of the hour. The number of children on the register is 33 and about 25 average. The ages range from 5 to 10 years. About Shooting At Tabusintac. Good Sport:-Mr. Geo. Vye, who runs the railway restaurant at Campbellton. had two or three days good sport among the wild fowl recently in the vicinity of Tabusintac, He was accompanied by Mr. Geo. Searle, of Napan. Mr. Vye's, share of the game was a well filled bag. holding some three to four bushels, containing about forty brant and other wild fowl. If the sportsmen made an equal division, they must have had glorious sport. Mr. Vye is now the possessor of one of the finest breach-loading sporting rifles ever seen in this section of country.

Last week was not a good one for goose and brant shooting at Tabusintac and the above gentlemen were very fortunate in being able to procure as many as they did. Messrs. Loggie of Rockheads, Chatham, were among the most fortunate sportsmen and to their willingness to part with the birds they shot, many be attributed the fine showing of some of their neighbors. We write feelingly on this subject for a gentleman identified with the ADVANCE did not like to return home with the comparatively small number of birds he was able to shoot himself, but his efforts to buy from the regular gunners of the locality were all frustrated by the fact that certain other gentlemen had just left with very satisfactory purchases. "F. L." of Blackville writes another letter respecting the manner in which the Overseer of that district discharges the duties of his office. He says that in October 1879, waggon loads of illegally caught salmon went to market past his house, stopping, however, in order that the horses might be fed at his door, while their owners bought bottles full of liquor from him. He also asserts that the same was true this fall. "F. L." thinks that this fact together with the Overseer's own son fish ing illegally before his eyes, ought to be sufficient to condemn him. We would like to know from F. L. whether he ever directed the Overseer's attention to the breaches of law to which his letter refers? If they were committed, it was, of course, the Overseer's duty to take cognizance of them at the time, and he must have been very remiss in his duty not to have done so, but in order that he might not be in a position to deny the facts, they should have been brought to his notice at the time. THE CHURCHES. The foundation of the new R. C. Church is nearly completed. The frame will be got out this winter and the work of rebuilding will be pushed vigorously on in the spring. The site of the church has been changed from the eastern to the western side of the grounds, the new building being placed quite near to the highway leading over St. Peter's Village hill. This, although not giving the new building quite such a prominent site as the old one, will allow for the enlargement of the cemetry which was much required. The plans for the new building were prepared in St. John and in point of architectural beauty it will be a creat im-
