Miramichi Advance, CHATHAM, FEBRUARY 17, 1881. Our Ottawa Letter.

Snowball being "now on his way from England, after attending to his own private affairs" and it asks "in what particular he differs from Mr. Hutchison, who was rejected by the people," etc.

The week has been characterized by very few events of importance in the Commons. We were promised the estimates for the ensuing year on Wednesday, then on Friday, but the date of their submission and the Budget speech which is to follow have gone over till next week.

It is noteworthy that when Sir Richard Cartwright was Minister of Finance he always brought down his budget within the first three or four weeks of the opening of the session. His financial statements were models of concision and clear expression, and needed no revision.

Mr. H. R. Stevens—Dear Sir: I have had your FAMILINE in use for nearly three years' standing. When I first saw your patient, a lady of some 50 years of age, she was complaining of a severe neuralgia of the feet, the skin was tense and angry-looking, painful on the slightest touch and liable to break at any moment.

Mr. H. R. Stevens—Dear Sir: I have had your FAMILINE in use for nearly three years' standing. When I first saw your patient, a lady of some 50 years of age, she was complaining of a severe neuralgia of the feet, the skin was tense and angry-looking, painful on the slightest touch and liable to break at any moment.

When I first saw your patient, a lady of some 50 years of age, she was complaining of a severe neuralgia of the feet, the skin was tense and angry-looking, painful on the slightest touch and liable to break at any moment.

The non-elected representatives of New Brunswick, the men who profess to reflect the views and interests of New Brunswick in the Senate, voted as follows:

For the original Syndicate. Against it. For the original Syndicate. Against it. For the original Syndicate. Against it.

What a contrast in the representatives of New Brunswick in the Senate and the House of Commons; of the New Brunswickers, whose seats depended on the voice of the people, ten have voted, and most of them have spoken strongly against the bargain so unaccountably made by the Government, and only five on the opposite side.

The majority cheerfully registered the decrees of the Government. In making a bargain for themselves, how differently they would have acted! In that case, they would have obtained all the advantages they could.

The irrepressible Mr. Bunster from the Pacific, and the equally irrepressible Mr. Donville, from the Atlantic, and other distinguished members of the Dominion Parliament, have been complaining that newspaper correspondents and reporters have not fairly represented them.

Mr. Pope said Hind's charges had caused much excitement in England and the United States. The charges were so outrageous as to be incredible, and to lead to the belief of an improper motive behind them.

Mr. H. R. Stevens—Dear Sir: I have had your FAMILINE in use for nearly three years' standing. virtues of the Short Horn cattle, which breed he believed deserving of first place. They would suit admirably to cross with what cattle we have. Hereford is a good breed, Devon is not, but think suitable; Ayrshires he considered the best adapted for all purposes in general.

Mr. McLaughlin spoke of Hind as a man of ability, who had in the past rendered service to Canada. His conduct in this matter could only be accounted for by his having reached a state of decadence in which he was no longer responsible for his acts.

Mr. Perley spoke favorably of Short Horns crossed with Ayrshires. Mr. Sharpe was glad the Secretary had pointed out that to have good cattle they must have good feed. The people required to be educated up to the feeding of cattle.

Mr. Perley spoke at great length against the proposed stock farm, declaring that the total capital invested would be about \$41,940, that the annual expense would be about \$6,250, that the total sales of the year would be about \$1,000, and that there would be an annual deficiency of \$3,695, which could not be justified to the country.
