BUSINESS NOTICE.

The Miramichi Advance is published at Chatham, New Brunswick, N. B., every Thursday morning. It is sent to any address in Canada, the United States or Europe, at the following rates:

By Mail, in Advance, \$1.00 per Annum; in Advance, \$1.00 per Annum; in Advance, \$1.00 per Annum.

Miramichi Advance, CHATHAM, SEPTEMBER 15, 1881.

Wasting Our Public Lands and Discouraging Our Settlers.

The course pursued by the Government of the Province in reference to our Crown Lands interests, ought to receive much more general attention than it does, because a change of policy is involved in it by which a very important source of revenue is threatened with total extinction.

The bonus sales last year of lands in Kent County, while they were under lease to one of our largest lumber operators, and for the two evident special purposes of raising his business and of raising his business.

As these lands fall into the hands of private parties, the change of ownership has the effect of strengthening the influence in favor of high stampage charges and renders the probabilities of such charges, being lessened or repealed very remote indeed.

A prudent Government would endeavor to bring the expenditure within the income, but ours does nothing of the kind. Instead thereof, it resorts to the exceedingly reprehensible policy of selling off the property of the Province.

The money realized by these forced sales were funded under statute, and the interest only used, the policy might be defended; but when our lands are being frittered away, and all that is obtained for them is spent as soon as received, the outlook is most discouraging.

Let the people wake up to the fact that the Government at Fredericton is selling our public domain and spending the proceeds; that such a policy, if permitted to continue in operation, will soon leave us no income from Crown Lands, because they will have been all sold; that these sales have been made in some instances to carry out personal spite entertained by the Surveyor-General against those engaged in the legitimate business of the country.

Let the people wake up to the fact that the Government at Fredericton is selling our public domain and spending the proceeds; that such a policy, if permitted to continue in operation, will soon leave us no income from Crown Lands, because they will have been all sold.

are so corrupt and short-sighted as to thus waste the substance of the Province and conspire against the freedom of its deserving settlers.

Trifling with Their Party.

Our self-styled Conservative friends appear to be rather unfortunate in the matter of political demonstrations, or rather, the managers would have the rank and file of that party believe they are unfortunate, while they are simply reckless and lacking in both integrity and tact.

Those who, by their bungling, had caused mortification to both the genuine Conservatives and Sir Hector himself in Chatham, realised, some days before Mr. Blake's arrival, that the popular demonstration in the latter gentleman's honor would be a great one, so they set about the task of devising means to divert public sentiment as much as possible from its evident course.

John Doe on the demise of Robert Rankin vs. James Andrew. Mr. Davidson for plaintiff. The case was argued on the 12th inst. before the Hon. Mr. Justice Wetmore presiding.

The case of Doe ex dem Rankin vs. Andrew, was first taken up. This action was brought to recover possession of the property in St. Peter's Village, known as the Sannel Hill. The defendant set up that the house was situated on high water mark, and therefore was the property of the Crown.

Another Patriot on Mr. Blake. The Moncton Times did not receive its instructions to assist the Sun, Advocate and other Tory organs in misrepresenting what was said and done in connection with the Blake demonstration here, until Saturday, 10th inst.

The ladies of St. George's congregation held a picnic on the park grounds here to-day. The weather with the exception of a shower at the close was very enjoyable.

Judge King, who is presiding at the Circuit Court now sitting at Newcastle, was presented with an Address by the Grand Jury on Tuesday, this being his first Circuit in Northumberland. A host of old friends are glad to see him in a position which he fills with such credit and ability.

charged the Government \$4,200 each, or \$100 each per day. Dr. Agnew's bill for the same number of days for "consultations, operations and visits" was \$32,600, and "for a Hamilton for "visits and consultations" rendered a bill for a similar amount.

Hon. Mr. Mackenzie and Mrs. Mackenzie arrived at Quebec from England on Sunday, 4th inst. Mr. Mackenzie's health is said to be completely restored.

Bathurst Notes.

The Gloucester Circuit Court opened on Tuesday last, Mr. Justice Wetmore presiding. Among the legal gentlemen present were Messrs. Seely and MacMillan, of St. John, A. A. Davidson and R. A. Lawlor, of Newcastle, and L. J. Tweedie, of Chatham, besides those of Bathurst.

The Sheriff's Orders contained only one criminal case, that of the Queen vs. Michael Cahill, on a charge of assaulting a peace officer in the discharge of his duty. There was a full attendance of grand jurors. In charging them, His Honor confined himself to the business that would come before them and went very fully into the law relating to the offices of Sheriff and Constable, the powers with which they were vested to preserve the peace, and also the right of the Sheriff to call out the posse comitatus of the County.

The Civil Docket was as follows:—John Doe on the demise of Robert Rankin vs. James Andrew. Mr. Davidson for plaintiff. The case was argued on the 12th inst. before the Hon. Mr. Justice Wetmore presiding.

The Gloucester Silver Mining Company was organized at the Millers Home on Saturday last. The officers are R. B. Call, President, John Sadler, Vice President, John Siveright, Secretary, William A. Hickson, Treas., Sam. Adams, Manager. The company was formed and is to work under a license purchased from the Government by R. B. Call, Esq., some time ago. The company has a capital stock of \$250,000, divided in 50,000 shares of \$5.00 each.

A BEAUTIFUL START was obtained at the first time of asking, Ross catching water first, with Conley next, and the others in afterwards.

THE HON. T. W. ANGLIN arrived here on Friday night last and is making a political speech at the County. He spoke at Pettit's on Sunday last where he was opposed by O. Turgeon and at Clifton last night. He speaks at Tracadie to-morrow evening, Pokemouche, Thursday evening, Shipigan, Friday evening, Carleton, Sunday morning, Grand Anse, Sunday afternoon, and at Bathurst on Tuesday evening the 20th.

The national government gave each year to the manufacturers of this country a direct subsidy out of the treasury on every yard of cotton they made, or on so much of the entire list of articles now protected, the amount to be proportioned to the tax would be denoted to every one. But it cannot be denied that this is tantamount to what it is doing to-day.

whether he pays directly to the manufacturer three dollars more for a coat than the same article would cost him if there was no protective tariff, or pays the same money to the government and then buys the article without restriction? In either event he is out three dollars, only in one case—and this is the all-important question—he pays the money as a tax, while in the other he apparently buys his coat at the lowest market price. Thus the system of protection is a tax in disguise.—Boston Herald.

Correspondence.

MR. EDITOR:—As a considerable number of persons have been discussing one of the mottoes that appeared in the dining hall during the time of Hon. Edward Blake's visit and as many know who wrote the direction for printing it, and also, that the editor of the ADVANCE, whose business, probably, led him elsewhere, did not act with that committee, to which the subscriber had the honor of being appointed a member, I beg leave to quote a few different ways that the motto has been seen in print, and also to send a copy of it in Irish characters furnished the subscriber by one whose authority cannot be questioned. In one paper printed in Quebec in appeared *Ceud mille Falte* and in another from the same Province an *a* was placed after *mille*. In the hall, the motto was *Ceud mille Falte*. In the last number of the ADVANCE, with the exception of two *a*'s in place of one in *mille* it was right. This is the motto in Irish characters:—

Ceud mille Falte

One can easily see which of the above efforts are nearest to being correct. Very respectfully yours, ONE OF THE DECORATION COMMITTEE.

Proposal for a Park.

MR. EDITOR:—It is not without an historical interest, and its claims for scenic grandeur are unmatched in our midst. We, living here, are not exceptions in this impression, for the stranger is moved by similar feelings. What is to be the future of this spot? Will we, in a few short years, see the sloping hills on each side portoned out into farm land, and the present growth of trees and shrubs, succeeded by the cultivation of a few acres of deep well at some place in the suburbs. The powder is to be so placed that cotton interstices will prevent the whole mass from exploding at the same instant, and thus will be kept up for a short time a continuous sheet of fire and confusion, shooting up into mid-air a distance of two miles, and causing such a concussion and such condensation of moisture that a storm centre would be formed and rain precipitated. His theory is based upon the result of the explosion, which he witnessed, of Hollins's Confederate ram at the time of the capture of Admiral Farragut's fleet. He was distant from the explosion eight miles, but the concussion almost knocked him off his feet, and he could see the column of flame and smoke shoot into the air at least three miles high. He also cites the Chicago fire, claiming that rain fell from atmospheric disturbances caused by the fire.—Indianapolis News.

Is it Possible

That a remedy made of such common, simple plants as Hops, Buchu, Mandrake, Dandelion, &c., make so many and such marvellous and wonderful cures as Hop Bitters do? It must be, for when old and young, rich and poor, Pastor and Doctor, Lawyer and Editor, all testify to having been cured by them, we must believe and doubt no longer.—Post.

Perry Davis' Pain-Killer.

Its effects are almost instantaneous, affording relief from the most intense pain. It soothes the irritated or inflamed part, and gives rest and quiet to the sufferer. It is eminently the people's friend, and every one should have it with them, or where they can put their hands on it in the dark, if need be.

Mark This!

Neither glanders, bots, inflammation of the lungs or bowels, stiff joints, ring-bone nor spavin, ever prove fatal or permanently injurious to a horse that gets HARVEY'S CONDITION POWDERS mixed with his feed. Mark this, and profit by it! These great specifics are sold everywhere.

Zepora from Brazil.

As a result of the new commercial enterprise just assuming importance with Brazil, is the introduction of Zepora, so justly celebrated where it is known for the cure of all forms of Indigestion. The company have opened a laboratory in Toronto. Zepora comes to us highly endorsed and recommended, its wonderful affinity to the Digestive Organs, its certainty to relieve and cure Dyspepsia and Constipation, makes this remarkable compound a necessity in Canada. The Company makes sample bottles at the trifling cost of 10 cents. Sold by MACKENZIE & Co., Chatham, N. B.

Mancheater House.

We can vouch for it that Hall's Hair Renewer restores gray hair to its youthful color, prevents baldness, makes the hair soft and glossy, does not stain the skin, and is altogether the best known remedy for all hair and scalp diseases. We therefore, take great pleasure in recommending Hall's Hair Renewer to our readers.

RECEIVED THIS DAY.

THIRD IMPORTATION: LOUNGES, CENTRE TABLES, STUDENT CHAIRS, BED ROOM SUITES, OFFICE CHAIRS, FOURTH IMPORTATION OF MATTRESSES, SHIPS' DO. FEATHER AND FLOCK PILLOWS, BOLSTERS ETC. ALSO Black Cashmires, Special Value, Black French Merinos, Black Persian Cords, Lustre Twills, Courtaud's Celebrated Black Crape, Black and Colored Josephine Kid Gloves. A full assortment of Small Wares. All of which I am offering AT LOWEST PRICES. The one Price Store. JAMES C. FAIREY.

General Business.

Notice is hereby given that the partnership heretofore existing under the name of MERSEREAU & THOMSON has been dissolved this day by mutual consent and the business of

Photographing and Picture Framing

will be continued by Mr. E. H. THOMSON, at the old stand, and all bills due the late firm are payable to him, and all debts owing by them will be paid by him. E. H. THOMSON. Chatham, N. B., Aug. 23rd, 1881.

LOOK THIS WAY!

And learn that having bought Mr. Mercers interest in the above business, I shall continue the same on my own account, and shall, until further notice, make Good Photographs, at the Unprecedented Low Price of \$1.00 Per Dozen. Pictures framed to order. Call and see for yourselves. E. H. THOMSON, Duke Street, Near Canada House. Chatham, N. B., Aug. 23rd, 1881.

Attempt on Giteau's Life.

WASHINGTON, Sept. 12.—Sergeant Mason, of Battery D, Second Artillery, when relieving the guard at the jail here this afternoon, shot at Giteau near the window of his cell and came near killing him. The ball grazed his head and was imbedded in the wall. Mason was promptly arrested, taken to the arsenal and incarcerated. Sergeant Mason has been in the army 15 years. He is a Virginian and states he did not intend to shoot because he was riding over cobble stones every day to guard the life of such a cur as Giteau.

A Rain-Ferrousing Scheme.

Captain J. T. Campbell has a storm theory which he offers as a relief to the drought-stricken community without money or price. He proposes—if sufficient capital be offered in co-operation—to place one hundred kegs of powder in a deep well at some place in the suburbs. The powder is to be so placed that cotton interstices will prevent the whole mass from exploding at the same instant, and thus will be kept up for a short time a continuous sheet of fire and confusion, shooting up into mid-air a distance of two miles, and causing such a concussion and such condensation of moisture that a storm centre would be formed and rain precipitated. His theory is based upon the result of the explosion, which he witnessed, of Hollins's Confederate ram at the time of the capture of Admiral Farragut's fleet. He was distant from the explosion eight miles, but the concussion almost knocked him off his feet, and he could see the column of flame and smoke shoot into the air at least three miles high. He also cites the Chicago fire, claiming that rain fell from atmospheric disturbances caused by the fire.—Indianapolis News.

Wallace Ross's Victory.

A despatch of Monday last, gives the following particulars of the final heat in the great single Scull Race of the Toronto Regatta:—It was well on to eight o'clock when the men faced the starter. As usual, the bay was covered with small crafts, and great difficulty was experienced in getting the course cleared. Even after the race was started several boats had to encroach upon it, fortunately without doing any harm.—When the men got into line, it was found Lee was absent, those facing the starter being Courtney, Hamm, Ten Eyck, Conley and Ross. In the order named, from the shore outward.
