

Miramichi and the North Shore, etc.

PERSONAL.—Hon. Peter Mitchell is about to visit Miramichi. MILLETON Post Office, Derby, has been made a Money Order Office.

SEND OFF.—Jas. P. Mitchell, Esq., who is about to leave Newcastle for Winnipeg, was entertained at a complimentary supper by a number of his friends at the United States Hotel on Monday evening last.

A BLACK BROOK correspondent of the Advocate gives a very entertaining history of the quipping firm of A. & R. Loggie of that place, who as the correspondent says may be the "Miramichi Rothschilds" in ten years.

A SEVERE GALE visited the North Shore last week, causing a good deal of damage to small craft. A barque reported ashore in Bay Chaleur. Two scoops loaded with lumber at Jaquet River were lost. The New Era was obliged on Thursday to discontinue running between Chatham and Newcastle, while the Railway people report their trains as having been endangered by the gale at certain points.

THE LOSTER CANNERS of New Brunswick are invited by circular to meet at the Kent County Court House, Richibucto, at 2 p.m. on the 15th of November, "to consider the best means to adopt, with a view to obtain a more suitable period for a fishing season than at present exists, and to discuss matters relating to the trade generally and to lay the resolutions arrived at before the proper authorities." The meeting has been called by Messrs. H. O'Leary, R. B. Noble, and John H. Bell.

INQUEST.—On Saturday afternoon, at 3 o'clock, an inquest was held by Coroner Dr. J. S. Benson, on the body of a young man named Daniel Jordan, son of the late Timothy Jordan. The deceased was discovered dead about 9 o'clock on Friday evening, near the barn of Mr. Bain, at the corner of Queen St. The stocking and shoe on the right leg were found to be saturated with blood, and from the Torry-burn corner to where he was found, he appeared to have lost blood at every step.

ACCIDENT.—Mr. Robert Nicholson, of Newcastle, member of the Freshman class in the University, met with a severe accident Saturday. He ascended a tree in search of beehives, and was thirty feet from the ground when the limb gave way. In his descent he struck another limb which stunned him, and he fell on the ground heavily, striking his shoulder and back. Two companions carried him to the University, and it was over an hour before the unfortunate young man was restored to consciousness. The sufferer had great difficulty in breathing, and the cause was shown, when shortly before regaining consciousness, he coughed up in a white foam. Mr. Nicholson is now in a fair way for recovery, although he suffers quite acutely from his shoulder and back.—Furmer.

Chatham Rural Deanery.

The clergy of the Rural Deanery of Chatham met in Chatham on Tuesday the 18th of Oct. The clergy present were Rev. D. Forsyth, R. D. Rector of Chatham; J. H. Sweet, Rector of Newcastle; A. F. Hiltz, Rector of Derby; E. P. Flewelling, Missionary of Restigouche; W. J. Wilkinson, of Baie des Vents; Rev. W. B. Armstrong, of Welford, were not present. On Tuesday evening prayer was said in St. Mary's Chapel by the Rev. W. J. Wilkinson; 1st and 2nd Lessons being read by Revs. A. F. Hiltz and E. P. Almon respectively. On Wednesday morning the Litany was said at 9 o'clock by the Rev. J. H. Sweet, after which the Deanery Chapter met at the Rectory at 10 o'clock for the transaction of business.

The study of the Scriptures. The chapter met again at 3 o'clock in the afternoon, and the greater part of the time was occupied in the reading and discussion of a paper on Sunday School Work, by the Rev. A. F. Hiltz. On the evening of the same day evening prayer was said by the Rev. W. J. Wilkinson, the 1st and 2nd Lessons being read by Revs. J. H. Sweet and E. P. Flewelling, respectively. After prayers, highly interesting and instructive addresses were delivered by Revs. Messrs. Almon and Hiltz—by the former on the "Duty of Aiding Home and Foreign Missions," and by the latter on "The Claims of the Revised Version of the New Testament." The chapter then there was a parochial meeting in the Sunday School Room, the purpose of which was to consider the best method of aiding the Diocesan Church Society in maintaining the services of the Church in this Rural Deanery, when another reduction is made in July next in the grant to this Diocese of the Society for the Propagation of the Gospel. The meeting decided that the schedule of the Board of Home Missions, containing the amounts which will be required to be raised in 7 missions within this Deanery, should be revised by the clergy when meeting in chapter on the following day, in order that the additional assessment be distributed according to the circumstances of the missions.

A Committee was appointed to meet on Monday evening the 25th of Oct., at the Rectory to consider the best method of collecting contributions for the special purpose of assisting the missions within the Chatham Deanery.

On Thursday morning the Holy Communion was celebrated at 8 o'clock, and the clergy met in chapter at 10 a.m. The schedule of the Board of Home Missions was examined, and the amount of additional assessment, excepting about \$70, divided among the seven missions of the Deanery which are not self supporting. It was agreed that an effort would be made to raise the \$70 in the Parish of Chatham. The Chapter then proceeded to arrange for the next meeting, which is to be held (D.V.) at Newcastle on the 1st Tuesday in February next.

On Thursday evening the Deanery Service was held in St. Mary's Chapel, at half-past seven. Prayers were said by the Rev. W. J. Wilkinson. The 1st Lesson was read by the Rev. F. H. Hiltz, the Sermon—a very excellent and appropriate one—was delivered by the Rev. J. H. Sweet.

After the service the clergy retired to their respective parishes, after an enjoyable and profitable reunion. On Monday evening, the 22nd of Oct., the committee appointed at the Parochial Meeting above referred to, met at the Rectory for the purpose above mentioned. There were present the Rector, Chairman, R. Carman, Esq., Church Warden, G. A. Blair, W. B. Howard, D. T. Johnsons, Mrs. Blair, Mrs. Howard, Miss Williston, Miss Cair-

man, Miss Vondy, Miss S. P. Benson. After full discussion it was agreed that collectors be appointed by the Rector, to solicit contributions for the special purpose of raising \$70 in this Parish in aid of the other missions within the Deanery. On motion, a list was opened, and \$19 was contributed by the members of the committee. The interest manifested in this matter by those who attended the Parochial Meeting, and the meeting of the committee was highly laudable, and good results may be expected to follow.

Fishery "Concessions."

The following changes have been made in the regulations regarding the smelt fishery, and will put an end to a great deal of the former grumbling that Kent and Westmorland had an advantage of one month over the fishermen of Miramichi. The right to fish above Burnt Church River Bridge should never have been prohibited and has again been restored.

Bag net fishing for smelt in the Miramichi river and its tributaries to commence on the 15th of November, and end on the 15th of February, 1882. The Counties north and south of Northumberland to be governed by one license only.

Main River of the Miramichi only, north and south of its channel, where bag net fishing for smelt is allowed, to be governed by one license only.

Before the Inspector of Fisheries, aided by local Overseers, succeeded in having unnecessary restrictions placed on smelt fishing in Miramichi and at Bathurst the ADVOCATE opposed them very strenuously, while the ADVOCATE sided them. Now that some of the privileges for which we contended are restored, the ADVOCATE calls them "concessions." They are nothing of the kind but simply rights restored after having been confiscated for a time.

It is interesting to observe how easily the ADVOCATE is pleased with whatever the Fishery Department does. It is all the same whether it takes privileges away, or restores them—the ADVOCATE says, yea!

Semi-Annual School Examinations.

On Thursday morning the Semi-Annual School Examinations commenced in District No. 1, with that of the PRIMARY DEPARTMENT in charge of Miss Alexander. The number on the Roll of this school is 60, and the average attendance 45.

Messrs. G. A. Blair and T. Crimmon, Trustees, attended, and among the visitors were F. E. Winslow, Esq., C. G. D. Roberts, A.M., of the High School, and several ladies.

The course in this school embraces Standards I and II. The examination commenced about 9.30 a.m., and after devotional exercises, the small pupils, who seemed to be in excellent health and discipline were set to work in various ways, reading lessons from the black board, printing on their slates from memory, or the black board and reading from the Primer and First Book. They were also exercised in the sounds of letters, forming words from terminations, and in the elementary rules of Arithmetic, both from the blackboard and by means of the ball frame, one of the exercises being constructing tables of sixes.

Miss Alexander also gave her pupils an object lesson on flowers. The neatness with which the children printed and figured on their slates was very noticeable.

The proceedings were varied at intervals with songs and recitations, among the latter of which the following— Cecilia Cormack, "The Baby." Frederick Blair, "Dear Little Dick." Polly Winslow, "Learning Her Letters." Mary McCurdy, "Bed Time." S. Loggie, "The Baby has gone to School."

Mr. T. Crimmon at the close of the exercises briefly addressed the children, expressing on behalf of the trustees, the pleasure the condition of the school had afforded them, remarking that the influence of Miss Alexander's work could be seen in every department, and he trusted that it would continue to be so for many years. He hoped the pupils would be regular in their attendance, and that all would grade next spring, and for the rest of the day he would give them a half holiday.

INTERMEDIATE DEPARTMENT, DIST. NO. 1. On Thursday afternoon, at 2 o'clock the examination of the intermediate Department in charge of Miss Haviland, took place in the school house, St. John Street, at 2 o'clock.

The number of pupils on the roll of this school is 45 and the average attendance 34. The course of instruction embraces standards III and IV.

The Trustee who attended was G. A. Blair, Esq., and there were also a number of the parents of the children present.

The exercises of the various classes consisted of reading, dictation, numeration, the elementary rules of arithmetic, mental arithmetic, the geography of New Brunswick, its physical features and general geographical definitions, and drawing maps of the Province on the slate from memory. Miss Haviland also gave an object lesson with the aid of Prang's illustrations, evolving a comparison between the squirrel and the cat. On the blackboard round the room were some very well executed drawings in curved lines by class A and others in straight lines by class B.

The "Echo Song" was sung very nicely by the children in chorus.

Although some exercises were omitted for want of time, enough was done to show the satisfactory condition of the school, notwithstanding that in some instances want of regularity of attendance, either unavoidable or otherwise, had operated to the disadvantage of individual pupils.

During the afternoon the following recitations were given— Annie Loggie, "Sent to Bed." Cassy Benson, "The Bottom Drawer." Ada McDonald, "Christmas Eve." Louisa Howard, "The Fashions of the Flowers." Lizzie McIntyre, "Going to School." Maggie Johnston, "The years pass on." Susie Gillespie, "The Flowers." Christina Walls, "Letting the old Cat Die."

Alfred Pine, "The Farmer's Boys." MISS WILLISTON'S ADVANCED DEPARTMENT. The hour appointed for the commencement of the examination of this school was one o'clock, on Friday afternoon, but there was no one then present, and the examination was postponed until 2 o'clock, when it was opened.

The number on the roll of this school is 57, and the average attendance about 40. The course consists of standards 5, 6, 7. The Trustees present were G. A. Blair, Esq., and Thomas Crimmon, Esq. Among the visitors were the Hon. Mr. Muirhead, the Rev. A. F. McBrain, Dr. McCurdy, C. G. D. Roberts, Esq., A. M., and W. Whitaker, Esq., of the P. O. Department, St. John, with a number of ladies.

The pupils entered singing, and after taking their places sang a "Greeting Song." Miss Williston was assisted in the examination by Miss Bessie Ullock, who has since gone to the Normal School, Fredericton.

Class A was called upon to read from the 5th book, "The Prairie on Fire" with another piece, and was then examined in

spelling. Much satisfaction was expressed by visitors with the reading of the class; the spelling was very fair, as was also the explanation given of the meaning of words in the last lesson.

Class C showed some questions in addition and multiplication which they had worked on their slates, explaining the different operations performed.

The C Class read from the 4th book "The White Ship," also the poems entitled "The May Queen," and "The Village Blacksmith." The reading was very good, more especially on the part of the girls.

The class was next exercised in spelling and the meaning of words.

The B Class showed Maps of North America which they had drawn on their slates from memory, many of which were very well executed.

Class B read from the 4th Reader, "The Arab and his horse," and another prose piece, also the poem entitled "The Legend of the Heart of Bruce." They were satisfactorily examined on the latter lesson, both as to its meaning and the spelling of words.

The A Class showed Maps of New Brunswick drawn from memory on their slates, the majority of which were very creditable.

The A Class were called for Geometry. They were examined on the definitions of Plane Geometry, and also proved several theorems on the blackboard.

The A Class were examined in Gram mar, particularly in parsing from sentences written on the blackboard, writing out the exercise on their slates.

The B and C Classes were amalgamated and examined in the Geography of New Brunswick, also its physical features, minerals, political history, etc. The examination was extended in a similar manner to the whole of North America. The pupils were afterwards examined by Mr. T. Crimmon.

Class C showed essays they had written on their slates on the subjects of "Plants." The writing in many instances was very neat and the composition good.

Class B was examined in Canadian History from the settlement of the country up to the siege of Quebec.

The examination was a very satisfactory one, and the lateness of the hour prevented several other subjects from being taken up, but we may add that the drawing books of the revised edition shown by scholars were very creditable.

Mr. Thomas Crimmon at the close said that there was one matter he had to mention in the name of the trustees, and although it was not of much importance, it was only right that the time the children had been kept waiting in commencing the examination should be made up to them, and he must, therefore, request Miss Williston to allow them a couple of hours some day next week. He was much pleased with the half year's work, but next week the grading of the schools would find them out, and he trusted that every child would stand this test successfully.

In behalf of the scholars, We remain, Dear Teacher, Yours truly, THE COMMITTEE.

Mr. Duke in reply to the address spoke briefly of his continuous agreeable relations with the school from the time of his first connection with it. So far from forgetting his pupils, he would remember the kind faces and loving hearts which had made them separation so touching.

He had presented him, and their address he would preserve among his prized papers. Nothing could be more pleasing to a teacher than the thought that he had won the hearts of those he taught, and the remembrance of this must always be a source of satisfaction hereafter, however, time and distance might separate them.

INTERMEDIATE DEPARTMENT, NO. 1. PATRICK'S HALL. On Tuesday morning the examination of the Intermediate Department in charge of Miss Duffy took place in the St. Patrick's Hall building.

In this school there are 50 pupils on the roll, the average attendance being 36. The standards embraced are 1, 2, 3, and 4, and the ages of the children range from about 6 to 15 years.

The Trustees present were G. A. Blair, Esq., and Thomas Crimmon, Esq., and among the visitors were Miss Alexander, C. G. D. Roberts, A.M., of the high school and Mr. Cunningham.

The examination was conducted on the usual subjects taught in this department, including reading, exercises on the ball frame, elementary arithmetic, drawing maps of New Brunswick on the slate, and physical exercises. The reading was very fair, also the arithmetic and the map drawing, and it will be seen from the remarks of the Trustees, that the satisfactory progress of this school, which was remarked at the last examination, still continues, and that the discipline is all that can be desired.

The boys recite with considerable spirit. The recitations given were as follows— Henry Carroll, "What the Sparrow Cornelius O'Keefe," Chirps, James Keary, "The Little Bird that Tells."

Michael McPherson, "Boys' Talk." T. Connors, Willie Ronan, "The Little Angel." W. Cassidy, "The Red and Black Lollers." Albert Murphy, "The Trades."

G. A. Blair said he was much pleased with the improvement since last examination, the scholars looked neat and well, and he regretted he was unable to remain longer with them.

T. Crimmon, Esq., said he was glad to see so many pupils, commencing with Miss Horgan's department, Rose Bank, on Wednesday forenoon. This school embraces standards I to IV, inclusive. The pupils were examined in all the branches embraced in said standards, in presence of Trustee Hays and Miss McDonald, Teacher from the intermediate grades of the Town schools, and did remarkably well.

Miss Horgan, having determined to leave the Province, resigned her school last month, and will be succeeded, it is understood, by Miss Mary Carney, of the place, who has been teaching in Restigouche for some time.

Miss McDonald's department, embracing standards III, to V, inclusive, was examined on Thursday morning, in pres-

ence of Hon. R. Hutchison, and Messrs. Wm. Porter and Patrick Hays, Trustees, Sec'y Henderson, and a goodly number of visitors. Messrs. Hutchison, Henderson, and McIntosh, and Misses Horgan and Russell took part in the examination, and tested the pupils' knowledge of the several subjects required of pupils in those grades. They acquitted themselves, not only with credit to themselves, but also to their Teacher, who, though only having had charge of the school for the last term, has made a marked improvement in the pupils under her control.

In the afternoon the Primary Department taught by Miss Porter, and consisting of the first two standards, was examined. The Trustees, Sec'y, and numerous visitors were present. Although Miss Porter has only had charge of this school for about three and one-half months, yet the progress made by the pupils since she commenced work is plainly to be seen by any one visiting the school. At the conclusion of the examination, the Trustees and Sec'y, as at Miss McDonald's school, addressed the pupils, and gave them some kindly and good advice, which, let us hope, will bring forth fruit. They also complimented the teachers on the good amount of work they had done.

Mr. McIntosh, the advanced—having been examined in the last of August, he did not hold an examination this fall. Mr. McIntosh and Miss Horgan's ranked first at the annual visit of the Inspector, but owing to the other teachers having had charge of their schools for a term each, they were not eligible for ranking.

Yours, &c., E.

Presbytery of Miramichi.

The Presbytery held a stated meeting in Bathurst, on Tuesday, Oct. 25th. There were present Messrs. MacKenzie, Nicholson, McArthur, McBrain, Herdman, and Quinn, with the pastor of the place of meeting, ministers: A. W. Bassett, of Newcastle, elder: Of those absent Mr. Aitken has not returned from Scotland yet, and Messrs. Murray, Russell, and Robertson sent excuses.

The business was chiefly routine. Reports were read from two catechists, Messrs. Fitzpatrick and Carriere, who have done efficient work in New Brunswick and the Caraque districts respectively. Those that know the fields, their extent and remote position, are aware of the difficulties to be encountered. All things considered the results are very satisfactory. The amounts remaining due in each case were recommended to be paid by the Home Mission Board.

Considerable time was given to the consideration of the wants of the lumbermen, and as associated with our lumber region resident missionary in the Restigouche and its branches. It was resolved to prosecute this matter as vigorously as the resources at the disposal of the Presbytery will allow.

A report on students exercises was presented and adopted, and a copy of that on each student was ordered to be sent to him. The productions were honestly criticised by the Committee, but they were all approved and recommended to their respective Colleges.

In accordance with the recommendation of Synod it was arranged to hold Presbytery visitations in one-half of the congregations under the care of the Presbytery during the winter. Considering the extent of territory involved, it was deemed impossible to visit all in one season.

This year the southern half was selected as there are several congregations there that have not been visited for a long time. Those to be visited were arranged in three groups, and two ministers and an elder were appointed to each group.

In the evening a public meeting was held in the church and addresses of great interest and value were given as follows: Mr. MacKenzie on Church Courts; Mr. Quinn on Infant Baptism; Mr. McArthur on the Shorter Catechism, and Mr. Herdman on a Profitable way of reading the Scriptures. All the addresses were of great ability and in excellent taste. The severity of the evening prevented many from enjoying and being profited by the bill of fare furnished. It is intended to hold such meetings regularly on the evenings of meetings.

Presbytery adjourned to meet in Douglastown on the first Tuesday of February at 11 o'clock in the forenoon.

It should be noted that leave was granted to moderator in a call in St. Andrew's Church, Chatham, on an early day.

The New Wing of the Lunatic Asylum. The new wing of the Provincial Asylum at Fairville, is almost completed. Mr. Lawlor, the contractor, says there is only six weeks more of work to be performed. The walls are all up and the roof is being rapidly boarded in. The "wing" has a frontage of fifty-eight feet and a depth of 123 feet. The main walls are hollow, being composed of a twelve inch wall and an eight inch one, and nearly all the division walls are hollow. The walls of the building are constructed in this way to admit of better ventilation and heating accommodation than is possessed by the main building. Thirteen hundred feet of eight inch pipe is used for the heating alone, and there are 800 feet more of 8-inch four-foot flues. The heating apparatus is being fitted up with a boiler in the basement, but some of the heat will be obtained by connection with the pipes of the main building. The plastering work, which is not commenced yet, is to be done in a most thorough style, and the interior work will be done with a view to securing all possible sanitary advantages. Six hundred thousand bricks, from Lee Brothers yard, were required for the building, and the masonry work is very thoroughly done. The "wing" will accommodate about eighty persons. This quantity can be secured from the overcrowded main building, and it is only a question of time when the Provincial Asylum will have to be still further enlarged to meet the increasing number of candidates for admission.—News.

General Notes and News.

Judge Charles J. Folger, of New York, has been confirmed for Secretary of the United States Treasury, Governor Morgan having declined the position. Frank Hatton of Iowa, was also confirmed for first Assistant Postmaster General.

While a coal train was putting empty cars on a siding at Stellarton, N. S., early on Wednesday morning the 29th ult., the train broke apart and the fireman, Wm. Fleming who left the engine to assist the brakeman in stopping the forward part, fell between the cars and was killed.

J. B. Charpentier had his foot caught in the rails of the Quebec, Montreal, Ottawa, and Occidental Railway at Lacheroiviere on 24th ult. When he saw a train approaching he shouted and endeavored to extricate his foot, but to the horror of

everyone who saw the occurrence, the train came thundering down upon him. The next instant he was a mutilated corpse.

A Dr. Dupuis, of Kingston, Ont., publishes a letter stating that when in London last July, he met Professor Erasmus Wilson, of the Royal College of Surgeons, who last summer had been called in consultation on the Princess Louise's case. Dr. Wilson stated that the Princess was very badly injured by the accident at Ottawa, and that after reaching England very serious results were threatened from the injury to Her Royal Highness's head. From another source it is learned that pieces of broken glass were extracted from her ear by the English surgeons.

Those who interest themselves in the conflicting rumors current respecting the cause of the Princess remaining in England, wonder why Dr. Dupuis and others have so long remained silent in reference to a matter which so nearly concerns the public, and why so many authorities say "another source" should be quoted just now in reference to the glass surgery.

A Much-Wronged Candidate.

NEWCASTLE, Oct. 30th, 1881. To the Editor of the Miramichi Advance. SIR:—I return my most hearty thanks to the electors who accorded me their generous support on the 25th inst. Although I have not been elected a Councillor for this Parish, I may state that I intend contesting this County next summer for the Local Legislature. I may here state that despite the despicable influence brought to bear against me, I polled well. Ledger influence, the power of mill-owners, executions placed in my hands against the poor for taxes, conspired largely to secure my defeat. I may also observe that damaging statements such as non-qualification and belonging to a secret society told largely against me. I ran the independent ticket, but the opposition placed my name on their ticket without my knowledge or consent, thereby securing to them many votes. My opponents, instead of acting honorably in a fair field of fight, used every dishonorable means to prevent my election. Lying statements in bar-rooms, coupled with the fact that I was offered a bribe to withdraw, showed most clearly that they considered my success certain, and in order to defeat my election they used these base means. Although other Candidates are declared elected as Councillors, yet legally their election is null and void. I intend taking steps to unseat these councillors, having received advice from a prominent lawyer that should I do so, there would be little trouble. Before concluding I wish to ask the Chairman who presided at the polling place in Lower Newcastle,— 1st, Were the nominations of Candidates and their nominees read and signed by you as Chairman in presence of the voters? 2nd, Were there four Tellers and were they sworn by you as Chairman? 3rd, Did you receive all tickets and deposit them in the ballot box, independent of any electors? More anon. W. F. SMALLWOOD.

At Chatham, N. B., on Sunday afternoon, 30th ult., of whopping cough, Edith Josephine, aged nine months and eight days, only daughter of D. T. and Maria Kearewell, died.

Oct. 22, 1881, at St. John, N. B., of inflammation of the brain, Jane Kerr, beloved wife of George F. Kerr, of Chatham, aged 38 years, leaving a husband and seven children, with a large circle of relatives and friends to mourn their loss, she was a noble, hearty woman and a kind and faithful wife and mother.

Here thy loss we deeply feel; But 'tis God that has bereft us; He can call our sorrow dead.

Yet again we hope to meet thee; When the day of life is fled; Then in heaven with joy to greet thee; Where no farewell part is shed.

On the 20th inst., Agnes Cherry, daughter of William and Anastasia Cherry, of diptheria, aged 19 years.

On the 2nd inst., Lilly Cherry, of diphtheria, aged 12 years.

The funeral will take place to-day at 2.30 p.m.
