The fact that she was alone in the house did not disturb her in the least, and in a minute she was fast asleep.

Sometime in the night she was suddenly awakened by the ringing of the telephone bell. She listened confusedly to hear if it rang three times, which was the toll gate signal, or oftener to call up some of the other people on the same wire. Two of the connections she knew were in Leicester, the third and fourth was in the Barrington Bank, the fifth in the tannery, and the sixth in the central office at Barrington. When were the robbers expected? Jennie had made a little calculation. It is neither wrapped in tin foil nor worked into fancy shapes, nor put in any fancy cases, nor subjected to any kind of expense merely to please the eye or captivate the fancy. The manufacturers rightly believed that tobacco was not purchased for ornament, but for smoking, and therefore all extrane. ous expense was avoided and added to the quality of the tobacco. The public have testified in its case that they prefer paying their money for a high quality of article than for ornament out of place.

NEW HAMBURG, ONT, Dec. 28th, 1881, Mr. F. H. The lameness is entirely gone after using half a bottle of the cure. and she is like a young horse again. Yours truly,

From the Oneonta Press, N. Y. ONEONTA, NEW YORK, Jan. 6th, 1881. Early last summer Messrs. B. J, Kendall & Co. of Enosburg Falls. Vt., made a contract with the publishers of the Press for a half column advertise ment for one year settl g forth the merits of Kendall's Spavin Cure. At the same time we ured from the firm a quantity of books, entitled Kendall's Treatise on the Horse and his Diseases, which we are giving to advance paying subscribers to the Press as a premium About the time the advertisement first appeared in this paper, Mr. P. G. Schermerhorn who resides near Colliers, had a spavined horse. He read the advertisement and concluded to test the The other pushed and the great bar laughed at his credulity. He bought a bottle of Kendall's Spavin Care and commenced using it on the horse in accordance with the directions, and he informed us this week that it effected such a complete cure that an expert horseman, who examined the animal recently could find no trace of the spavin or the place where it had been located Mr. Schermerhorn has since secured a copy of Kendall's Treatise on the Horse and his Diseases
