

THE SUPERANNATED HORSE TO HIS MASTER.

The following verses were found in a collection of "Epigrams, etc." one hundred and fifty years old. The master is said to have been Rev. Mr. Potter, of Scarning, in Norfolk, England.

And must thou fix my doom, sweet master, say?
And wilt thou kill thy servant, old and poor?
A little longer let me live, I pray;
A little longer hobble 'round thy door.

For much it glads me to behold this place,
And house within this hospitable shed;
It glads me more to see my master's face,
And linger near the spot where I was bred.

For, ah! to think of what we both enjoyed
In my life's prime, ere I was old and poor,
When from the jocular morn to eve employed
My gracious master on this back I bore.

Thrice told ten years have danc'd on down along,
Since first these way-worn limbs to thee I gave;
Sweet-smiling years! when both of us were young—
The kindest master, and the happiest slave.

Nor could'st thou bear to see thy servant bleed,
Thou' weeping pity has decreed his fate;
Yet, ah! in vain, thy heart for life shall plead,
If nature has denied a longer date.

Alas! I feel 'tis Nature dooms my death,
O me! I feel 'tis Fly gives the blow;
Yet ere it falls, ah, Nature! take my breath,
And my kind master shall no sorrow know.

HINTS FOR HORSE OWNERS.

Sunflower Seed for Horses.—The sunflower seed is very healthy feed for the horse, and should be given in quantities about half a pint a day during the winter and spring, which will cause them to have a sleek coat, and will keep them in good health and spirit. It is considered by many who have tried it to be a preventative of heaves, and several have claimed to have cured heaves with it, as well as coughs and distemper. When used for heaves, mix two bushels of oats and one of the seed, and have it ground, then feed two quarts of the mixture, wet with water, three times a day. Always remember to feed hay and water as we direct in the treatment of heaves in another place.

A Horse's Foot.—A horse with a poor foot is many times almost worthless. One of the most frequent causes of poor feet is in allowing the blacksmith to pare the hoof too much, especially the frog, which never should be pared under any circumstances.

Balky Horses.—The most effectual method of starting a balky horse is to divert his attention so he will forget that he does not wish to draw the load. This may be done in various ways. A stout string twisted around the foreleg, so as to cause some pain, and to stop the circulation for a short time, may have this result. Unhitch the horse from the load, and turn him around rapidly several times until he becomes dizzy. Tie a string around the ear. Give a handful of grass, or a lump of earth or sugar, or, in fact, anything but whipping, which will have the effect to divert the attention so the horse will forget his work.

Bots Destroyed by Feeding Potatoes.—It is claimed by some that bots will not live but a short time if placed in grated potato, and that horses have been relieved from attacks of bots by simply feeding four or six quarts of potatoes. At all events, it is well known that potatoes fed once a week are excellent for horses.

The Quantity of Food Required for a Horse.—For ordinary work, a horse of average size should be fed 12 pounds of oats, or other grain food, and 15 to 18 pounds of good hay; but, if driven on the road, 2 or 3 pounds of hay, morning and noon, and 8 or 10 at night, with the same quantity of grain.

Lice on Cattle, Horses, or Dogs.—To rid an animal of lice, apply a small quantity (the size of an ordinary pill) of mercurial ointment to some part which the animal can not lick.

Charcoal for Fowls.—Place an ear of ripe corn into the fire, and allow it to remain until it has become well charred, and feed this to your fowls. It is much better than ordinary charcoal, and will give health and vigor.

Black-Leg.—This disease attacks young and thriving stock, and usually proves fatal unless seen and treated early. The symptoms are those of plethoria, fever, and hating on one limb. Give at once half a pound of epsom salts and a teaspoonful of ginger. It is claimed by some that saltpetre, given occasionally, is a preventative, or, if given in large doses, after the attack, in quantities varying from one to four teaspoonfuls, according to the age, is quite sure to effect a cure.

Hoven, Drum-belly, or Clover Bloat.—This is a bloating of cattle, caused by overfilling the paunch, and in too quick a time, before the stomach has time to act upon it. The symptoms are swelling of the whole left side of the belly.

Treatment should begin as soon as possible by giving, every fifteen minutes, one teaspoonful of pulverized charcoal in a pint of water. If the case should prove to be one which would not yield to the above treatment, then tap the bloated animal by plunging a sharp knife into the left side in a downward and inward direction, from a point equally distant from the hipbone, the last rib and the lateral processes of the backbone. The knife should remain in the opening until a quill can be inserted for the gas to pass through, when it can be withdrawn. Care should be taken not to let go of the quill. A trocar and cannula can usually be obtained from a physician, which is the best instrument that can possibly be obtained for this purpose.

Sulphur for Animals.—When taken internally in quantities of about a teaspoonful once a week with food, sulphur will keep all kinds of animals free from lice, and promotes the general health. One teaspoonful is sufficient for ten or twelve hens, or three or four sheep or pigs. The same quantity of charcoal can be combined with it with good results.

VALUABLE RECEIPTS.

Heaves.
No. 1.—Sunflower seed, 1 bushel; oats, 2 bushels. Mix, and grind together, and feed two quarts of the mixture three times a day. Give hay and water as directed in treating heaves.

No. 2.—Liquorice, elecampane, wild turnip, fenugreek, skunk-cabbage, lobelia, cayenne, and ginger, equal parts of each. Mix, and give a tablespoonful once or twice a day. If the horse refuses to eat it in feed, make it into a ball and give.

No. 3.—Assafetida, pulverized, 1 ounce; camphor-gum, pulverized, 1 ounce. Mix, and divide into four powders; feed one every other night for a week.

No. 4.—A horseman with whom I am acquainted says he has cured several cases of heaves with oil tar. He gives the ordinary case a teaspoonful every night, or every other night, by pouring it on to the tongue, and then giving some grain, which carries it into the stomach.

He says he has given very bad cases two or three tablespoonfuls at a dose, with grand results. He reports it to be the best remedy in use, and also good for any cough, or to put a horse in good condition; in fact, it is his "cure all."

Contracted Hoof or Sore Feet.
No. 1.—Take equal parts of soft fat, beeswax, linseed-oil, Venice turpentine, and Norway tar; first melt the wax, then add the others, mixing thoroughly. Apply to the edge of the hoof once a day.

No. 2.—Take of castor oil, Barbadoes tar and soft soap, equal parts of each, melt all together and stir while cooling, and apply a little to the hoof 3 or 4 times a week.

For Scatches and Grease Heel.
No. 1.—Take of oxide of zinc, 1 drachm; lard, 1 ounce; powdered gum benzoin, ten grains; camphorated spirits, 1 drachm. Mix thoroughly and rub on twice a week. Do not wash after the first application.

No. 2.—It has been reported to us that Kendall's Spavin Cure, applied twice a day, after washing as above, will always effect a cure when other remedies fail. It is well usually to give condition powders: saltpetre, 4 ounces; sulphur, 8 ounces; coppers, 4 ounces; fenugreek, 12 ounces; gentian, 4 ounces. Mix, and give a tablespoonful twice a day.

Condition Powders.
No. 1.—Gentian, fenugreek, sulphur, saltpetre, cream of tartar, of each two ounces; rosia, black antimony, of each 1 ounce; ginger, liquorice, 3 ounces each; cayenne, 1 ounce, pulverized and mixed thoroughly; dose, 1 tablespoonful once or twice a day, mixed with the feed; used with good success for coughs, colds, distemper, hide bound, and nearly all diseases for which condition powders are given.

No. 2.—Fenugreek, 4 ounces; ginger, 6 ounces; anise, pulverized, 4 ounces; gentian, 2 ounces; black antimony, 2 ounces; hard-wood ashes, 4 ounces; mix all together; excellent to give a horse an appetite.

No. 3.—Liquorice, 4 ounces; fenugreek, 4 ounces; elecampane, 4 ounces; blood root, 1 ounce; tartar emetic, 1/2 ounce; ginger and cayenne, each, 1 ounce. Mix, and give a tablespoonful two or three times a day in the feed. One of the best condition powders for any cough, cold, distemper, or epizootic; also excellent for heaves. For heaves, 1 ounce of lobelia and camphor may be added.

Liniments for Horses.
No. 1.—Olive oil, 2 ounces; aqua ammonia, 1 ounce. Mix; and add 2 ounces oil origanum; 2 ounces spirits of turpentine; 1/2 ounce oil of wormwood; strongest alcohol, 1 pint. This liniment is excellent for any lameness; also good for spavins, ringbones, curbs, etc., if used when they make the first appearance.

No. 2.—Oil of spike, 1 ounce; oil of origanum, 4 ounces; aqua ammonia, 2 ounces; tincture of cayenne pepper, 4 ounces; beef's gall, one gill; camphor gum, 1 ounce; alcohol, 1 pint; mix; used for the same purposes as No. 1.

No. 3.—Best vinegar, 1 quart; saltpetre, pulverized, 4 ounces; wormwood, 4 ounces. Mix, and steep in a dish well covered; strain and press the herbs; valuable for bruises, swellings, and sprains.

No. 4.—For all purposes for which an external liniment is used on any beast, or on human flesh, we never have found anything to equal Kendall's Spavin Cure.

Eyewater.
No. 1.—White vitriol and pure saltpetre, of each one scruple; pure soft water, 8 ounces. Mix. This should be applied to the inflamed lids 3 or 4 times a day, and if the inflammation does not lessen in 1 or 2 days it may be injected directly into the eye.

The writer has used this for his own eyes, reduced half with water and dropped directly into the eye, which would cause the eye to smart considerably for about five minutes, when he would bathe the eye with cold water for a few minutes, and, by repeating this 3 or 4 times a day, it has given the very best of satisfaction.

It does nicely many times to just close the eye and bathe the outside freely.

No. 2.—Sugar of lead, 1 drachm; tincture of opium, 2 drachms; soft water, 1 pint. Mix, and wash the eye 2 or 3 times a day.

For Colic.
No. 1.—Take of gum myrrh, 1 ounce; gum camphor, 1 ounce; powdered gum guaiac, 1 ounce; cayenne, 1 ounce; sassafras bark, powdered, 1 ounce; spirits turpentine, 1 ounce; oil origanum, 1/2 ounce; oil hemlock, 1/2 ounce; pulverized opium, 1/2 ounce; strongest alcohol, 2 quarts; mix all together and shake often for eight or ten days and filter or strain through flannel. Dose from 1 to 3 tablespoonfuls, according to the severity of the case; give in a pint of milk.

We never have known the above remedy to fail of giving relief when given for colic, in horses. In many cases where it has been used it has given immediate relief even though various other remedies had failed of giving any relief.

It makes one of the very best of Pain Killers for family use, and we advise all to keep it on hand.

No. 2.—Take of landanum, 1 ounce; spirits of turpentine, 1/2 ounce. Mix, and give at one dose, in three times the amount of warm water.

No. 3.—Sulphuric ether, 1/2 ounces; landanum, 1 ounce; essence peppermint, 2 ounces; water, 16 ounces; mix, and shake well before giving.

Cuts, Wounds, and Sores.
No. 1.—Take of lard, 4 ounces; beeswax, 4 ounces; rosia, 2 ounces; carbolic acid, 1/2 ounce. Mix the three first and melt, then add the carbolic acid, stirring until cool. This is excellent for man as well as beast.

No. 2.—Tincture opium, 2 ounces; tannin, 1 ounce. Mix.

No. 3.—Carbolic acid, 1 ounce; soft water, 1 quart. Mix.

No. 4.—For cuts, bruises, wounds, or sores, apply Kendall's Spavin Cure, which is one of the best applications for this purpose known either for beast or man.

Poll Evil and Fistula.
No. 1.—Coppers, 1 drachm; blue vitriol, 2 drachms; common salt, 2 drachms; white vitriol, 1 drachm; mix, and powder fine. Fill a goose-quill with the powder, and push it to the bottom of the pipe, having a stick in the top of the quill, so that you can push the powder out of the quill, leaving it at the bottom of the pipe; repeat again in about four days, and in two or three days from that time you can take hold of the pipe and remove it, without trouble.

No. 2.—Take a small piece of lunar caustic, place in the pipe, after being cleansed with soap-suds, then fill the hole with sweet-oil.

No. 3.—Fill the sore to the bottom with ashes from burnt corn-cobs; repeat two or three times if necessary, or until a cure is effected.

Bots.
Take new milk, 2 quarts; syrup, 1 quart. Mix, and give the whole; and, in fifteen or twenty minutes after, give 2 quarts of warm, strong sage tea; half an hour after the tea, give 1 quart of raw linseed-oil, or if the oil cannot be had, give lard instead.

Saddle and Harness Galls, Bruises, Etc.

No. 1.—Tincture of opium, 2 ounces; tannin, 2 drachms. Mix, and apply twice a day.

No. 2.—Apply directly into the sore Kendall's Spavin Cure, as it has been tried repeatedly with the very best of results.

Anodyne Drenches.
No. 1.—Tincture of opium, 1 ounce; starch gruel, 1 quart. Mix.

No. 2.—Sweet spirits of nitre, 1 ounce; tincture of opium, 1 ounce; essence of peppermint, 1/2 ounce; water, 1 pint. Mix.

No. 3.—Tincture of opium, 1 ounce; spirits of camphor, 1 ounce; anise, 1/2 oz.; sulphuric ether, 1 ounce; water, 1 pint. Mix.

Farcy and Glanders.
No. 1.—Iodide of potassium, 1/2 drachms; coppers, 1/2 drachm; ginger, 1 drachm; gentian, 2 drachms; powdered gum arabic and syrup, to form a ball.

No. 2.—Calomel, 1/2 drachm; turpentine, 1/2 ounce; blue vitriol, 1 drachm; gum arabic and syrup, to form a ball.

No. 3.—1/2 ounce sulphite of soda; 5 grains Spanish flies, powdered. Mix, and give at night in cut feed for several weeks; give at the same time, every morning and noon, 3 drachms powdered gentian, 2 drachms powdered blue vitriol; give the medicines for a long time; feed well. This is the best treatment that can be given for these diseases.

Fever Balls.
No. 1.—Saltpetre, 2/3 drachms; tartar emetic, 1/2 drachm; flaxseed meal, 1 ounce; camphor, 1/2 drachm; ginger, 2 drachms. Mix, and form into a ball; repeat three or four times a day, if necessary.

No. 2.—Tincture of aconite, 10 drops; tartar emetic, 1/2 drachm; saltpetre, 1 drachm; ginger, 2 drachms; linseed meal, 1 ounce. Mix, and form into a ball; repeat three or four times a day if necessary.

Diuretic Balls.
No. 1.—Saltpetre, 3 drachms; rosia, 4 drachms; castile soap, 2 drachms; fenugreek, 3 drachms; flaxseed meal, 1 ounce. Mix, and form into a ball.

No. 2.—Oil of juniper, 1 drachm; rosin and saltpetre, each, 2 drachms; camphor, 1/2 drachm; castile soap, 1 ounce; flaxseed meal, 1 ounce. Mix, and form into a ball.

Cordial Ball.
No. 1.—Camphor, 1 drachm; anise, 3 drachms; tincture of opium, 1 ounce; powdered extract of liquorice, 3 drachms; flaxseed meal, 1 ounce. Mix.

Astringent and Cordial.
No. 1.—Opium, 12 grains; camphor, 1/2 drachm; catechu, 1 drachm. Mix.

No. 2.—Opium, 10 grains; camphor, 1 drachm; ginger, 2 drachms; castile soap, 2 drachms; anise, 3 drachms; liquorice, 2 drachms. Mix.

Cough Mixtures.
No. 1.—Oil of tar, given as directed for treatment of heaves, is one of the best remedies for nearly all coughs.

No. 2.—Take of alcohol, 1 pint; balsam of fir, 2 ounces. Mix well, and add all the tar it will cut. Shake well before using. Dose from one to two teaspoonfuls two or three times a day.

Cracked Heels.
Tar, 8 ounces; beeswax, 1 ounce; rosin, 1 ounce; alum, 1 ounce; tallow, 1 ounce; sulphate of iron, 1 ounce; carbolic acid, 1 drachm; mix, and boil over a slow fire. Skim off the filth, and add 2 ounces of the scrapings of sweet elder.

Thrush.
No. 1.—Wash the feet well with castile soap and water, and sprinkle a small quantity of pulverized blue vitriol in the cleft, and then fill up all the cavities with cotton and press it in so as to keep out all dirt, and repeat as often as necessary until the cure is complete.

No. 2.—Blue vitriol and coppers, of each 1 ounce; burnt alum, 2 ounces; white vitriol, 1 ounce. Mix.

Nasal Gleet.
No. 1.—Coppers, 2 ounces; pulverized gentian, 3 ounces; elecampane, 1 ounce; linseed meal, 3 ounces. Mix, and give from 1/2 to 1 tablespoonful twice a day.

No. 2.—Aloe, 6 ounces; pulverized nux vomica, 3 drachms; flaxseed meal, 4 ounces. Make into eight powders, and give one or two each day.

Water Farcy.
No. 1.—Saltpetre, 2 ounces; coppers, 2 ounces; ginger, 1 ounce; fenugreek, 2 ounces; anise, 1 ounce; gentian, 1 ounce. Mix and divide into eight powders; give two or three each day.

No. 2.—Gentian, 1 ounce; ginger, 1 ounce; anise, 1 ounce; elecampane, 2 ounces; blue vitriol, 1 ounce; flaxseed meal, 2 ounces; saltpetre, 2 ounces. Mix, and divide into eight powders. Moderate daily exercise and rubbing the limbs are useful.

Healing Preparations.
No. 1.—Carbolic acid, 1 ounce; soft water, 2 pints. Mix.

No. 2.—White vitriol, 1 ounce; soft water, 2 pints. Mix.

No. 3.—Tincture of opium, 1 ounce; tannin, 1 drachm. Mix, and shake well before using. Excellent for all of collar, saddle, or, in fact, for any purpose requiring a healing astringent.

Healing Mixture.
Cosmoline, 8 ounces; carbolic acid, 1 drachm. Mix. This is one of the very best of mixtures for any sore, especially for such cases as are inclined not to heal readily.

To Cure Mange.
Oil Tar, 1 ounce; lac sulphur, 1/2 ounces; whale oil, 2 ounces. Mix. Rub a little on the skin wherever the disease appears, and continue daily, for a week, then wash off with castile soap and warm water.

To Grow Hair.
Mix sweet-oil, 1 pint; sulphur, 3 ounces. Shake well, and rub well into the dock twice a week.

For Worms.
Calomel, 1 drachm; tartar emetic, 1/2 drachm; linseed meal, 1 ounce; fenugreek, 1 ounce. Mix, and give in feed at night, and repeat the dose for two or three times, and follow with 1/2 pint of raw linseed-oil, about 6 hours after the last powder has been given.

Grease Heal.
Chloride of zinc, 1/2 drachms; water, 10 ounces; glycerine, 8 ounces. Mix. If there is much discharge, apply a poultice for several hours, followed by application of the above, after cleansing well with soft water and castile soap. The following powders should be given at the same time in the feed, every night, for a week or two: Bicarbonate of soda, 1 ounce; arsenic, 1 drachm; iodide of iron, 1 ounce; fenugreek, 2 ounces; ginger, 2 ounces; elecampane, 1 ounce. Mix thoroughly and divide into 12 powders.

For Distemper.
Hops, 2 ounces; carbolic acid, 30 drops; boiling water, 2 gallons. Mix the hops and carbolic acid with the boiling water, and compel the animal to inhale the steam for 15 or 20 minutes at a time, and repeat three times a day. Apply a strong mustard paste to the throat, and place a warm poultice over the paste. Feed warm mash and boiled vegetables; keep the stable comfortably warm and the air pure. Give the following powders once a day: Powdered Peruvian bark, 2 ounces; powdered gentian, 1 ounce; powdered coppers, 1 ounce. Mix, and divided into 8 powders.

Thrush.
Take white vitriol, 2 ounces; soft water, 8 ounces. Mix, and apply to the diseased surface, after the ragged parts have been cut away and thoroughly cleansed. Pack the cavities with cotton batting, so as to keep out all dirt.

For Ringworm.
Apply mercurial ointment 3 or 4 times a week.

The above cut is a good representation of the New Laboratory and Manufactory of B. J. Kendall & Co., Enosburgh Falls, Vt., proprietors of the celebrated Kendall's Spavin Cure.

The great success which has been achieved with Kendall's Spavin Cure, in all parts of the United States, has never before been equalled, and is now considered by the first veterinary surgeons and most extensive horse owners in the country, to be the grandest discovery in veterinary science of the nineteenth century.

It is giving the very best satisfaction wherever used. It does not blister or cause any sore, which makes it a desirable liniment for use on man as well as on beast, and it is sure in its effect.

It has no equal, to our knowledge, for spavins, splints, ringbone-curb, callous, sprains, swellings, cuts, lameness, from whatever cause, in any part of the body or limbs, and is also good for galls, scratches, wounds, etc.

As a household liniment it has no equal; its effect on human flesh is marvellous. It is used with the most gratifying results in cases of lameness or any deep-seated pain—as in rheumatism, sprains, strains, burns, bruises, frost-bites, corns, etc.

The increased demand for Kendall's Spavin Cure, within the past three years, has compelled the proprietors to build the large and commodious building, represented above, in which they manufacture and bottle the Spavin Cure. The building is especially adapted to their use, containing offices, and private offices, advertising, printing, manufacturing, bottling, and packing departments, and now even the Company with this spacious building, are finding themselves they expect to have to enlarge their laboratories, as now a large amount of their work has to be done outside.

Much could be said to show the great success already achieved, but we give below copies of a few letters from prominent men who have used the Spavin Cure, which shows plainly, in a few words, what reputation it has, by parties who are perfectly familiar with it.

Office of G. W. Voorhis, Proprietor Hamtramck Driving Park and Park House.

DETROIT, MICH., April 12, 1881.
B. J. KENDALL & Co., Gents:—The "Treatise on the Horse and his Diseases" you sent me is at hand, and think it a first-class book.
Your Kendall's Spavin Cure I have used for the last three years, and think it the best medicine I ever saw for Spavin and Splint, and will freely recommend it to my friends.
Yours Respectfully,
G. W. VOORHIS.

FROM COL. L. T. FOSTER.
YOUNGSTOWN, OHIO, May 10, 1880.

Dr. B. J. KENDALL & Co., Gents:—I had a very valuable Hambletonian colt which I prized very highly. He had a large bone-spavin on one joint and a small one on the other, which made him very lame; I had him under the charge of two veterinary surgeons, who failed to cure him. I was one day reading the advertisement of Kendall's Spavin Cure in the "Chicago Express." I determined at once to try it, and got our druggists hereto send for it. They ordered three bottles; I took them all and thought I would give it a thorough trial. I used it according to directions, and the fourth day the colt ceased to be lame, and the lumps have disappeared. I used but one bottle, and the colt's limbs are as free from lumps and as smooth as any horse in the State. He is entirely cured. The cure was so remarkable that I let two of my neighbors have the remaining two bottles, who are now using it.

Very Respectfully,
L. T. FOSTER.

FROM A PROMINENT PHYSICIAN.
WASHINGTONVILLE, OHIO, June 17, 1880.

Dr. B. J. KENDALL & Co., Gents:—Reading your advertisement in "Turf, Field, and Farm," of Kendall's Spavin Cure, and having a valuable and speedy horse which had been lame from spavin for eighteen months, I sent to you for a bottle by express, which in six weeks removed all lameness and enlargement, and a large splint from another horse, and both horses are to-day as sound as colts. The one bottle was worth to me one hundred dollars.

Respectfully yours,
H. A. BERTOLETT, M.D.

KENDALL'S SPAVIN CURE.
ZIONSVILLE, IND., Nov. 31, 1880.

Dr. B. J. KENDALL & Co., Gents:—I have your valuable Treatise on the Horse and his Diseases, and your Kendall's Spavin Cure. My horses have the epizootic. One of them could not draw for two days. I applied your Kendall's Spavin Cure twice to her throat and it gave most instant relief. I think I could sell 1,000 of your books. Please give prices to agents.

Yours truly,
PETER BOWEN.

HARRISBURG, PA., Nov. 18, 1880.

Dr. B. J. KENDALL & Co., Gents:—I have a very fine mare that has had a bone spavin for a long time. I tried every thing man could devise to cure it, but all in vain, and was about to give it up when a friend of mine in this city came to me and recommended Kendall's Spavin Cure, which I tried with grand results, removing that bone clear and clean; and I sent 25 cents to you for one of your illustrated Horse Books, and I think there is no better book printed on the horse and his diseases. I have taken great interest in it and have since sold 15 copies for you to my neighbors, and will try to do what good I can by getting them for others.

Yours truly,
G. W. MILLER.

STATEMENT MADE UNDER OATH.
To whom it May Concern:—In the year 1875, I treated with "Kendall's Spavin Cure," a bone spavin of several months' growth, nearly half as large as a hen's egg, and completely stopped the lameness and removed the enlargement. I have worked the horse ever since very hard, and he never has been lame, nor could I ever see any difference in the size of the hock-joints since I treated him with "Kendall's Spavin Cure."

R. A. GAINES.
ENOSBURGH FALLS, Vt., Feb. 25, 1879.
Sworn and subscribed to before me this 25th day of Feb., A.D. 1879. JOHN G. JENNE, Justice of the Peace.

KENDALL'S SPAVIN CURE.
FREMONT, OHIO, Jan. 25, 1881.

Dr. B. J. KENDALL & Co., Gents:—I think it my duty to render you my thanks for benefits and profits which I have derived from your invaluable and far-famed "Kendall's Spavin Cure." My cousin and I had a valuable stallion, worth \$4,000, which had a very bad spavin, and was pronounced by four eminent veterinary surgeons beyond any cure, and that the horse was done for ever. As a last resort, I advised my cousin to try a bottle of Kendall's Spavin Cure. It had a magical effect; the third bottle cured it, and the horse is as well as ever. Dr. Dick, of Edinburgh, the eminent veterinary surgeon, was an uncle of mine, and I take great interest in assisting his profession.

Yours truly,
JAMES A. WILSON, Civil Engineer.

On Human Flesh.
We feel confident that we speak the truth when we say that no liniment was ever discovered that works so well on human flesh as Kendall's Spavin Cure.

ALBANY, N.Y., Sept. 25, 1880.
B. J. KENDALL & Co., Gents:—Enclosed find 25 cents for your recently published horse book; the revised edition. I have used your Kendall's Spavin Cure, in bad cases, with very fine results, and I would not be without it for four times the amount per bottle. It is equally as well for man as for beast. I fell from a high tree about four years ago, and have complained of my back ever since, until about two months ago I began using your Kendall's Spavin Cure, and have not been able to complain since. My doctor says that he had expected me to be a cripple for life, as he could not do anything for my spine. Please to send the book to

CHARLES L. OOTHOUT, ALBANY, N.Y.

BAKERSFIELD, VT., Dec. 23, 1880.
Dr. B. J. KENDALL & Co., Gents:—In the spring of 1862 I slipped on the ice and sprained my right limb at the knee-joint. I was very lame, and at times have suffered the most excruciating pain since. In April, 1878, I began to think I should be a cripple for life. I used one-third of a bottle of Kendall's Spavin Cure, and experienced relief at once. I feel very grateful to you, and would recommend Kendall's Spavin Cure to all who suffer with sprains or rheumatism.
